(Third Printing.).** Harold Eugene DAVIS, 1945 Makers of democracy in Latin America; repr Harold E. Davis, 1968 *Democracies and Dictatorships in Latin America* Scott Mainwaring, Aníbal Pérez-Liñán, 2014-01-31 This book presents a new theory for why political regimes emerge and why they subsequently survive or break down It then analyzes the emergence survival and fall of democracies and dictatorships in Latin America since 1900 Scott Mainwaring and Anibal Pérez Liñ argue for a theoretical approach situated between long term structural and cultural explanations and short term explanations that look at the decisions of specific leaders They focus on the political preferences of powerful actors the degree to which they embrace democracy as an intrinsically desirable end and their policy radicalism to explain regime outcomes They also demonstrate that transnational forces and influences are crucial to understand regional waves of democratization Based on extensive research into the political histories of all twenty Latin American countries this book offers the first extended analysis of regime emergence survival and failure for all of Latin America over a long period of time **Cultural Producers and Social Change in Latin America** Felipe Cala Buendía, 2014-12-03 In Argentina Colombia and Peru there has been an out pouring of popular performative activities that have asked citizens to pose questions about the social order and about the memories of recent atrocities Cala Buendía looks at ways in which cultural producers adapted or developed strategies as resources for social actors to use for change **Makers of Democracy** A. Ricardo López-Pedrerros, 2019-03-28 In *Makers of Democracy* A Ricardo López Pedrerros traces the ways in which a thriving middle class was understood to be a foundational marker of democracy in Colombia during the second half of the twentieth century Drawing on a wide array of sources ranging from training manuals and oral histories to school and business archives López Pedrerros shows how the Colombian middle class created a model of democracy based on free market ideologies private property rights material inequality and an emphasis on a masculine work culture This model which naturalized class and gender hierarchies provided the groundwork for Colombia's later adoption of neoliberalism and inspired the emergence of alternate models of democracy and social hierarchies in the 1960s and 1970s that helped foment political radicalization By highlighting the contested relationships between class gender economics and politics López Pedrerros theorizes democracy as a historically unstable practice that exacerbated multiple forms of domination thereby prompting a rethinking of the formation of democracies throughout the Americas Debt and Transfiguration: Prospects for Latin America's Economic Revival David Felix, 2019-05-23 Collection of essays representing the analysis and policy proposals of a wide range of economists and dealing with many contentious issues about the restructuring strategies of Latin American debtor countries their economic and political adjustments and schemes for external financing Visits to customers by a cross
