optimum age for reproduction to recent decades when freedom from striving in the workplace and caretaking at home is often celebrated to the first female nominee for president American attitudes towards age have been a moving target Gail Collins gives women reason to expect the best of their golden years      **Global Families** Catherine Ceniza Choy,2013-10-11 In the last fifty years transnational adoption specifically the adoption of Asian children has exploded in popularity as an alternative path to family making Despite the cultural acceptance of this practice surprisingly little attention has been paid to the factors that allowed Asian international adoption to flourish In *Global Families* Catherine Ceniza Choy unearths the little known historical origins of Asian international adoption in the United States Beginning with the post World War II presence of the U S military in Asia she reveals how mixed race children born of Japanese Korean and Vietnamese women and U S servicemen comprised one of the earliest groups of adoptive children Based on extensive archival research *Global Families* moves beyond one dimensional portrayals of Asian international adoption as either a progressive form of U S multiculturalism or as an exploitative form of cultural and economic imperialism Rather Choy acknowledges the complexity of the phenomenon illuminating both its radical possibilities of a world united across national cultural and racial divides through family formation and its strong potential for reinforcing the very racial and cultural hierarchies it sought to challenge      **A New Introduction to American Studies** Howard Temperley,Christopher Bigsby,2014-07-21 *A New Introduction to American Studies* provides a coherent portrait of American history literature politics culture and society and also deals with some of the central themes and preoccupations of American life It will provoke students into thinking about what it actually means to study a culture Ideals such as the commitment to liberty equality and material progress are fully examined and new light is shed on the sometimes contradictory ways in which these ideals have informed the nation s history and culture For introductory undergraduate courses in American Studies American History and American Literature
