Rethinking Intellectual Property Gustavo Ghidini, 2018 Intellectual property law is built on constitutional foundations and is underpinned by the twin freedoms of freedom of expression and freedom of economic enterprise In this thoughtful evaluation Gustavo Ghidini offers up a reconstruction of the core features of each intellectual property paradigm including patents copyright and trademarks suggesting measures for reform to allow intellectual property to become socially beneficial for all

Selected Statutes and International Agreements on Patent, Copyright, Trademark, and Unfair Competition Paul Goldstein, R. Anthony Reese, 2012 This compact volume contains all of the key patent copyright trademark and unfair competition statutes and related international agreements in a form convenient for student use This edition incorporates all of the changes made by the Leahy Smith America Invents Act adopted in September 2011 which substantially rewrote the U S Patent Act The amended statute appears as the main text but the volume also continues to include the existing provisions that are being gradually phased out by the new act In addition to the full text of the federal Patent Copyright and Trademark statutes it includes the principal intellectual property treaties and agreements as well as the Restatement Third of Unfair Competition and the Uniform Trade Secrets Act

International Intellectual Property Law and Human Security Robin Ramcharan, 2012-11-27 This book examines how intellectual property rights IPR affect the daily lives of individuals worldwide and how that may in turn impact the health and wealth of nations While the protection of the intellectual endeavours of authors and inventors is vital for a fair and just society it is important that the IPR regime remains flexible enough to encourage creativity innovation and the free flow of information and technology that are critical to the well being of billions of people especially in the developing world This work examines the implications of the IPR regime for basic human security It examines the relationship between IPR regime and fundamental human rights such as the right to education health and food and the broader right to development This book will be of interest to IP scholars international relations specialists and international security analysts in particular those interested in non traditional security issues It may also serve as resource book for the international business community on developmental and human rights aspects of IP

Innovation, Competition and Consumer Welfare in Intellectual Property Law Gustavo Ghidini, 2010-01-01 Professor Ghidini has long since made himself a worldwide reputation as a leading scholar He is a profound critic of intellectual property protection that follows rigid property logic and favours the functionalist competition innovation logic Innovation Competition and Consumer Welfare in Intellectual Property Law is truly enriching reading Hanns Ullrich College of Europe Bruges Belgium We in the United States have much to learn not only from Gustavo Ghidini's careful analysis of modern trends in the European IP regime but also from his thoughtful development of the thesis that free competition should be understood as the overarching principle guiding both IP protection and what we call antitrust law Rudolph J R Peritz New York Law School US and author of Competition Policy in America This authoritative book provides a comprehensive critical overview of the basic

IP paradigms such as patents trademarks and copyrights Their intersection with competition law and their impacts on the exercise of social welfare are analysed from an evolutionary perspective The analyses and proposals presented encompass the features and rationales of a legal field in constant evolution and relate them to increasingly rapid technological economic social and geo political developments Gustavo Ghidini highlights the emerging trends that challenge the traditional all exclusionary vision of IP law and its application The author expertly combines holistic evolutionary and constitutionally oriented approaches with the search for a rebalancing of the IP rights holders positions with citizens and users rights This book will appeal to academics scholars and lawyers specializing in the realm of intellectual property competition and comparative law

Reese,2015-07-17 This compact volume contains all of the key patent copyright trademark and unfair competition statutes and related international agreements in a form convenient for student use This edition incorporates all of the changes made by the Leahy Smith America Invents Act AIA which substantially rewrote the U S Patent Act and became fully effective in March 2013 as well as the 2013 Technical Corrections to the AIA The amended statute appears as the main text but the volume also continues to include the most important superseded provisions of the prior patent law The new edition also incorporates changes made by the Patent Law Treaties Implementation Act of 2012 as well as changes to the Economic Espionage Act In addition to the full text of the federal Patent Copyright and Trademark statutes it includes the principal intellectual property treaties and agreements as well as the Restatement Third of Unfair Competition and the Uniform Trade Secrets Act

Intellectual Property Law in South Korea Youngsun Cho,2019-10-23 Derived from the renowned multi volume International Encyclopaedia of Laws this monograph provides a survey and analysis of the rules concerning intellectual property rights in the South Korea It covers every type of intellectual property right in depth copyright and neighbouring rights patents utility models trademarks trade names industrial designs plant variety protection chip protection trade secrets and confidential information Particular

attention is paid throughout to recent developments and trends The analysis approaches each right in terms of its sources in law and in legislation and proceeds to such legal issues as subject matter of protection conditions of protection ownership transfer of rights licences scope of exclusive rights limitations exemptions duration of protection infringement available remedies and overlapping with other intellectual property rights The book provides a clear overview of intellectual property legislation and policy and at the same time offers practical guidance on which sound preliminary decisions may be based Lawyers representing parties with interests in the South Korea will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative intellectual property law

Competition and Intellectual Property Law in Ukraine Heiko Richter, 2023-01-22 This volume provides the most comprehensive contemporary academic writing on Ukrainian competition and intellectual property law in English Especially over the last few years these areas have been in considerable flux a main driver being the EU Ukraine Association Agreement The chapters cover a broad range of different topics and share a forward looking perspective They also outline the basic background that is necessary to understand the context of the issue discussed especially with regards to the legal system of Ukraine The publication is the result of a two year project and it is addressed to a wide range of international scholars practitioners and policy makers It aims to make the state of the art in Ukrainian legal scholarship visible and accessible to the international research community and to stimulate global debates in academia and politics Therefore it may be of interest and use to anyone who is interested in competition and intellectual property law and or in Ukraine

Intellectual Property and Competition Law Gustavo Ghidini, 2006-01-01 The book ends with a comprehensive selection of the relevant bibliography This part is all the more valuable to the reader as Ghidini does not simply list the relevant literature but puts it in its general context and comments on it Ghidini's book is a fascinating trip through the system of IP laws Beatriz Conde Gallego *Intellectual Property and Competition Law* Intellectual Property and Competition Law by Gustavo Ghidini provides a persuasively presented descriptive analysis of a distinctively European perspective on intellectual property law and its relationship to competition law Professor Ghidini expertly presents the evolution of intellectual property laws and its contemporary manifestations with respect to the expansion copyright law in technological fields and the inevitability conflict with patent law the attempt at creating monopolies such as in biotechnology and so much more A seminal work of impressive and articulate scholarship *Intellectual Property and Competition Law* should be considered mandatory reading for students and researchers in the field of intellectual property rights and a very strongly recommended addition to academic library International Economics and Judicial Studies reference collections The Economics Shelf Midwest Book Review the provocative nature of this book is one of its great strengths as are its cohesiveness and erudition Mel Marquis *European Competition Law Review* We in the United States have much to learn not only from Gustavo Ghidini's careful analysis of modern trends in the European IP regime but also from his thoughtful development of the thesis that free competition should be understood as the overarching principle

guiding both IP protection and what we call antitrust law Rudolph J R Peritz New York Law School author of Competition Policy in America and American Antitrust Institute US This rich and challenging book offers a critical appraisal of the relationship between intellectual property law and competition law from a particularly European perspective Gustavo Ghidini highlights the deficiencies in studying each of these areas of law independently and argues for a more holistic approach insisting that it is more useful and indeed essential to consider them as interdependent He does this first by examining how competition and intellectual property IP converge diverge and inform one another Secondly he assesses how IP law can be interpreted through the guiding principles of competition law antitrust and unfair competition and within the overarching principle of free competition The book traces the evolution of modern IP law which it claims is marked heavily both by over protectionist trends such as the extension of copyright law to technological fields where it trespasses on the territory of patent law and by attempts to monopolize the achievements of basic research such as in the example of biotechnology Through an examination of such emerging issues as access to standards of information and patenting of genetic materials the author makes a clear case for a reading of IP law that promotes dynamic processes of innovation by competition and competition by innovation with related benefits to consumer welfare such as wider choices greater access to culture and information and lower prices Advanced students and researchers in all areas of intellectual property will find this book a stimulating alternative to traditional interpretations of the subject

Ownership of Knowledge Dagmar

Schafer,Annapurna Mamidipudi,Marius Buning,2023-07-18 A framework for knowledge ownership that challenges the mechanisms of inequality in modern society Scholars of science technology medicine and law have all tended to emphasize knowledge as the sum of human understanding and its ownership as possession by law Breaking with traditional discourse on knowledge property as something that concerns mainly words and intellectual history or science and law Dagmar Sch fer Annapurna Mamidipudi and Marius Buning propose technology as a central heuristic for studying the many implications of knowledge ownership Toward this end they focus on the notions of knowledge and ownership in courtrooms workshops policy and research practices while also shedding light on scholarship itself as a powerful tool for making explicit the politics inherent in knowledge practices and social order The book presents case studies showing how diverse knowledge economies are created and how inequalities arise from them Unlike scholars who have fragmented this discourse across the disciplines of anthropology sociology and history the editors highlight recent developments in the emerging field of the global history of knowledge as science as economy and as culture The case studies reveal how notions of knowing and owning emerge because they reciprocally produce and determine each other s limits and possibilities that is how we know inevitably affects how we can own what we know and how we own always impacts how and what we are able to know Contributors Dagmar Sch fer Annapurna Mamidipudi Cynthia Brokaw Marius Buning Viren Murthy Marjolijn Bol Amy E Slaton James Leach Myles W Jackson Lissant Bolton Vivek S Oak J rn Oeder
