Seeing And Believing Theology And Art:

Seeing and Believing William Arthur Purdy, 1976 **Seeing and Believing** Ellen T. Armour, 2023-07-04 Social media platforms are often denounced as bubbles or echo chambers In this view what we see tends to reinforce what we already believe and what we already believe shapes what we see Yet social movements such as Black Lives Matter rely heavily on the widespread dissemination of digital photographs and videos through social media In at least some cases visual images can challenge normative and normalized ways of grasping the world and prompt their viewers to see differently and even bring people together Seeing and Believing marshals religious resources to recast the significance of digital images in the struggle for social justice Ellen T Armour examines what distinguishes digital photography from its analogue predecessor and places the circulation of digital images in the broader context of virtual visual cultures She explores the challenges and opportunities that visually saturated social media landscapes present for users and organizers Despite the power of digital platforms and algorithms possibilities for disruption and resistance emerge from how people engage with these systems Armour offers ways of seeing drawn from Christianity and found in other religious traditions to help us break with entrenched habits and rethink how we engage with the images that grab our attention Developing theological perspectives on the power and peril of photography and technology Seeing and Believing provides suggestions for navigating the new media landscape that can spark what Armour calls photographic insurrection [The Oxford Handbook of Religion and the Arts](#) Frank Burch Brown, 2018 This volume offers 37 original essays from leading scholars on the crucial topics issues methods and resources for studying and teaching religion and the arts **Shape of Catholic Theology** Aidan Nichols, 2003-08-28 This study is an introduction to Catholic theology designed both for the theological student and for the general reader willing to make a certain effort After introducing the idea of theology and the virtues desirable in the budding theologian the bulk of the book falls into the five sections 1 the role of philosophy in theology 2 the use of the Bible in theology 3 the resources of tradition liturgy and sacred art Fathers Councils and Creeds the sense of the faithful 4 two aids to discernment in short history of Catholic theology from the New Testament to the present day The conclusion considers the features of pluralism and unity which should typify Catholic theology as a whole and suggests how unity may avoid becoming uniformity without pluralism becoming anarchy [Religion and Art in the Heart of Modern Manhattan](#) Aaron Rosen, 2017-07-28 When you're in New York the sculptor Louise Nevelson once said you're in perpetual resurrection She might have said the same thing about St Peter's Lutheran Church set in the heart of midtown Manhattan In the 1970s the church made a radical move scrapping its neo gothic building for a sleek modern structure in the shadow of a skyscraper The transformation was not just architectural Inside Nevelson created a shimmering chapel while over the years artists and designers such as Willem de Kooning Kiki Smith and Massimo and Lella Vignelli produced works for the sanctuary This fusion of modern art architecture and design was complemented by an innovative jazz ministry including funerals for Billy

Strayhorn and John Coltrane and performances by Duke Ellington and other jazz legends For the first time this volume examines the astounding cultural output of this single church Just as importantly the story of St Peter's serves as a springboard for wider reflections on the challenges and possibilities which arise when religion and art intersect in the modern city Working from a wide range of disciplines including art history theology musicology and cultural studies a distinguished group of scholars demonstrate that this church at the center of New York City deserves an equally central place in contemporary scholarship

Seeing Is Believing Richard Vance Goodwin, 2022-07-19 In this study in IVP Academic's STA series theologian Richard Goodwin considers how the images that constitute film might be a conduit of God's revelation By considering works by Stanley Kubrick Martin Scorsese Terrence Malick and more Goodwin argues that by inviting emotional responses film images can be a medium of divine revelation

Art and the Religious Impulse Eric Michael Mazur, 2002 This collection explores the relationship between religion and the arts and challenges presumptions held in society about these two fields Topics covered include church architecture folk art nineteenth century classical music contemporary fiction recent film performance art and the battles over public funding of the arts

Experience and Faith R. Brantley, 2016-04-30 Emily Dickinson 1830-86 recasts British Romantic themes of natural and spiritual perception for an American audience Her poems of science and technology reflect her faith in experience Her lyrics about natural history build on this empiricism and develop her commitment to natural religion Her poems of revealed religion constitute her experience of faith Thus Dickinson stands on the experiential common ground between empiricism and evangelicalism in Romantic Anglo-America Her double perspective parallels the implicit androgyny of her nineteenth century feminism Her counterintuitive combination of natural models with spiritual metaphors champions immortality The experience faith dialectic of her Late Romantic imagination forms the heart of her legacy

Beyond Belief Ronald R. Bernier, 2010-06-01 Beyond Belief Theoaesthetics or Just Old Time Religion explores the possible reemergence of a theological dimension to contemporary art Long estranged from symbol and sacrament contemporary artists and those who think and write about them seem to have turned once again to a vision rooted in the sacred In an era marked culturally by world weary cynicism and self-conscious irony a new humanism may be emerging one which aims to move beyond fragmentation and opposition to integration and unification The aim of this book is not to propose a resurgence of religious iconography but rather to give voice to long suppressed often maligned and certainly professionally risky positions informed by and reverberating with themes of the sacred The essays included here by a range of scholars working on these issues today originated as a lively and spirited session of the 2008 College Art Association annual conference

Origins of Religion, Cognition and Culture Armin W. Geertz, 2014-09-11 Attempts to understand the origins of humanity have raised fundamental questions about the complex relationship between cognition and culture Central to the debates on origins is the role of religion religious ritual and religious experience What came first individual religious ecstatic experiences collective observances of transition situations

fear of death ritual competence magical coercion mirror neurons or temporal lobe religiosity Cognitive scientists are now providing us with important insights on phylogenetic and ontogenetic processes Together with insights from the humanities and social sciences on the origins development and maintenance of complex semiotic social and cultural systems a general picture of what is particularly human about humans could emerge Reflections on the preconditions for symbolic and linguistic competence and practice are now within our grasp Origins of Religion Cognition and Culture puts culture centre stage in the cognitive science of religion

Religion and the Arts: History and Method Diane Apostolos-Cappadona,2017-11-06 In Religion and the Arts History and Method Diane Apostolos Cappadona presents an overview of the 19th century origins of this discrete field of study and its methodological journey to the present day through issues of repatriation museum exhibitions and globalization Apostolos Cappadona suggests that the fluidity and flexibility of the study of religion and the arts has expanded like an umbrella since the 1970s and the understanding that art was simply a visual exegesis of texts to now support the study of material popular and visual culture as well as gender She also delivers a careful analysis of the evolution of thought from traditional iconographies to the transformations once scholars were influenced by response theory and challenged by globalization and technology Religion and the Arts History and Method offers an indispensable introduction to the questions and perspectives essential to the study of this field
