## **Religion Today A Reader:**

**Religion Today: A Reader** Susan Mumm, 2017-05-15 Organized by themes which are central to understanding religion today Suitable for advanced undergraduates emphasis on controversy and debates in the field International range of sources and religions Includes popular as well as scholarly sources *Reading Modernity, Modernism and Religion Today* Patrick Grant, 2024-11-27 Feelings of rootlessness fragmentation and loneliness are endemic in today's secular societies In the late nineteenth century Emile Durkheim described this kind of social malaise as anomie a concept which this book locates within a historical narrative of the emergence of Modernism from Modernity The book focuses on two representative figures Benedictus de Spinoza and Vincent van Gogh on whose work it offers some significant new perspectives Spinoza drew up a blueprint for Modernity which is to say the cultural transformations that took place as a result of the Scientific Revolution and the Protestant Reformation In counterpoint to his overriding confidence in reason a persistent current in Spinoza's writing shows how concerned he was about a possible loss of confidence in his governing idea of a single Substance the philosophical God with which he sought to replace the creator God of the Bible In promoting art as a means of filling the gap left by the absence of Spinoza's philosophical God and the failures of traditional Christianity Van Gogh also discovered the limitations of the vocation to which he had dedicated himself He concluded that in the tension between art and anomie a new kind of religious sensibility and understanding might emerge This remains the case in the current postmodern cultural phase when fragmentation and incoherence are summoning up new assessments and reconfigurations of values promoting new forms of solidarity dialogue and religious understanding *Perspectives on Civil Religion* Gerald Parsons, 2017-10-23 This title was first published in 2002 *Perspectives on Civil Religion* introduces the concept of civil religion examines the use of the concept in recent scholarship and investigates examples of civil religion in the contemporary world The book sets out to explore tensions and complexities in the relationship between the sacred and the secular and draws on two major case studies for in depth illustration of key issues It looks first at the development of rituals of remembrance from the American civil war British and American responses to the two world wars and the controversial Vietnam Veterans Memorial in Washington It then considers civil religion in the Italian city of Siena especially in relation to the Palio of Siena and Sienese devotion to the Virgin The five textbooks and Reader that make up the Religion Today Open University Ashgate series are From Sacred Text to Internet Religion and Social Transformations Perspectives on Civil Religion Global Religious Movements in Regional Context Belief Beyond Boundaries Religion Today A Reader **The Reader's Digest** De Witt Wallace, Lila Acheson Wallace, 1928 **Faith in Reading** David Paul Nord, 2004-08-19 In the twenty first century mass media corporations are often seen as profit hungry money machines It was a different world in the early days of mass communication in America Faith in Reading tells the remarkable story of the noncommercial religious origins of our modern media culture In the early nineteenth century a few visionary entrepreneurs decided the time was right to reach everyone in

America through the medium of print Though they were modern businessmen their publishing enterprises were not commercial businesses but nonprofit societies committed to the publication of traditional religious texts Drawing on organizational reports and archival sources David Paul Nord shows how the managers of Bible and religious tract societies made themselves into large scale manufacturers and distributors of print These organizations believed it was possible to place the same printed message into the hands of every man woman and child in America Employing modern printing technologies and business methods they were remarkably successful churning out millions of Bibles tracts religious books and periodicals They mounted massive campaigns to make books cheap and plentiful by turning them into modern mass produced consumer goods Nord demonstrates how religious publishers learned to work against the flow of ordinary commerce They believed that reading was too important to be left to the market revolution so they turned the market on its head seeking to deliver their product to everyone regardless of ability or even desire to buy Wedding modern technology and national organization to a traditional faith in reading these publishing societies imagined and then invented mass media in America

**Reading Spiritualities** Dawn Llewellyn, 2016-04-01 The phenomenon of sacred text has undergone radical deconstruction in recent times reflecting how religion has broken out of its traditional definitions and practices and how current literary theories have influenced texts inside the religious domain and beyond Reading Spiritualities presents both commentary and vivid examples of this evolution engaging with a variety of reading practices that work with traditional texts and those that extend the notion of text itself The contributors draw on a range of textual sites such as an interview Caribbean literature drama and jazz women s writings emerging church blogs Neopagan websites the reading practices of Buddhist nuns empirical studies on the reading experiences of Gujarati Christian and post Christian women Chicana short stories the mosque cinema modern art and literature These examples open up understandings of where and how sacred texts are emerging and being reassessed within contemporary religious and spiritual contexts and make room for readings where the spiritual resides not only in the textual but in other unexpected places Reading Spiritualities includes contributions from Graham Holderness Ursula King Michael N Jagessar David Jasper Anthony G Reddie Mich le Roberts and Heather Walton to reflect and encourage the interdisciplinary study of sacred text in the broad arena of the arts and social sciences It offers a unique and well focused snapshot of the textual constructions and representations of the sacred within the contemporary religious climate accessible to the general reader as well as more specialist interests of students and researchers working in the crossover fields of religious theological cultural and literary studies

*The Congregationalist* ,1925 **Faith, Hope, and Love** Troy DuJardin, M. David Eckel, 2022-07-22 These essays consider the three traditional theological virtues faith hope and love alongside their opposites doubt despair and hate from a scholarly perspective The volume includes contributions not just from philosophers of religion but also from psychologists sociologists and film and literature scholars to paint a complex and nuanced picture of these virtues both of how we might understand them and how we can hope to embody them ourselves

While these virtues make up a core part of the Christian tradition the chapters here go far and wide in search of different cultural conceptions of these universal human concerns Inquiries are made into these virtues within Hindu Buddhist Jewish and Islamic thought alongside philosophers including Aristotle Hegel Kierkegaard Nietzsche Levinas and Murdoch The resulting tapestry is often beautiful sometimes horrific but always thoroughly human This text appeals to students and researchers working in these fields Chapter 9 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)     [An Esoteric Reading of Biblical Symbolism](#) Mrs. Harriet Tuttle Bartlett,1916

Watson, 2019-08-12 For over three decades an Ideological Surround Model ISM has pursued theoretical and methodological innovations designed to enhance the truth and objectivity of research into psychology and religion The foundational argument of the ISM is that psychology as well as religion unavoidably operates within the limits of an ideological surround Methodological theism therefore needs to supplement the methodological atheism that dominates the contemporary social sciences Methodological theism should operationalize the meaningfulness of religious traditions and demonstrate empirically that the influences of ideology cannot be ignored The ISM more generally suggests that contemporary social scientific rationalities need to be supplemented by more complex dialogical rationalities Beliefs in secularization should also be supplemented by beliefs in trans rationality *The Catholic Reading Circle Review* , 1895
