The Flourishing of Jewish Sects in the Maccabean Era: An Interpretation Albert I. Baumgartner, 2021-12-06 This volume asks why Jewish groups Sadducees Pharisees Essenes and the Dead Sea Scroll sect flourished during the Maccabean era It argues that such a result is uncommon requiring special explanation In the introduction sectarianism is defined and its varieties in Second Temple Judaism assessed Among the causes of the known results suggested are the encounter with an outside culture that seemed to be weakening the external national perimeter the impact of expanded literacy the move to the city from the farm as well as eschatological hope aroused by Maccabean victory In proposing these conclusions full advantage is taken of recently published Qumran sources such as 4QMMT The objective is to discover the connection between context and consequence which will explain why sectarianism was so prominent at that time

Divine Hierarchies Sean McCloud, 2009-01-05 Placing the neglected issue of class back into the study and understanding of religion Sean McCloud reconsiders the meaning of class in today's world More than a status grounded in material conditions says McCloud class is also an identity rhetorically and symbolically made and unmade through representations It entails relationships identifications boundaries meanings power and our most ingrained habits of mind and body He demonstrates that employing class as an analytical tool that cuts across variables such as creed race ethnicity and gender can illuminate American religious life in unprecedented ways Through social theory historical analysis and ethnography McCloud makes an interdisciplinary argument for reinserting class into the study of religion First he offers a new three part conception of class for use in studying religion He then presents a focused cultural history of religious studies by examining how social class surfaced in twentieth century theories of religious affiliation He concludes with historical and ethnographic case studies of religion and class Divine Hierarchies makes a convincing case for the past and present importance of class in American religious thought practice and scholarship

Pentecostal Pacifism Jay Beaman, 2009-11-01 At a time when the Evangelical wing of the church is beginning to show some signs of soul searching over the issues of war and peace the Pentecostals would do well to study their own heritage Whether they accept or reject their earlier world view they need to interpret the motivation for their original beliefs and those which they now hold As people of the word of God have Pentecostals altered their pacifistic views as a result of new biblical insights or cultural accommodation From the Introduction

Beyond Conformity Or Rebellion Gary Schwartz, 1987-07-06 Abstract In this new study of high school aged youth in the early 70 s the author reveals subtle yet significant changes in the style of deviance in adolescent culture The argument is made that a new peer group pluralism emerged from the 60 s which is characterized by a deviance defined less by persistent violations of the law than by disengagement from traditional images of success and civic responsibility This work is based on an ethnographic study of six communities located in a midwestern agricultural and industrial state This study will be of interest to individuals involved in the fields of adolescence education delinquency and deviance community life and the texture of life and values among high school youth

Politics and Ideology in Canada Michael Ornstein, Michael Stevenson, 2003-02-18 Winner of

the Harold Adams Innis Prize Politics and Ideology in Canada examines a period of crucial historical change in Canada beginning in the mid 1970s when the crisis of the Keynesian welfare state precipitated a transition to a new political order based on the progressive downsizing of state involvement in the economy and society Using class and ideology as key concepts Michael Ornstein and Michael Stevenson examine this transition in terms of the nature of hegemony and hegemonic crisis and the conditions of political order and instability These concepts guide the interpretation of three large surveys of representative samples of the Canadian public and two unique elite surveys conducted between 1975 and 1981 The surveys cover an exceptionally broad spectrum of political issues including social programs civil and economic rights economic policy foreign ownership labour relations and language issues and sovereignty A wide ranging analysis of public and elite attitudes reveals a hegemonic order through the early 1980s built around public support for the institutions of the Canadian welfare state But there was also widespread public alienation from politics Public opinion was quite strongly linked to class but not to party politics Regional variation in political ideology on a broad range of issues was less pronounced than differences between Quebec and English Canada Much deeper ideological divisions separated the elites with a dramatic polarization between corporate and labour respondents State elites fell between these two though generally more favourable to capital The responses of the business elites reveal the ideological roots of the Mulroney years in support for cuts in social programs free trade privatization and deregulation

Religion and Poverty Benjamin Beit-Hallahmi, Waleed Chellani, Logan Cochrane, Divya Kannan, Alvin Lim, Atara Moscovitch, Sabine Müller, Jeremiah Unterman, 2015-09-23 Nowadays religions are especially important for those who are living in countries of the formerly so called Third World The miseries of life seem to be so hard that just an afterlife in a transcendent paradise is promising relief Consequently there seems to be a close connection between religion and poverty especially in the 21st century when the hope for a better afterlife has become a driving force of the poor population of the world However what could be interpreted as a proof of the Marxist doctrine of religion as opium of the people for sure deserves a more multiperspectival approach which would not just cover the recent years of human history but past centuries as well as the different religions around the globe Therefore the second issue of Global Humanities traces the interrelationship between religion and poverty not only from a historical but also from a sociological religious and artistic perspective

Social Class and Marxism Neville Kirk, 2017-07-05 In recent years historians and other social scientists have widely questioned the continued relevance of social class as historical relationship as sociological category as philosophical concept and in terms of its enduring political significance The success of the British Conservative Party since 1979 combined with the weaknesses and failures of the Labour movement have led historians and social scientists to reconsider the general nature of connections between the social and the political and the specific relations between the working class and socialist and Labour politics This collection of essays is a multi disciplinary critique of the new revisionism which demonstrates the continued vitality and promise of non reductionist and non determinist modes of class analysis

Doob, 2019-05-22 Social Inequality and Social Stratification in US Society uses a historical and conceptual framework to explain social stratification and social inequality The historical scope gives context to each issue discussed and allows the reader to understand how each topic has evolved over the course of American history The author uses qualitative data to help explain socioeconomic issues and connect related topics Each chapter examines major concepts so readers can see how an individual's success in stratified settings often relies heavily on their access to valued resources types of capital which involve finances schooling social networking and cultural competence Analyzing the impact of capital types throughout the text helps map out the prospects for individuals families and also classes to maintain or alter their position in social stratification systems [A Liberating Spirit](#) Michael Wilkinson, Steven M. Studebaker, 2010-09-13 The historical ambivalence among Pentecostals about their relationship to culture and society needs evaluation How do we understand Pentecostal engagement with society and how are Pentecostals in North America engaging issues of race class gender and ecology What theologically motivates North American Pentecostals to respond to social issues What categories best explain Pentecostal responses to social issues in North America How do they compare to Pentecostal responses elsewhere Recently scholars of global Pentecostalism have proposed that the experience of the Spirit among Pentecostals has elicited the development of a Pentecostal theology of liberation which has implications for understanding Pentecostal responses to social issues These projects primarily explore the Pentecostal response to cultural issues in areas outside of North America and especially focus on Africa Asia and Latin America This volume assesses whether the categories of social liberation applied to non Western Pentecostalism characterize Pentecostalism in North America Is there evidence of a Pentecostal theology of liberation that explains Pentecostal engagement in North America Do social liberation categories fit the North American Pentecostal responses to social issues or are others more suitable These and other important questions about the relation between liberation theology and North American Pentecostalism are thoroughly explored in this important collection of essays **Religion and Ideology** Robert Bocco, Kenneth Thompson, 1985 **The Ideology of Home Ownership** R. Ronald, 2008-05-28 Demand for owner occupied housing has expanded dramatically across modern industrialized societies in recent years leading to volatile increases in residential property values This book explores the rise of modern home ownership as a cultural socio political and ideological phenomenon
