we find accounts and stories like this again and again on the [Family Bible Preservation Project](#).

May each one of you know the importance of the work you do - - and the significance in the eternal perspective
as we ensure one of God’s little children is remembered now and in the eternities . .

I found a baby this week. He’d been lost for 161 years. And it’s only because of the Forman Family Bible that I’m confident he belongs in our family.

You’ll recall that we learned from the family names listed in the bible that the “L” in Samuel L. Forman’s name stood for “Longstreet.” So I wasn’t immediately surprised to happen upon a death record for Samuel Longstreet Foreman. Until I read that he died at age 14 months in 1857. Ancestry.com only had the indexed details, but FamilySearch.org had an image of the actual document (shown above.) No parents are listed for this baby. The original SLF is named after his mother’s father (Samuel Longstreet.)

So who would be likely to name a child Samuel Longstreet Forman in 1856? Wouldn’t it be logical that the son of Samuel Longstreet Forman would give that name to his son, possibly his first-born son?

Samuel L. Forman had 2 sons: William Lake and Isaac E. In 1856, Isaac was only 15 years old, but William Lake had been married to Amanda Orilla McAllister since 1853. That date is fairly new since I only found their marriage date in a newspaper record in the past year or two.

Lost and Found Stephen A. Richardson, 2001 **Lost and Found** Troy Dunn, 2003 If you are among the millions of people who are looking for someone from your past you are about to embark on an exciting journey Perhaps your search is one of the big five most common search categories adoptee birth parent lost love old friend or military buddy Or you may be searching for a past co worker former neighbor childhood friend This book contains the strategies and information you will need to complete your search as quickly and simply as possible **Missing Persons** Gayle Greene, 2017-10-18 *Missing Persons* is a memoir about dealing with death in a culture that gives no help As the last of her family Greene s losses are stark first her aunt then her mother in quick succession She is as ill equipped for the challenges of caring for a dying person at home as she is for the other losses long repressed that rise to confront her at this time the suicide of her younger brother the death of her father As the professional identity on which she s based her selfhood comes to feel brittle and trivial she is catapulted into questions of who am I and what have I done with my life The memoir is structured as an account of her mother s and aunt s final days and the year that follows a year in which she reconstructs her life This is a powerful story about family what it means to have one to lose one never to have made one and what if anything might take its place It s the story of a vexed mother daughter relationship that mellows with age It is also a search for home as the very landscape shifts around her and the vast orchards are dug up and paved over for tract housing strip malls freeways and the Santa Clara Valley once known as the Valley of Heart s Delight is transformed to Silicon *Lost and Found* Babette Hughes, 2015-10-13 *Lost and Found* is a story of the struggle to survive and transcend murder secrets and abandonment It is the story of a family captured by its own bloody history and ultimately a triumphant tale of Babette s step by step passage from an ill starred and dark destiny to selfhood freedom and a transported life **Lost and Found** Betty W. choices we make create the way we see the world and establish how we live in it This environment which we have created for ourselves is called our world Everyone has a world that is unique and personal to them Of course our worlds are based on assumptions that for one reason or another we choose to believe and call facts We are sure that what we believe takes precedence over everyone else's beliefs and that can make our world a bit of a challenge to live in at times I have decided to share my world with the rest of the world Not to convince anyone that my world is better than theirs but to share some of the things that I found helpful for the world at large In my eighty eight years as a well educated wonderer many of my assumed facts have been proven wrong I see that as progress a good thing The challenge is to be able to accept that one of your lifelong facts just isn't true I have only a few things that I learned that have stayed true so far and have been stabilizers in my world I think they can be of use to almost everyone and need sharing I am not writing this book to encourage you to think like me but rather to just think There are things changing all around you So many new things to learn So many new places to visit So many edges out there you haven't walked on yet No matter how intelligent you are your areas of vast ignorance are greater than your areas of knowledge There is so much to learn that when you throw your arms up and say I know nothing it will be true but it is okay Every other human on earth is in the same situation they just don't know it We have robots with Artificial Intelligence AI far beyond any human right now that are working for us What will happen when they decide we are too dumb and of no use to them I believe this could be a far greater threat to human survival than global warming What do you think and why
