Department of Printed Books,1967 **Red Calypso** Geoffrey Wagner,1988-01-01 Red Calypso tells the story of Grenada's fall to Marxist tyranny and the United States rescue of the island from a violent and fanatical government When Maurice Bishop took over the government of Grenada establishing a one party state on Leninist principles he did not know that he would one day fall victim to his own machinery The terror corruption and absurdity of Bishop's regime have never been described so vividly as in this eye witness account which analyses the brief experiment in Grenadian communism and the American invasion which ended it **United States Economist, and Dry Goods Reporter** ,1918 *The Corporate Eye* Elspeth H. Brown,2008-03 Winner Association of American Publishers Professional and Scholarly Publishing Award in Business Management and Accounting In the late nineteenth century corporate managers began to rely on photography for everything from motion studies to employee selection to advertising This practice gave rise to many features of modern industry familiar to us today consulting scientific approaches to business practice illustrated advertising and the use of applied psychology In this imaginative study Elspeth H Brown examines the intersection of photography as a mass technology with corporate concerns about efficiency in the Progressive period Discussing among others the work of Frederick W Taylor Eadweard Muybridge Frank Gilbreth and Lewis Hine Brown explores this intersection through a variety of examples including racial discrimination in hiring the problem of photographic realism and the gendered assumptions at work in the origins of modern marketing She concludes that the goal uniting the various forms and applications of photographic production in that era was the increased rationalization of the modern economy through a set of interlocking managerial innovations technologies that sought to redesign not only industrial production but the modern subject as well **T.P.'s Weekly** ,1929 History of Magic and Experimental Science (Vol. 1&2) Lynn Thorndike,2023-12-26 Lynn Thorndike's seminal work *History of Magic and Experimental Science* Volumes 1 2 is a groundbreaking exploration of the intricate interplay between magic alchemy and the nascent field of experimental science from antiquity to the Renaissance Thorndike employs a meticulous historical approach blending rigorous scholarship with an engaging narrative style that brings to life the evolution of scientific thought The two volumes cover a spectrum of practices and beliefs dissecting how magical traditions laid the groundwork for what would eventually become modern scientific

inquiry thus situating magic at the crux of intellectual history Thorndike a prominent historian of science in the early 20th century drew on his extensive background in both philosophy and history to illuminate the often overlooked connections between magic and science His deep interest in the historical roots of scientific practices coupled with a conviction that understanding these roots is crucial for comprehending modern science propelled him to undertake this ambitious project His work challenges the prevailing narrative that dismisses magic as mere superstition instead arguing for its essential role in shaping scientific minds This two volume set is invaluable for scholars students and anyone intrigued by the foundations of scientific thought Thorndike s intricate narrative not only enriches our understanding of history but also encourages readers to reassess the boundaries between magic and science It is a must read for those who wish to grasp the profound interrelation of cultural beliefs and scientific advancement
