these reforms beyond the Middle East      Modernity and the Pandemic Sean Creaven,2023-12-01 Modernity and the Pandemic Decivilization Imperialism and COVID 19 applies the tools of critical social theory to make sense of the COVID 19 crisis and presents a critical sociological analysis of aspects of the political and community response to the pandemic The book focuses on key themes integral to a sociology of pandemics in the global age Firstly Creaven argues that cultures of individualism and consumerism and of pervasive and deeply entrenched social inequalities that is decivilization significantly weaken the cause of public health by weakening the compliance of people with state mandated non pharmaceutical interventions including and especially physical distancing rules and encouraging vaccine hesitancy Secondly Creaven examines how interstate competition and imperial politics have undermined an effective global policy response to the COVID 19 pandemic Policy failure with regard to the management of the pandemic is interpreted as being rooted in the dominance of neoliberal ideology and governance in the politics of international relations particularly in the politics of the leading state actors by protecting corporate interests at the expense of public health and in the constraints imposed on state actors by the competitive dynamic of multinational capitalism in the global age Modernity and the Pandemic will appeal to scholars in the humanities and social sciences with interests in neoliberalism and its social cultural and epidemiological impacts      *Three Kings* Lloyd C. Gardner,2011-04 Three Kings reveals a story of America s scramble for political influence oil concessions and a new military presence based on airpower and generous American aid to shaky regimes in Saudi Arabia Iran Egypt and Iraq Marshaling new and revelatory evidence from the archives Lloyd Gardner deftly weaves together three decades of U S moves in the region to offer the first history of America s efforts to supplant the British empire in the Middle East From the early efforts to support and influence the Saudi regime including the creation of Dhahranairbase the target of Osama bin Laden s first terrorist attack in 1996 and the CIA engineered coup in Iran to Nasser s Egypt and finally the rise of Iraq as a major petroleum power Three Kings is a valuable contribution to our understanding of our still deepening involvement in this region Booklist As American policy makers and military planners grapple with the U S withdrawal from Iraq Gardner uncovers the largely hidden story of how the United States got into the Middle East in the first place      Energy Victory Robert Zubrin,2010-09-09 In this compelling argument for a new direction in U S energy policy a world renowned engineer and the bestselling author of The Case for Mars lays out a bold plan for breaking the economic stranglehold that the OPEC oil cartel has on the world With a new Preface and Postscript by the author      The Erasure of Arab Political Identity Salam Hawa,2017-01-20 This book explores the long history of the evolution of Arab political identity which predates the time of the Prophet Muhammad and is characterized by tolerance compassion generosity hospitality self control correct behaviour equality and consensus The author argues that present day struggles in many Arab countries to redefine polities and politics are related to the fact that the underlying political culture of the Arabs has been overridden for centuries by successive political regimes which have deviated from the original political culture that the Prophet adhered to The book outlines the

political culture that existed before Islam examines how the Conquests and the rule of the early dynasties Umayyad and Abbasid of the Islamic world found it necessary to override it and analyses the effect of rule by non Arabs successively Mamluks Ottoman Turks and Western colonial powers It discusses the impact of these distortions on present day politics in the Arab world and concludes by appealing for a reawakening of and respect for the cultural elements underlying the origins of Arab political identity
