Eleazar S. Fernandez, 2017-05-05 When religious diversity is our reality radical hospitality to people of other faiths is not a luxury but a necessity More than necessary for our survival radical hospitality to religious diversity is necessary if we are to thrive as a global society By no means does the practice of hospitality in a multifaith world require that we be oblivious of our differences On the contrary it demands a respectful embrace of our differences because that is who we are Neither does radical hospitality require that we water down our commitment because faithfulness and openness are not contradictory We must be able to say with burning passion that we are open to the claims of other faiths because we are faithful to our religious heritage The essays in this book do not offer simply theological exhortations they offer specific ways of how we can become religiously competent citizens in a multifaith world Let us take the bold steps of radical openness with this book on our side Bibliographic Guide to Education 1994 New York Public Library, New York Public Library Staff, 1995 This guide lists materials catalogued by Columbia University Teachers College during 1994 with additional entries from the New York Public Library for selected publications in the field All aspects of education are covered including American elementary and secondary education higher adult education early childhood education history and philosophy of education international and comparative education administration education of the culturally disadvantaged and physically challenged education of minorities education of women and administrative reports of departments of education in the US and abroad The listing is intended as a supplement to the Dictionary Catalogue of the Teachers College Library Columbia University G K Hall 1970
