

Security In Europe

Robert Edwards Hunter

Security In Europe:

Security in Europe Robert Edwards Hunter,1969 **Problems of Security and Cooperation in Europe** L. Acimovic,1981-02-18 **Security in 21st Century Europe** Andrew Cottey,2025-05-01 The nature of security in Europe has been transformed in recent years Security in 21st Century Europe argues that the defining feature of contemporary European security is the existence of a security community underpinned by the twin institutions of the EU and NATO but that today the European security community NATO and the EU face a growing array of external challenges and their ability to respond to those challenges is increasingly being called into question Offering a systematic assessment of security in contemporary Europe this third edition examines the changing character of European security and assesses the extent of the threats posed by recent challenges as well as the policy dilemmas involved in responding to these challenges It explores Europe s engagement with core thematic issues in European security including military intervention nuclear weapons terrorism and non military security Providing both a substantive contribution to academic thinking on European security and a overview of debates on contemporary European security this new edition offers 3 new chapters on migration climate change and cybersecurity Coverage of all recent major developments related to European security including the Syrian civil war and the regional destabilization arising from it Russia Ukraine crisis the rise of populism the migration crisis the acceleration of China s rise Security in 21st Century Europe combines theory and detailed empirical analysis exploring both how different theoretical perspectives can help us think about European security and concrete empirical developments in European security policies and institutions This text is the perfect companion for advanced undergraduate and Master s level courses on European security whether within courses in Security studies European studies or International Relations

European Security in a Global Context Thierry Tardy,2010-06-09 This new edited volume examines contemporary European security from three different standpoints It explores security dynamics first within Europe second the interaction patterns between Europe and other parts of the world the United States Africa the Middle East China and India and finally the external perceptions of European security The first part of the book analyses the European security landscape The roles of EU NATO and the OSCE are given particular attention as is the impact of their evolution or enlargement on the European security architecture and European security dynamics In this context Russia s repositioning as a major power appears as a shaping factor of contemporary European geopolitics The second part presents European security from an external perspective and considers interactions between Europe and other states or regions Security trends and actors in Europe are examined from an American Chinese and Indian perspective while Europe Africa and Europe Middle East relations are also addressed This book will be of great interest to students of European Security European politics and IR in general

Strategic Cultures in Europe Heiko Biehl,Bastian Giegerich,Alexandra Jonas,2013-04-09 European countries work together in crisis management conflict prevention and many other aspects of security and defence policy Closer cooperation

in this policy arena seems to be the only viable way forward to address contemporary security challenges Yet despite the repeated interaction fundamental assumptions about security and defence remain remarkably distinct across European nations This book offers a comparative analysis of the security and defence policies of all 27 EU member states and Turkey drawing on the concept of strategic culture in order to examine the chances and obstacles for closer security and defence cooperation across the continent Along the lines of a consistent analytical framework international experts provide case studies of the current security and defence policies in Europe as well as their historical and cultural roots

The Changing Politics of European Security S. Gänzle,A. Sens,2007-01-30 The Changing Politics of European Security explores the key security challenges confronting Europe from relations with the US and Russia to the use of military force and the struggle against terrorism In the future the authors conclude European states will act alone independent of America on security matters

Security in 21st Century Europe Andrew Cottey,2012-11-19 Fully revised and updated the second edition of this leading textbook provides a systematic assessment of security in contemporary Europe The book examines the changing character of security and assesses the extent of the threats posed by different challenges as well as the policy dilemmas involved in responding to these concerns The nature of security in Europe has been transformed in recent years Andrew Cottey argues that this is a result of two key developments the emergence of a security community a zone of peace where war is inconceivable across much of Europe and the presence of new security threats such as terrorism and energy dependence Set in the context of the rising power of non Western states and the continuing fall out from the global economic crisis this text provides a comprehensive analysis of Europe s new security challenges Europe s traditional problem of war between states is being displaced by a new and equally daunting set of security challenges While major war within Europe remains unlikely the 2008 Georgia war and the 2011 Libya war were reminders that violent conflicts are still prevalent on Europe s periphery and can pose major challenges for European governments NATO and the EU At the same time terrorism nuclear proliferation as well as non military problems like mass migration and climate change threaten Europe s security This text is the perfect companion for advanced undergraduate and Master s level courses on European security whether within courses in Security studies European studies or International Relations New to this Edition New framework for analysing European security Highly topical issues covered including Arab Spring rise of BRIC countries terrorism and European energy dependence

Remapping Security on Europe's Northern Borders Jussi P. Laine,Ilkka Liikanen,James W. Scott,2021-05-03 This book critically analyses the changing EU Russian security environment in the wake of the Ukraine crisis with a particular focus on northern Europe where the EU and the Russian Federation share a common border Russian involvement in conflict situations in the EU s immediate neighbourhood has drastically impacted the European security environment leading to a resurgence of competitive great power relations The book uses the EU Russia interface at the borders of Finland and the European North as a prism through which interwoven external and internal

security challenges can be explored Security is considered in the broadest sense of the term as the authors consider how the security environment is reflected politically socially and culturally within European societies The book analyses changing political language and concepts institutional preparedness border governance human security migration and wider challenges to societal resilience Ultimately the book investigates into Finland s preparedness to address new global security challenges and to find solutions to them on an everyday level This book will be an important guide for researchers and upper level students of security border studies Russian and European studies as well as to policy makers looking to develop a wider contextualized understanding of the challenges to stability and security in different parts of Europe

A Human Security Doctrine for Europe Marlies Glasius, Mary Kaldor, 2006-01-16 A Human Security Doctrine for Europe explores the actual needs of individual people in conflict areas rather than using a conventional institutional or geo political perspectives This new volume proposes that Europe should develop a new kind of human security capability that involves the military the police and civilians all working together to enforce law rather than to fight wars It argues that threats such as weapons of mass destruction or terrorism can only be countered if we address the insecurity of people in all parts of the world Many people in the world lead intolerably insecure lives In large parts of Africa the Balkans Central Asia and the Middle East men and women live in daily fear of violent attacks kidnapping rape extortion robbery or trafficking The existence of large military apparatuses does not create security indeed as in Iraq the use of regular military forces may only make things worse This stimulating study includes two chapters setting out the changed global context and proposing new approaches to security five regional studies on the Balkans the Great Lakes Region the Middle East the South Caucasus and West Africa four studies on different aspects of EU security policy including the legal setting the role of women operational principles and the role of the new member states four operational studies on capabilities resources and institutional embedding Written by a diverse team of international experts this book will of be of strong interest to students and researchers of security studies peace studies human rights and international relations

Contemporary European Security David J. Galbreath, Jocelyn Mawdsley, Laura Chappell, 2019-03-20 Contemporary European Security explores the complex European security architecture and introduces students to the empirical theoretical and conceptual approaches to studying the subject Written by experts in each subfield it addresses key topics within the wider strategic context of international security Presenting traditional and critical debates to illuminate this ever changing field it addresses specifically European security since 2000 and the end of the Cold War The evolution of International Relations theories in understanding security in Europe The role of NATO in the post war period and its strategy impact and enlargement The institutionalisation of the CSCE and the political tensions within the OSCE The EU s Common Security and Defence Policy and recent policy initiatives in defence Feminist conceptions of European security European military innovation Security challenges in the post Soviet space and the growing instability in the Middle East and North Africa The emergence of human security Internal and societal security This essential textbook will

be of key interests to students and scholars of European Security Security and Military studies Strategic Studies European Politics and International Relations *Europe's Common Security and Defence Policy* Michael E. Smith, 2017-06-08 A new conceptual framework for explaining and evaluating EU security assistance operations supported by extensive interviews with high level policy makers **Small States and Security in Europe** Tomás Weiss, Geoffrey Edwards, 2021-12-29 This book studies how domestic contestation influences the security policy of small states within the European Union and NATO A multinational group of expert contributors consider how domestic contestation is translated into small states foreign policies how membership of international organisations alters attitudes to security policy in small states and how patterns of small states behaviour across domestic traditions security cultures and geographical location can be identified Anchored in new institutionalism the book explores the influence of international organisations on security policies and the tensions created by connecting four strands of literature on Europeanisation on the impact of and on institutions on the way foreign and security policy is made and the security strategic culture of small states It will be of interest to all scholars and students of international relations security studies EU studies area studies and politics *European Security in a Global Context* Thierry Tardy, 2008-12-10 This new edited volume examines contemporary European security from three different standpoints It explores security dynamics first within Europe second the interaction patterns between Europe and other parts of the world the United States Africa the Middle East China and India and finally the external perceptions of European security The first part of the book analyses the European security landscape The roles of EU NATO and the OSCE are given particular attention as is the impact of their evolution or enlargement on the European security architecture and European security dynamics In this context Russia's repositioning as a major power appears as a shaping factor of contemporary European geopolitics The second part presents European security from an external perspective and considers interactions between Europe and other states or regions Security trends and actors in Europe are examined from an American Chinese and Indian perspective while Europe Africa and Europe Middle East relations are also addressed This book will be of great interest to students of European Security European politics and IR in general *Security and Defence in Europe* J. Martín Ramírez, Jerzy Biziewski, 2020-08-15 This book argues that security and defense have never been true priorities in the European Union and have constantly been marginalized by the elites since the Soviet Union collapsed and the Warsaw Pact disintegrated Despite the official rhetoric only a few tangible results can be presented concerning the operational readiness of European forces and the EU's inability to act was proven during the crises in the Balkans NATO has experienced similar problems as the majority of its members are EU countries Both organizations have declared their resolve concerning the security and defense of their nations and territories but unfortunately little has been done to lend these statements credence In this context the book analyzes several aspects of EU security and defense including the EU NATO relationship common defense policy and strategy common capability building common understanding of strategic changes common operational

planning and centrally synchronized exercises based on operational planning etc The member states have helped to make EU NATO effective organizations but unfortunately their individual interests and priorities constitute real challenges This aspect should be discussed and addressed by political and military elites scholars analysts students and the general public alike

The Routledge Handbook of European Security Law and Policy E. Conde,Zhaklin V. Yaneva,Marzia Scopelliti,2019-10-11 The Handbook of European Security Law and Policy offers a holistic discussion of the contemporary challenges to the security of the European Union and emphasizes the complexity of dealing with these through legislation and policy Considering security from a human perspective the book opens with a general introduction to the key issues in European Security Law and Policy before delving into three main areas Institutions policies and mechanisms used by Security Defence Policy and Internal Affairs form the conceptual framework of the book at the same time an extensive analysis of the risks and challenges facing the EU including threats to human rights and sustainability as well as the European Union s legal and political response to these challenges is provided This Handbook is essential reading for scholars and students of European law security law EU law and interdisciplinary legal and political studies **The European Security Strategy** Sven Biscop,2016-12-05 In December 2003 the EU adopted the European Security Strategy the first ever common strategic vision of the Member States This volume examines how the Strategy can form the basis of a comprehensive approach that integrates all dimensions of EU external action from aid and trade to defence under the same agenda of effective multilateralism or global governance This agenda can be translated into the core public goods to which every individual on earth is entitled promoting access to these global public goods can be the essence of a distinctive European approach emphasizing long term stabilization and conflict prevention On that basis the Strategy can be a global agenda for positive power global because of its worldwide scope and comprehensive nature for an EU with effective power to achieve positive objectives The book will appeal to audiences interested in the EU as an international actor foreign policy security and defence development and trade It is also suitable for policy makers in the EU institutions and the Member States

Redefining European Security Carl C. Hodge,2002-09-11 First published in 1999 Routledge is an imprint of Taylor Francis an informa company **China, Europe and International Security** Frans-Paul van der Putten,Chu Shulong,2012-02-20 This book examines the roles played by China and Europe in the domain of international security in the 21st century Bringing together Chinese and European expertise on the Sino European Security relationship this book positions Europe both the EU and the major national actors and China in a global security context It offers not merely an elaboration of the theme of bilateral security relations but also introduces a wider view on Europe and China as global security actors The chapters cover four main themes the perceptions of and actual relations between Europe and China as security actors relations of China and Europe with third parties such as the US Russia and Iran Europe and China as actors in multilateral security approaches Europe and China as potential security actors in each other s technological domain or

region Given the increasingly prominent roles that both China and Europe play in international security as permanent members of the UN Security Council in the European case through the informal and partial representation of the UK and France through their extensive global economic interests and their important relations with the USA this book provides a timely examination of the current state and future developments in the Sino European relationship This book will be of much interest to students of international security Chinese politics EU studies and IR in general *American Policy and International Security* American Academy of Political and Social Science,1925 **European Homeland Security** Christian Kaunert,Sarah Léonard,Patryk Pawlak,2012-05-04 This book examines the processes and factors shaping the development of homeland security policies in the European Union EU within the wider context of European integration The EU functions in a complex security environment with perceived security threats from Islamist terrorists migration and border security issues and environmental problems In order to deal with these the EU has undertaken a number of actions including the adoption of the European Security Strategy in 2003 the Information Management Strategy of 2009 and the Internal Security Strategy of 2010 However despite such efforts to achieve a more concerted European action in the field of security there are still many questions to be answered about whether the European approach is really a strategic one European Homeland Security addresses two major debates in relation to the development of homeland security in Europe First it reflects on the absence of homeland security in European political debate and its potential consequences Second it examines the significant policy developments in the EU that suggest the influence of homeland security ideas notably through policy transfer from the United States The book will be of great interest to students of European security and EU politics terrorism and counter terrorism security studies and IR
