Debussy, Bergson and the Music of 'la duree' Charles Frantz,2024-10-21 Charles Frederick Frantz provides a quantitative and qualitative analysis of Debussy s music through the lens of Bergson s philosophical perspective of *dur e* revealing his revolution in musical time In fin de si cle Paris Debussy was revolutionizing musical time while Bergson was establishing a metaphysics that challenged the notion of measured or spatialized time Bergson argued that real time or *dur e* could be grasped only through intuition as opposed to analysis Debussy eschewed analysis of music declaring that separating it into parts was better left to engineers Debussy s music and Bergson s *dur e* were conceived and imagined in the environs of nature The cycle of seasons the gracefulness of a blooming flower or a gentle breeze all suggest continuity flow and uninterrupted rhythm The time of nature is the time of Debussy s music and Bergson s *dur e* Debussy s use of open forms and Golden Sections create a time world of an expanded present never ceasing Bergson s perception of real time is ever changing bringing the past into the present and open to unforeseen novelty This book is intended primarily for scholars in the disciplines of musicology music theory and philosophy and can be used as a text for upper level undergraduate or graduate courses in musicology or music theory

Spring After Spring Stephanie Roth Sisson,2018-08-14 From Stephanie Roth Sisson the creator of *Star Stuff* comes a picture book biography of Rachel Carson the iconic environmentalist who fought to keep the sounds of nature from going silent As a child Rachel Carson lived by the rhythms of the natural world Spring after spring year after year she observed how all living things are connected And as an adult Rachel watched and listened as the natural world she loved so much began to fall silent *Spring After Spring* traces Rachel s journey as scientist and writer courageously speaking truth to an often hostile world through her book and ultimately paving the way for the modern environmental movement

The Oxford Handbook of Ralph Waldo Emerson Christopher Hanlon,2024-07-12 The *Oxford Handbook of Ralph Waldo Emerson* is the most expansive collection of critical essays on Emerson to date a survey that approaches Emerson from the vantages of climate change racial justice print culture the digital humanities the new religious studies hemispheric American Studies health humanities and affect theory among other critical perspectives Curated between a forward by editor Christopher Hanlon who makes the case for a capacious and contemporary Emerson and Cornel West the activist scholar whose influential work on Emerson merges with a career of advocacy for economic and

racial justice this collection assesses the history and state of Emerson scholarship while charting pathways for new work on this most essential American writer Comprised of new works by leading figures in nineteenth century Americanist literary studies the volume suggests directions into underexamined facets of Emerson's writing life and reputation From Emerson's engagements with energy infrastructure and the processes of extraction that undergirded the locomotives he rode and the energy economies he sometimes extolled to the vicissitudes of age he experienced alongside the romantic tropes of youthful vigour he both re-circulated and re-tooled to Emerson's poetry both in its philosophical formulations and in its reflections of the material circumstances of nineteenth century print culture to Emerson's resonance beyond the United States elsewhere in the western hemisphere to the Black press and its refractions of Emersonian transcendentalism in the midst of ante and post bellum justice struggles to the legacies of Emerson to be found in the writings of W E B Du Bois James Baldwin Rachel Carson and in the versions of Emerson to be found in children's literature to his often fraught and often fruitful engagements with reform movements of various sorts to the prospects for digital processes of re-reading Emerson and his contemporaries styles of textual production and engagement The Oxford Handbook of Ralph Waldo Emerson is a necessary resource for students scholars and general readers committed to the study of Emerson transcendentalism and current critical approaches to United States literature

biographies are written in third person present the facts of their subjects lives and provide a critical analysis Summoned is different While I researched traditional sources each woman in this book speaks in her own voice to tell her story For the last one hundred years science and technology have been the twin gods of the modern world and the focus has been on validating evidence produced by the experimental method The natural feminine energies of intuition vision empathy and creation have been regarded as unnecessary sentimental and extraneous to the progress of the human race As we enter the new millennium these are the very energies needed to heal our society Women must break free of the limiting stereotypes that have fettered them and get into action Spiritual growth is a process so let us begin Author Bio Toni Ortner has had fourteen books published by fine small presses She lives in Brattleboro Vermont where she is a board member of Write Action a nonprofit advocacy group that seeks to strength a community of writers in the tri state region of South Eastern Vermont She hosts the Write Action Radio Show the fourth Sunday of each month on 107.7 FM from 5-6 pm where she interviews writers and they read their work The show can be streamed from www.wvew.org Summoned by Goose River Press and Writing with Our Blood by Moon Publishing Company were published in 2012 In 2013 A White Page Demands Its Letters and Traveling a Perspective will be published by unbound books.com Her website is toniortner.com if you need more information about how to order her books as either soft cover or e books keywords Spiritual Path Famous Women Saints Trust God Divine Inspiration Faith

American Women of Science since 1900 Tiffany K. Wayne, 2010-10-11 A comprehensive examination of American women scientists across the sciences throughout the 20th century providing a rich historical context for understanding their achievements and the way they changed the practice of science Much more than a Who's Who this exhaustive two volume encyclopedia examines the significant achievements of 20th century American women across the sciences in light of the historical and cultural factors that affected their education employment and research opportunities With coverage that includes a number of scientists working today the encyclopedia shows just how much the sciences have evolved as a professional option for women from the dawn of the 20th century to the present American Women of Science since 1900 focuses on 500 of the 20th century's most notable American women scientists many overlooked undervalued or simply not well known In addition it offers individual features on 50 different scientific disciplines Women in Astronomy etc as well as essays on balancing career and family girls and science education and other sociocultural topics Readers will encounter some extraordinary scientific minds at work getting a sense of the obstacles they faced as the scientific community faced the questions of feminism and gender confronting the nation as a whole *Figuring* Maria Popova, 2019-02-05

Figuring explores the complexities of love and the human search for truth and meaning through the interconnected lives of several historical figures across four centuries beginning with the astronomer Johannes Kepler who discovered the laws of planetary motion and ending with the marine biologist and author Rachel Carson who catalyzed the environmental movement Stretching between these figures is a cast of artists writers and scientists mostly women mostly queer whose public

contribution have risen out of their unclassifiable and often heartbreaking private relationships to change the way we understand experience and appreciate the universe Among them are the astronomer Maria Mitchell who paved the way for women in science the sculptor Harriet Hosmer who did the same in art the journalist and literary critic Margaret Fuller who sparked the feminist movement and the poet Emily Dickinson Emanating from these lives are larger questions about the measure of a good life and what it means to leave a lasting mark of betterment on an imperfect world Are achievement and acclaim enough for happiness Is genius Is love Weaving through the narrative is a set of peripheral figures Ralph Waldo Emerson Charles Darwin Elizabeth Barrett Browning Herman Melville Frederick Douglass Nathaniel Hawthorne and Walt Whitman and a tapestry of themes spanning music feminism the history of science the rise and decline of religion and how the intersection of astronomy poetry and Transcendentalist philosophy fomented the environmental movement Rachel Carson's Wonder-Filled World Kate Hannigan,2025-03-11 This STEAM picture book biography highlights how scientist and writer Rachel Carson became the author of the groundbreaking book *Silent Spring* and the mother of the modern environmental movement Rachel Carson wasn't always the Rachel Carson renowned environmental activist From her earliest years Rachel had a passion for nature to her it was a fairyland and she loved to write about her adventures and the creatures she saw Encouraged by teachers Rachel wanted nothing more than to study the ocean and its inhabitants Though unable to finish her PhD due to financial constraints Rachel found work in science and success as a nature writer In the course of her work Rachel learned about the harm caused by recently developed pesticides and chemicals that made their way into the environment Desperate to protect nature for future generations even as her health declined she penned the famous book *Silent Spring* a call to action against the threat of the deadly chemicals The book is anything but quiet selling more than 2 million copies and leading directly to changes like the Clean Air Act of 1963 and the Clean Water Act of 1972 Kate Hannigan the author of several award winning children's books joins her talents with Katie Hickey a longtime illustrator of popular picture book biographies to bring the mother of the environmental movement to life for a new generation of readers

Spirituality in the Flesh Robert C. Fuller,2008-09-08 Comfortable with the language of scientific analysis and sympathetic to the inherently subjective aspects of religious events Fuller introduces the biological study of religion by joining together this era's unprecedented understanding of bodily states with an expert's knowledge of religious phenomena Culling together insights from scientific observations historical allusions and literary references *Spirituality in the Flesh* offers a bold look at the biological underpinnings of religion and opens up new and exciting agendas for understanding the nature and value of human religiosity **Sustaining Lake Superior** Nancy Langston,2017-10-24 A compelling exploration of Lake Superior's conservation recovery and what it can teach us in the face of climate change Lake Superior the largest lake in the world has had a remarkable history including resource extraction and industrial exploitation that caused nearly irreversible degradation But in the past fifty years it has experienced a remarkable recovery and rebirth In this important

book leading environmental historian Nancy Langston offers a rich portrait of the lake's environmental and social history asking what lessons we should take from the conservation recovery as this extraordinary lake faces new environmental threats In her insightful exploration Langston reveals hope in ecosystem resilience and the power of community advocacy noting ways Lake Superior has rebounded from the effects of deforestation and toxic waste wrought by mining and paper manufacturing Yet despite the lake's resilience threats persist Langston cautions readers regarding new mining interests and persistent toxic pollutants that are mobilizing with climate change

The Fifties James R. Gaines, 2023-02-07 A bold and original argument that upends the myth of the Fifties as a decade of conformity to celebrate the solitary brave and stubborn individuals who pioneered the radical gay rights feminist civil rights and environmental movements from historian James R. Gaines
