Understanding Ethnic Media Matthew D. Matsaganis,Vikki S. Katz,Sandra J. Ball-Rokeach,2011 At present the picture of the ethnic media is an incomplete one While there is significant material on the portrayal of ethnic minorities in the mainstream media and on how these representations affect ethnic perceptions there is very little material research on how the media produced by ethnic communities for ethnic communities affect 1 the perceptions of self and of the ethnic community and 2 how the production and consumption of ethnic media affects the character of the larger media landscape Understanding Ethnic Media approaches the ethnic media from the consumers point of view AND the producers vantage point as changes that occur in the ethnic community affect the media and vice versa This accessible textbook strives to bridge the gap between the consumer and the production centered research as it examines the relationships a between the ethnic media available in particular markets and b between the ethnic and mainstream media

The Oxford Handbook of American Immigration and Ethnicity Ronald H. Bayor,2016-06-01 Scholarship on immigration to America is a coin with two sides it asks both how America changed immigrants and how they changed America Were the immigrants uprooted from their ancestral homes leaving everything behind or were they transplanted bringing many aspects of their culture with them Although historians agree with the transplantation concept the notion of the melting pot which suggests a complete loss of the immigrant culture persists in the public mind The Oxford Handbook of American Immigration and Ethnicity bridges this gap and offers a comprehensive and nuanced survey of American racial and ethnic development assessing the current status of historical research and simultaneously setting the goals for future investigation Early immigration historians focused on the European migration model and the ethnic appeal of politicians such as Fiorello La Guardia and James Michael Curley in cities with strong ethno political histories like New York and Boston But the story of American ethnicity goes far beyond Ellis Island Only after the 1965 Immigration Act and the increasing influx of non Caucasian immigrants scholars turned more fully

to the study of African Asian and Latino migrants to America This Handbook brings together thirty eminent scholars to describe the themes methodologies and trends that characterize the history and current debates on American immigration The Handbook s trenchant chapters provide compelling analyses of cutting edge issues including identity whiteness borders and undocumented migration immigration legislation intermarriage assimilation bilingualism new American religions ethnicity related crime and pan ethnic trends They also explore the myth of model minorities and the contemporary resurgence of anti immigrant feelings A unique contribution to the field of immigration studies this volume considers the full racial and ethnic unfolding of the United States in its historical context Flow TV Michael Kackman,Marnie Binfield,Matthew Thomas Payne,Allison Perlman,Bryan Sebok,2010-10-19 From viral videos on YouTube to mobile television on smartphones and beyond TV has overflowed its boundaries If Raymond Williams concept of flow challenges the idea of a discrete television text then convergence destabilizes the notion of television as a discrete object Flow TV examines television in an age of technological economic and cultural convergence Seeking to frame a new set of concerns for television studies in the 21st century this collection of all new essays establishes television s continued importance in a shifting media culture Considering television and new media not as solely technical devices but also as social technologies the essays in this anthology insist that we turn our attention to the social political and cultural practices that surround and inform those devices use The contributors examine television through a range of critical approaches from formal and industrial analysis to critical technology studies reception studies political economy and critiques of television s transnational flows This volume grows out of the critical community formed around the popular online journal Flow A Critical Form on Television and Media Culture flowtv org It is ideal for courses in television studies or media convergence **The Routledge Companion to Ethnic Marketing** Ahmad Jamal,Lisa Peñaloza,Michel Laroche,2015-06-19 The globalization of marketing has brought about an interesting paradox as the discipline becomes more global the need to understand cultural differences becomes all the more crucial This is the challenge in an increasingly international marketplace and a problem that the world s most powerful businesses must solve From this challenge has grown the exciting discipline of ethnic marketing which seeks to understand the considerable opportunities and challenges presented by cultural and ethnic diversity in the marketplace To date scholarship in the area has been lively but disparate This volume brings together cutting edge research on ethnic marketing from thought leaders across the world Each chapter covers a key theme reflecting the increasing diversity of the latest research including models of culture change parenting and socialization responses to web and advertising role of space and social innovation in ethnic marketing ethnic consumer decision making religiosity differing attitudes to materialism acculturation targeting and ethical and public policy issues The result is a solid framework and a comprehensive reference point for consumer researchers students and practitioners *The Mass Media and Latino Politics* Federico Subervi-Velez,2009-03-04 The Latin American population has become a major force in American politics in recent years with

expanding influences in local state and national elections The candidates in the 2004 campaign wooed Latino voters by speaking Spanish to Latino audiences and courting Latino groups and PACs Recognizing the rising influence of the Latino population in the United States Federico Subervi Velez has put together this edited volume examining various aspects of the Latino and media landscape including media coverage in English and Spanish language media campaigns and survey research
