awakenana@gmail.com

- *I believe in God the Father Almighty,
maker of heaven and earth.*
- *And in Jesus Christ, God's only Son, our Lord,
who was conceived by the Holy Spirit,
born of the Virgin Mary,
suffered under Pontius Pilate
was crucified, died, and was buried;*
- *He descended into hell.
On the third day, he rose again from the dead.
he ascended into heaven and is seated at the right hand of the Father
and he will come again to judge the living and the dead.*
- *I believe in the Holy Spirit,
the holy catholic Church,
the communion of saints,
the forgiveness of sins,
the resurrection of the body,
and the life everlasting.*

Toward A Theology of Scientific Endeavour the Descent of Science Christopher B. Kaiser, 2007 This book explores four foundations of scientific endeavour the cosmos human intelligence cultural beliefs and technological structures and investigates some of the paradoxes each of them raises The concurrent study of all four together reveals several tensions and interconnections among them that point the way to a greater unification of faith and science Kaiser shows that the resolution of these paradoxes inevitably leads us into theological discourse and raises new challenges for theological endeavour In order to address these challenges Kaiser draws on the wider resources of the Judeo Christian tradition and argues for a refocusing of contemporary theology from the perspective of natural science

Heaven and Earth in the Gospel of Matthew Jonathan T. Pennington, 2007-11-30 A much overlooked aspect of the Gospel of Matthew is the theme of heaven and earth Rather than being a reverential circumlocution for God heaven in Matthew is part of a highly developed discourse of heaven and earth language Matthew s idiolectic way of using heaven language consists of four aspects 1 a distinction in meaning between singular and plural forms of ouranos 2 frequent use of the heaven and earth word pair 3 regular reference to the Father in heaven and 4 the recurrent use of the Matthean expression kingdom of heaven This book examines the historical precedents for each of these aspects and shows in Matthew how they serve one overriding theological purpose to highlight the tension that currently exists between heaven and earth or God and humanity while looking forward to its eschatological resolution

The Great Angel, 1992-01-01 In this groundbreaking book Barker claims that pre Christian Judaism was not monotheistic and that the roots of Christian Trinitarian theology lie in a pre Christian Palestinian belief about angels derived from the ancient religion of Israel Barker s beliefs are based on canonical and deuterocanonical works and literature from Qumran and rabbinic sources

Science and the Study of God Alan G. Padgett, 2003 For many today religion and science are seen as enemies battling for human hearts and minds In this new book Alan Padgett shows that they can and should work together in developing a worldview that is at once spiritually meaningful and scientifically sound Pursuing a perspective that he calls the mutuality model Padgett highlights the contributions that both religion and science make to a full understanding of the world and our place in it He argues convincingly that the natural sciences and theology can rationally influence each other without giving up their important distinctives and methods The book explores the nature of informal reason and worldviews the character of theology as a spiritual and academic discipline and the question of what counts as natural science Along the way Padgett discusses such topics as thermodynamics time resurrection and the historical Jesus as examples of the powerful model that

he is developing **Great High Priest** Margaret Barker,2003-05-21 Margaret Barker has been researching and writing about the Jerusalem temple for over twenty years Many of her studies have remained unpublished Here for the first time her work on the roots of Christian liturgy has been brought together Whereas most scholarship has concentrated upon the synagogue Margaret Barker s work on the Jerusalem temple contributes significantly to our understanding of the meaning and importance of many elements of Christian liturgy which have hitherto remained obscure This book opens up a new field of research The many subjects addressed include the roots of the Eucharist in various temple rituals and offerings other than Passover the meaning of the holy of holies and the Christian sanctuary the cosmology of temple and church the significance of the Veil of the Temple for understanding priesthood and Incarnation the Holy Wisdom and the Mother of God angels and priesthood the concept of unity the high priestly tradition in the early church and evidence that Christianity was a conscious continuation of the temple All scholars and students whose interest encompasses the origins of Christian and Orthodox liturgy the Old Testament early Christianity Jewish Christian relations Platonism and the origins of Islam will find this book a hugely rewarding source of information and new ideas *The Encyclopaedia Britannica* Hugh Chisholm,1910 *The Encyclopædia Britannica* Hugh Chisholm,James Louis Garvin,1926 *The Encyclopædia Britannica* ,1910 **Proceedings of the 4th International Conference on Language, Art and Cultural Exchange (ICLACE 2023)** Bootheina Majoul,Guiyun Guan,Nick Groom,2023-08-28 This is an open access book The 4th International Conference on Language Art and Cultural Exchange ICLACE 2023 will be held on May 19 21 2023 in Hangzhou China Culture includes language which is a special cultural phenomenon For culture most scholars agree that it mainly includes two aspects material culture and spiritual culture Specific examples to show cultural phenomena will be of great benefit to our understanding Some examples of material culture are listed here Indian women wear saris Japanese like to eat sashimi and Chinese like to shake hands when meeting each other These are various manifestations of material culture in different nations Language is the mode of transmission of culture Language is one of the most important ways of thinking and cultural exchange of human beings which is actually the manifestation of the formation and transmission of culture Because of thinking human beings gradually create culture in the continuous social practice and then spread their national culture to each other in the continuous language exchange Since ancient times art and culture have been going hand in hand and complementing each other On the one hand art is an important connotation and component of culture and the progress of art is the driving force of cultural development On the other hand culture is the source and content of art and the prosperity of culture is the key to improve the level of art On the other hand culture is the source and content of art and the prosperity of culture is the key to improving the level of art Therefore whether it is culture or art it is not only a symbol of an era a representation of people s life style but also a guide to the direction of social development The relationship between language art and cultural communication is a hot topic for many scholars to study at present Therefore an academic conference is set up for authors to

discuss related research issues and exchange new ideas hoping that scholars can burst out more excellent and valuable ideas in this conference ICLACE 2023 is to bring together innovative academics and industrial experts in the field of Literature Art and Cultural Exchange research to a common forum The primary goal of the conference is to provide a platform for scientists scholars and engineers from all over the world to present ongoing research activities fostering the research and business relations and promoting scientific information interchange and cooperation between all the participants
