**Jeffrey E. Anderson**

## **Seership The Magnetic Mirror 1896:**

**Hoodoo, Voodoo, and Conjure** Jeffrey E. Anderson, 2008-10-30 Hoodoo voodoo and conjure are part of a mysterious world of African American spirituality that has long captured the popular imagination. These magical beliefs and practices have figured in literary works by such authors as Toni Morrison, Alice Walker, and Ishmael Reed, and they have been central to numerous films such as *The Skeleton Key*. Written for students and general readers, this book is a convenient introduction to hoodoo, voodoo, and conjure. The volume begins by defining and classifying elements of these spiritual traditions. It then provides a wide range of examples and texts which illustrate the richness of these beliefs and practices. It also examines the scholarly response to hoodoo, voodoo, and conjure and explores the presence of hoodoo, voodoo, and conjure in popular culture. The volume closes with a glossary and bibliography. Students in social studies classes will use this book to learn more about African American magical beliefs, while literature students will enjoy its exploration of primary sources and literary works.

**Seership! the Magnetic Mirror** Paschal Beverly Randolph, 2014-03-29 This is a new release of the original 1896 edition.

**Voodoo** Jeffrey E. Anderson, 2024-03-20 Despite several decades of scholarship on African diasporic religion, Voodoo remains underexamined, and the few books published on the topic contain inaccuracies and outmoded arguments. In *Voodoo: An African American Religion*, Jeffrey E. Anderson presents a much-needed modern account of the faith as it existed in the Mississippi River valley from colonial times to the mid-twentieth century, when he argues it ceased to thrive as a living tradition. Anderson provides a solid scholarly foundation for future work by systematizing the extant information on a religion that has long captured the popular imagination as it has simultaneously engendered fear and ridicule. His book stands as the most complete study of the faith yet produced and rests on more than two decades of research utilizing primary source material alongside the author's own field studies in New Orleans, Haiti, Cuba, Senegal, Benin, Togo, and the Republic of Congo. The result serves as an enduring resource on the Mississippi River valley, Voodoo, Louisiana, and the greater African Diaspora.

*The Hermetic Brotherhood of Luxor* Joscelyn Godwin, 1995-01-01 The Hermetic Brotherhood of Luxor, active in the last decades of the 19th century, was the only order of its time that taught practical occultism in the Western Mystery Tradition. This is the first complete and undistorted account tracing the origins, founders, and practices of this very secretive order, which counted among its members many of the well-known figures of late 19th-century occultism, spiritualism, and Theosophy, including Max Theon, Peter Davidson, Thomas Henry Burgoyne, and Paschal Beverly Randolph. This scholarly work provides all the materials for revisioning the history, assigning the Hermetic Brotherhood of Luxor its rightful place as one of the most influential esoteric orders of its time.

**Victorian Literary Mesmerism**, 2006-01-01 Victorian Literary Mesmerism examines the engagement between literature and mesmerism in Victorian writing. Drawing on recent trends in interdisciplinary literary scholarship, the essays collected here investigate the complex connections between scientific mesmerism, its manifestations in the Victorian social and cultural world, and the literary imagination. Here, for the first time,

the varied themes and contexts shaped by mesmeric practices are brought together in one volume Mesmerism's influence on phrenology medicine and mental health its interaction with the occult and with communication technologies the effects of mesmeric principles on gender and sexuality as well as on criminal behaviour are all set within the context of literary texts that interrogate and critique mesmerism's influence on the Victorians This volume will be of interest therefore to scholars of Victorian literature and the history of science as well as to those interested in cultural history with a focus on gender sexuality and sciences of the mind

**Borderland** William Thomas Stead, 1896 *Inhaling Spirit* Anya P. Foxen, 2020 This book follows up on recent findings that modern postural yoga is the outcome of a complex process of transcultural exchange and syncretism and digs even deeper looking to uncover the disparate but entangled roots of contemporary yoga practice In doing so it proposes that some of what we call yoga especially when it comes to North America and Europe is only slightly genealogically related to pre modern Indian yoga traditions Rather they are equally if not more grounded in Hellenistic theories of the subtle body Western esotericism and magic pre modern European medicine and late nineteenth century women's wellness programs Marshalling these under the umbrella category of harmonialism the present book argues that they constitute a history of analogous practices that were gradually subsumed into the language of yoga This allows us to fundamentally recontextualize the peculiarities of Western and especially certain mainstream American form of yoga their focus on aesthetic representation their privileging of bodily posture and unsystematic incorporation of breathwork and above all their overwhelmingly privileged female demographics The initial chapters of the book lay out the basic shape and history of these concepts and practices while the later chapters explore their development into a spiritualized form of women's physical culture over the course of the late nineteenth and early twentieth centuries including the ways in which they became increasingly associated with yoga

*The Routledge Research Companion to Nineteenth-Century British Literature and Science* John Holmes, Sharon Ruston, 2017-05-18 Tracing the continuities and trends in the complex relationship between literature and science in the long nineteenth century this companion provides scholars with a comprehensive authoritative and up to date foundation for research in this field In intellectual material and social terms the transformation undergone by Western culture over the period was unprecedented Many of these changes were grounded in the growth of science Yet science was not a cultural monolith then any more than it is now and its development was shaped by competing world views To cover the full range of literary engagements with science in the nineteenth century this companion consists of twenty seven chapters by experts in the field which explore crucial social and intellectual contexts for the interactions between literature and science how science affected different genres of writing and the importance of individual scientific disciplines and concepts within literary culture Each chapter has its own extensive bibliography The volume as a whole is rounded out with a synoptic introduction by the editors and an afterword by the eminent historian of nineteenth century science Bernard Lightman
