## **Sectionalism Politics And American Diplomacy:**

*Sectionalism, Politics, and American Diplomacy* Edward W. Chester, 1975      *Democracy and Diplomacy* Melvin Small, 1996 The book gives particular attention to the events of the twentieth century when the United States became a major power and then a superpower      *Historical Dictionary of U.S. Diplomacy from the Revolution to Secession* Debra J. Allen, 2012-09-13 Historical Dictionary of U S Diplomacy from the Revolution to Secession covers the period from 1776 when the nation declared its independence from Great Britain through 1861 when the Civil War presented the biggest challenge to the continuation of the republican experiment Probably the most common misconception about the diplomatic history of this period is that American leaders tried to stay isolated from world events when in fact the early United States was part of one grand interwoven tapestry of nations The Historical Dictionary of U S Diplomacy from the Revolution to Secession relates the events of this crucial period in American history through a chronology an introductory essay and several hundred cross referenced dictionary entries on key persons places events institutions and organizations This book is an excellent access point for students researchers and anyone wanting to know more about American diplomacy      **The American South and the Vietnam War** Joseph A. Fry, 2015-06-19 To fully comprehend the Vietnam War it is essential to understand the central role that southerners played in the nation s commitment to the war in the conflict s duration and in the fighting itself President Lyndon B Johnson of Texas and Secretary o      *The Political Economy of Grand Strategy* Kevin Narizny, 2007 A nation s grand strategy rarely serves the best interests of all its citizens Instead every strategic choice benefits some domestic groups at the expense of others When groups with different interests separate into opposing coalitions societal debates over foreign policy become polarized along party lines Parties then select leaders who share the priorities of their principal electoral and financial backers As a result the overarching goals and guiding principles of grand strategy as formulated at the highest levels of government derive from domestic coalitional interests In *The Political Economy of Grand Strategy* Kevin Narizny develops these insights into a comprehensive theoretical framework for understanding the dynamics of security policy The focus of this analysis is the puzzle of partisanship The conventional view of grand strategy in which state leaders act as neutral arbiters of the national interest cannot explain why political turnover in the executive office often leads to dramatic shifts in state behavior Narizny in contrast shows how domestic politics structured foreign policymaking in the United States and Great Britain from 1865 to 1941 In so doing he sheds light on long standing debates over the revival of British imperialism the rise of American expansionism the creation of the League of Nations American isolationism in the interwar period British appeasement in the 1930s and both countries decisions to enter World War I and World War II

**American Political Science Research Guide** George W. Johnson, 2012-12-06 The American PoZiticaZ Science Research Guide to their efforts Individuals in administra is a new series dealing generally with Ameri tive positions will also find that the APSRG offers a means for keeping current on public can government and specifically with public administration

state and local government policy questions despite the normal restriction of the legislative and executive branches and time and circumstance the judiciary The key to the entire program is the use of the database of the Political Science Series of As an innovative idea the APSRG is an approach to political research which focuses upon a the Universal Reference System Combining a single area within the discipline of political sciences of the definitive URS Supplement and a science The first in a proposed series of refined indexing procedure the APSRG is a softcover research guide the APSRG is reproduced under the supervision of the same scholarly organization of the guiding principle of providing scholars who develop that annual supplement

**St. Louis and Empire** Henry W Berger, 2015-04-23 From its eighteenth century French fur trade origins to post Cold War business dealings with Latin America and Asia the city has never neglected nor been ignored by the world outside its borders In this pioneering study Henry W Berger analyzes St Louis's imperial engagement from its founding in 1764 to the present day revealing the intersection of local political cultural and economic interests in foreign affairs The New South Faces the World Tennant McWilliams, Tennant S. McWilliams, 2007-01-15 McWilliams book is a subtle exploration of the evolution of southern ideas and actions about foreign policy Virginia Quarterly Review *Dixie Looks Abroad* Joseph A. Fry, 2002-01-01 As America's most self-conscious section the South has exercised an important and often decisive influence on U S foreign relations but the extent of this influence has been largely unexplored by historians In this groundbreaking study Joseph A Fry provides a comprehensive overview of the South's role in U S international involvement from 1789 to 1973 revealing the enormous impact of southern pressure on broader national interests In a gracefully written and engaging narrative Fry chronicles the South's numerous foreign policy opinions over time including its opposition to closer relations with Great Britain and war with France in the 1790s its leadership in the War of 1812 its flawed diplomatic attempts during the years of the Confederacy and its fifty year protest against the increasingly assertive Republican dominated political agenda following the Civil War With the election of Woodrow Wilson Fry shows the South reversed its tendency toward isolationism and consistently supported Wilson's activist foreign policies The South sustained this interventionist mind set into the 1970s ardently supporting cold war containment policy Fry is careful to note that southerners seldom presented a completely united front on foreign affairs Yet even while disagreeing among themselves he argues they consistently viewed the world through a distinctly southern lens and acted on a variety of perceived common interests including a dedication to honor and patriotism a determination to protect slavery a proclivity for personal violence a commitment to partisan politics a concern for economics and a preoccupation with race Though the South's foreign policy opinions varied widely through the years Fry's extraordinary work affirms that Dixie has always held considerable clout on the world stage *The Literature of the Ozarks* Phillip Douglas Howerton, 2019 This book surveys two centuries of Ozarks literature from an Osage creation story to contemporary poetry and fiction This anthology presents writings from more than forty authors and connects these works to major literary movements while exploring their regional themes and their contributions to the social construction of the

Ozarks      **Defining the National Interest** Peter Trubowitz,1998-02-17 The United States has been marked by a highly politicized and divisive history of foreign policy making Why do the nation s leaders find it so difficult to define the national interest Peter Trubowitz offers a new and compelling conception of American foreign policy and the domestic geopolitical forces that shape and animate it Foreign policy conflict he argues is grounded in America s regional diversity The uneven nature of America s integration into the world economy has made regionalism a potent force shaping fights over the national interest As Trubowitz shows politicians from different parts of the country have consistently sought to equate their region s interests with that of the nation Domestic conflict over how to define the national interest is the result Challenging dominant accounts of American foreign policy making *Defining the National Interest* exemplifies how interdisciplinary scholarship can yield a deeper understanding of the connections between domestic and international change in an era of globalization

**The South in Modern America** Dewey W. Grantham,2001-07-01 The South in Modern America is a lively and illuminating account of the Southern experience since the end of Reconstruction In the twentieth century as in the nineteenth the South has been the region most sharply at odds with the rest of the nation No other part of the country has as clear cut a sectional image The interplay between the South the North and the rest of the nation represents a rich and instructive part of the United States history illustrating much of the nation s conflict and tension the way it has tried to reconcile divergent issues and its struggles to realize its historical ideals In this new treatment of modern Southern history Dewey W Grantham illuminates the features that make the South a distinctive region while clarifying how it has converged socially and politically with the rest of the country during this century      *Encyclopedia of American Foreign Policy* Glenn P. Hastedt,2014-05-14

Presents an A to Z reference guide that examines United States foreign policy      **Alexis in America** Lee A. Farrow,2014-12-15 In the autumn of 1871 Alexis Romanov the fourth son of Tsar Alexander II of Russia set sail from his homeland for an extended journey through the United States and Canada A major milestone in U S Russia relations the tour also served Duke Alexis s family by helping to extricate him from an unsuitable romantic entanglement with the daughter of a poet Alexis in America recounts the duke s progress through the major American cities detailing his meetings with celebrated figures such as Samuel Morse and Henry Wadsworth Longfellow and describing the national self reflection that his presence spurred in the American people The first Russian royal ever to visit the United States Alexis received a tour through post Civil War America that emphasized the nation s cultural unity While the enthusiastic American media breathlessly reported every detail of his itinerary and entourage Alexis visited Niagara Falls participated in a bison hunt with Buffalo Bill Cody and attended the Krewe of Rex s first Mardi Gras parade in New Orleans As word of the royal visitor spread the public flocked to train depots and events across the nation to catch a glimpse of the grand duke Some speculated that Russia and America were considering a formal alliance while others surmised that he had come to the United States to find a bride The tour was not without incident many city officials balked at spending public funds on Alexis s reception and there were rumors of an

assassination plot by Polish nationals in New York City More broadly the visit highlighted problems on the national level such as political corruption and persistent racism as well as the emerging cultural and political power of ethnic minorities and the continuing sectionalism between the North and the South Lee Farrow joins her examination of these cultural underpinnings to a lively narrative of the grand duke's tour creating an engaging record of a unique moment in international relations

**The American Union and the Problem of Neighborhood** James E. Lewis Jr.,2000-11-09 In this book James Lewis demonstrates the centrality of American ideas about and concern for the union of the states in the policymaking of the early republic For four decades after the nation's founding in the 1780s he says this focus on securing a union operated to blur the line between foreign policies and domestic concerns Such leading policymakers as Thomas Jefferson James Madison James Monroe John Quincy Adams and Henry Clay worried about the challenges to the goals of the Revolution that would arise from a hostile neighborhood whether composed of new nations outside the union or the existing states following a division of the union At the center of Lewis's story is the American response to the dissolution of Spain's empire in the New World from the transfer of Louisiana to France in 1800 to the independence of Spain's mainland colonies in the 1820s The breakup of the Spanish empire he argues presented a series of crises for the unionist logic of American policymakers leading them finally to abandon a crucial element of the distinctly American approach to international relations embodied in their own federal union

Divided Union Scott A. Silverstone,2018-07-05 Between the Revolutionary War and the Civil War the United States was embroiled in competitive inter state politics Although it did not directly involve itself in European affairs the United States did engage regularly in dangerous struggles with other states and with colonial powers with territory on the American periphery Aside from the War of 1812 the Oregon Crisis and the Mexican War other near misses included here disputes of 1807 and 1809 with Britain with Spain over East Florida in 1811-13 with Mexico in 1853 and disputes with Spain over Cuba in 1853-55 and with Mexico in 1858-1860 have been ignored in the democratic peace literature Scott A Silverstone finds these cases particularly useful for testing alternative explanations of constraints on armed conflict because the United States backed down each time allowing each crisis to pass short of its full potential for violence Silverstone builds on a nascent theory of institutional constraints on the use of force presented in the Federalist Papers to explain American attitudes toward participation in conflicts He argues that the federal character of American democracy that emerged from the founding and the large size of the new American republic provide the keys to understanding its decision making processes Divided Union shows how the institutional features of federal union and the diverse social economic and security interests within this geographically extended republic created political conditions that impeded the use of force by the United States before the Civil War

United States Oil Policy and Diplomacy Edward W. Chester,1983-05-27 **US Foreign Policy** Michael Cox,Doug Stokes,2018 Critical and connected brings together diverse political perspectives from the world's leading experts giving students the tools to critically evaluate America's ever changing role in international politics and to connect theory to

real events      **US Foreign Policy in Action** Jeffrey S. Lantis, 2012-10-25 This innovative teaching text on United States foreign policy interprets the foreign policy decision making process through the lens of political debate and exchange It introduces historical developments and theories of U S foreign policy and engages students in the politics of the foreign policy process through innovative learning exercises Features critical analysis of contemporary trends in U S foreign policy including debates in the Obama administration foreign policy and the 2012 presidential election and reaction to the Arab Spring Written by an award winning teacher scholar in international relations with extensive experience in both policy making and pedagogy Views foreign policy decision making through the lens of political debate Offers fresh perspectives on historical developments as well as surveying prominent foreign policy theories Includes new and innovative participatory learning exercises exploring a range of themes including executive legislature conflict Contains extensive teaching and learning applications including discussion questions document templates worksheets suggested readings and links to web resources throughout      Age of Betrayal Jack Beatty, 2007-04-10 Age of Betrayal is a brilliant reconsideration of America's first Gilded Age when war born dreams of freedom and democracy died of their impossibility Focusing on the alliance between government and railroads forged by bribes and campaign contributions Jack Beatty details the corruption of American political culture that in the words of Rutherford B Hayes transformed a government of the people by the people and for the people into a government by the corporations of the corporations and for the corporations A passionate gripping scandalous and sorrowing history of the triumph of wealth over commonwealth
