Sullivan, 2022-10-11 How a coalition of Black health professions schools made health equity a national issue Winner of the Phillis Wheatley Award from the Sons Daughters of the United States Middle Passage Racism in the US health care system has been deliberately undermining Black health care professionals and exacerbating health disparities among Black Americans for centuries These health disparities only became a mainstream issue on the agenda of US health leaders

and policy makers because a group of health professions schools at Historically Black Colleges and Universities banded together to fight for health equity *We'll Fight It Out Here* tells the story of how the Association of Minority Health Professions Schools AMHPS was founded by this coalition and the hard won influence it built in American politics and health care David Chanoff and Louis W Sullivan former secretary of health human services detail how the struggle for equity has been fought in the field of health care where bias and disparities continue to be volatile national issues Chanoff and Sullivan outline the history of Black health care from pre Emancipation to today centering on the work of AMHPS which brought to light health care inequities in 1983 and precipitated virtually all minority health care legislation since then Based on extensive research in the literature as well as more than seventy interviews with the people central to this fight for legislative and policy change *We'll Fight It Out Here* is the important story of a vital coalition movement virtually unknown until now that changed the national understanding of health inequities The work of this coalition of Black health schools continues both in supporting the training of more doctors and health professionals from minority backgrounds and in advancing issues related to health equity By highlighting these endeavors *We'll Fight It Out Here* brings attention to a pivotal group in the history of the health equity movement and provides a road map of practical mechanisms that can be used to advance it [Romantic Reformers and the Antislavery Struggle in the Civil War Era](#) Ethan J. Booker,2000-09-30 This volume traces the social history of African American men from the days of slavery to the present focusing on their achievements their changing image and their role in American society The author places the contemporary issue of Black men s disproportionate involvement with criminal justice within its social and historical context while analyzing the most significant movements aiming to improve the status of Blacks in our society The book s main thesis is that an ever changing yet ever present process of criminalization has entrapped Black men throughout history thus creating a major barrier to their collective development The topics discussed include the role of Blacks in the Civil War Booker T Washington the Civil Rights movement and the Million Man March

Exploring the American Civil War through 50 Historic Treasures Julie L. Holcomb,2021-05-15 Exploring the American Civil War through 50 Historic Treasures brings together historic objects documents artwork and the natural and built environments to tell the full story of this important event in American history The American Civil War still matters It matters because the war its causes and its consequences continue to influence America as a nation At its core the Civil War was about slavery Began as a fight to secure the future of slavery the Civil War resulted instead in the abolition of slavery The complex racial issues at its core however remain with us today Exploring the American Civil War through 50 Historic Treasures begins with the causes of the war examining objects that tell the story of slavery and its expansion in the nineteenth century Cultural treasures representing the war years explore the battlefield and the homefront and the men and women caught up in the war as well the ways in which the scale of the war forced technological innovations Given the centrality of slavery race and emancipation in the story of the Civil War one section presents objects that detail how free and enslaved blacks transformed the war effort and were in turn transformed by the war In the final section the historic treasures trace the ongoing impact of the war including the dramatic increase in the removal of Confederate monuments in the summer of 2020 Each object s story is detailed with color photos that draw readers into the story of the American Civil War Many of these objects appear here in print for the first time *The Race for America* R. J. Boutelle,2023-09-13 As Manifest Destiny took hold in the national consciousness what did it mean for African Americans who were excluded from its ambitions for an expanding American empire that would shepherd the Western Hemisphere into a new era of civilization and prosperity R J Boutelle explores how Black intellectuals like Daniel Peterson James McCune Smith Mary Ann Shadd Henry Bibb and Martin Delany engaged this cultural mythology to theorize and practice Black internationalism He uncovers how their strategies for challenging Manifest Destiny s white nationalist ideology and expansionist political agenda constituted a form of disidentification a deconstructing and reassembling of this discourse that marshals Black experiences as racialized subjects to imagine novel geopolitical mythologies and projects to compete with Manifest Destiny Employing Black internationalist hemispheric and diasporic frameworks to examine the emigrationist and solidarity projects that African

Americans proposed as alternatives to Manifest Destiny Boutelle attends to sites integral to US aspirations of hemispheric dominion Liberia Nicaragua Canada and Cuba In doing so Boutelle offers a searing history of how internalized fantasies of American exceptionalism burdened the Black geopolitical imagination that encouraged settler colonial and imperialist projects in the Americas and West Africa Colonization and Its Discontents Beverly C. Tomek, 2012-09-24 Pennsylvania contained the largest concentration of early America's abolitionist leaders and organizations making it a necessary and illustrative stage from which to understand how national conversations about the place of free blacks in early America originated and evolved and importantly the role that colonization supporting the emigration of free and emancipated blacks to Africa played in national and international antislavery movements Beverly C Tomek's meticulous exploration of the archives of the American Colonization Society Pennsylvania's abolitionist societies and colonizationist leaders both black and white enables her to boldly and innovatively demonstrate that in Philadelphia at least the American Colonization Society often worked closely with other antislavery groups to further the goals of the abolitionist movement In Colonization and Its Discontents Tomek brings a much needed examination of the complexity of the colonization movement by describing in depth the difference between those who supported colonization for political and social reasons and those who supported it for religious and humanitarian reasons Finally she puts the black perspective on emigration into the broader picture instead of treating black nationalism as an isolated phenomenon and examines its role in influencing the black abolitionist agenda
