Ireland's Mysterious Lands and Sunken Cities Jon Douglas Singer,2001-04-13 The Emerald Isle of Ireland has inspired a vast number of legends about lost or sunken lands and cities These legends predate Roman and Christian influences This book examines the intriguing nature of these legends and reviews anthropological and geological evidence supporting them Was there indeed a Tir na nÓg the Land Under the Wave a combination of the dead and a paradise Reviewed in Ireland of the Week Vol 50 No 6 November December 2001 p 54 by Mary O'Sullivan Stories of sunken cities monasteries churches and royal palaces are scattered hither and yon across the broad landscape of Irish folklore The fishermen of Lough Neagh believe that their huge lake conceals the proud remains of palaces and temples more firmly than the inhabitants of Scotland accept the existence of the Lough Ness monster Hy Brazil or Hy Breasil the legendary sunken paradise island is of course somewhere off the western seaboard and thanks to its frequent reappearances on the surface it persists on maps into the sixteenth century The great Thomas Westropp reports personal sightings one evening after sunset in 1887 off the Clare coast and again in 1910 this time on the Mayo coast There are persistent stories of the image of a stately city clearly visible set in the sky above Galway bay usually during spells of warm calm sunny weather Come over next summer with an open mind You never know your luck **Lost Lands and Cities Beneath the Sea** Jon Douglas

Singer,1997 Lost Lands, Forgotten Realms (EasyRead Comfort Edition) , **Sunken Realms** Karen Mutton,2011-03-09 Australian researcher Karen Mutton has compiled the world's most extensive list of sunken cities and megalithic underwater sites currently known around the world She begins by discussing some of the causes for sunken ruins super floods volcanoes earthquakes at the end of the last great flood plate tectonics and other theories She then discusses Plato's Atlantis and the various areas of the Mediterranean and Atlantic that have been proposed as the location From there she launches into a worldwide cataloging of underwater ruins by region She begins with the many underwater cities in the Mediterranean and then moves into northern Europe and the North Atlantic She continues with chapters on the Caribbean and then moves through the extensive sites in the Pacific and Indian Oceans The final chapters are on ruins and structures in lakes and inland seas plus a brief look at modern and medieval sunken ruins Comes with plenty of maps illustrations and rare photos Places covered in this book include Tartessos Cadiz Morocco Alexandria The Bay of Naples Libya Phoenician and Egyptian sites Roman era sites Yarmuta Lebanon Cyprus Malta Thule Celtic Realms Lyonesse Ys and Hy Brasil Carnac Brittany Isle of Wight Canary and Azore Islands Bahamas Cuba Bermuda Mexico Peru Micronesia California Japan Indian Ocean Sri Lanka Land Bridge India Sumer Lake Titicaca and inland lakes in Scotland Russia Iran China Wisconsin Florida and more A unique and fascinating book This Shrinking Land Robert Duck,2019-07-29 The oceans are the graveyards of the lands Lands become eaten away by the action of the seas and it is no surprise to find that most of the world's shorelines are in a state of

erosion The fringes of Britain its cliffs and beaches are shrinking disappearing into the surrounding sea as a result of coastal flooding erosion and landsliding Is climate change speeding up the process are our homes our villages and towns at risk This book examines how the British coast is changing and why and what is being done to protect this island nation Are we doing enough Should we abandon vulnerable towns and villages to the seas as our forebears did and relocate coastal settlements inland These are some of the difficult and potentially emotive questions that this book explores Blending contemporary earth science and societal themes with historical and cultural records and a hint of myth and romance for good measure This Shrinking Land is a fascinating study of what we must learn from the past in order to manage the future of Britain s coasts

Atlantis of the West Paul Dunbavin, 2003-01-01 In 1995 the author first published his theory that Plato s Atlantis myth remembers the submergence of a Neolithic civilisation around the shores of the British Isles He argues that this cataclysm resulted from a change in the Earth s axis consequent upon a comet impact around 3100 BC The Middle Neolithic period around 5 000 years ago was a time of dramatic climate and sea level changes all around the world Welsh legends remember lost cities beneath the Irish Sea and Irish myths recall an otherworld a golden age when the eastern Irish Sea was a flowery plain inhabited by a golden haired race of men The author argues that Plato s Atlantis is the same place that is remembered in these Celtic myths and in Ancient Egyptian and Greek myths of an underworld known as the Elysian

Fields Bringing together modern scientific evidence and a pattern of ancient myths the author presents a multidisciplinary case for Atlantis as just one among many views of the submerged Neolithic civilisation of the Megalith Builders Atlantis of the West is an updated second edition of The Atlantis Researches with an appendix of further evidences and extended notes and extensive bibliography
