Making Of Europe An Introduction To The History Of European Unity:

The Making of Europe Christopher Dawson, 2002 Christopher Dawson concludes that the period of the fourth to the eleventh centuries commonly known as the Dark Ages is not a barren prelude to the creative energy of the medieval world. Instead he argues that it is better described as ages of dawn for it is in this rich and confused period that the complex and creative interaction of the Roman empire, the Christian Church, the classical tradition and barbarous societies provided the foundation for a vital unified European culture. In an age of fragmentation and the emergence of new nationalist forces, Dawson argued that if our civilization is to survive it is essential that it should develop a common European consciousness and sense of historic and organic unity. But he was clear that this unity required sources deeper and more complex than the political and economic movements on which so many had come to depend and he insisted prophetically that Europe would need to recover its Christian roots if it was to survive. In a time of cultural and political ambiguity, *The Making of Europe* is an indispensable work for understanding not only the rich sources but also the contemporary implications of the very idea of Europe.

THE MAKING OF EUROPE. AN INTRODUCTION TO THE HISTORY OF EUROPEAN UNITY. BY CHRISTOPHER DAWSON. Christopher Dawson, 1939 **MAKING OF EUROPE** CHRISTOPHER. DAWSON, 2018 **The Making of Europe** Christopher Dawson, 2017-07-23

Excerpt from *The Making of Europe: An Introduction to the History of European Unity*. The art of the catacombs is the first outward manifestation of Christian culture and shows in a remarkable way how the external forms of the old Roman Hellenistic culture were assimilated and modified by the new spiritual forces. Early Christian art took over the traditional commonplaces of the Hellenistic house decorator and infused them with a profound spiritual meaning. The subjects are mere generalised types or symbols: a fish, a clove, or a figure borrowed from heathen mythology, the value of which consists entirely in their hieratic and mystical significance to the initiated. Of these figures the most popular is that of a woman in an attitude of prayer, the orans, a figure that symbolised at once the soul of the deceased, the freed and enlightened spirit of man, and also the Virgin Church, the Bride of the Spirit. S. Eliot, Dante, and the Idea of Europe** Paul

Douglass,2011-05-25 T S Eliot greatly enhanced Dante's profound influence on European literature The essays in this volume explore Dante's importance through a focus on Eliot Probing the questions what Eliot made of Dante and what Dante meant to Eliot the essays here assess the legacy of modernism by engaging its classicist roots covering a wide spectrum of topics stemming from Dante's relevance to the poetry and criticism of Eliot The essays reflect on Eliot's aesthetic philosophical and religious convictions in relation to Dante his influence upon literary modernism through his embracing and championing of the Florentine and his desire to promote European unity The first section of the book deals with aesthetic and philosophical issues related to Eliot's engagement with Dante beginning with Jewel Spears Brooker's masterful essay on the concepts of immediate experience and primary consciousness in Eliot's work and moving on to essays considering his idea of a unified

sensibility as well as Eliot's engagement with Hindu Buddhist and Christian themes and motifs The second part of the book focuses on Dante's importance to Eliot's founding work in the modernist movement In what ways did Dante directly and indirectly influence the exemplary path that Eliot blazed for his contemporaries especially Ezra Pound How early did Dante's influence show itself in Eliot's work Why was he unable to complete the great trilogy he seems to have sought to write based on Dante's *Inferno Purgatorio and Paradiso* These questions and their answers lead to the book's final section which considers Eliot's and Dante's role in the formation of a twentieth century concept of Europe Incisive essays on Eliot's varied sources of tradition in his attempt to promote the idea of a European union and his anxiety over the heritage of Romanticism are capped by a magisterial contribution from Dominic Manganiello showing precisely how Eliot's reformulation of the Dantesque European Epic continues to influence the work of Anglo European and Commonwealth writers

The Philosophy of Japanese Wartime Resistance David Williams, 2014-04-16 The transcripts of the three Kyoto School roundtable discussions of the theme of the standpoint of world history and Japan may now be judged to form the key source text of responsible Pacific War revisionism Published in the pages of Chuo Koron the influential magazine of enlightened elite Japanese opinion during the twelve months after Pearl Harbor these subversive discussions involved four of the finest minds of the second generation of the Kyoto School of philosophy Tainted by controversy and shrouded in conspiratorial mystery these transcripts were never republished in Japan after the war and they have never been translated into English except in selective and often highly biased form David Williams has now produced the first objective balanced and close interpretative reading of these three discussions in their entirety since 1943 This version of the wartime Kyoto School transcripts is neither a translation nor a paraphrase but a fuller rendering in reader friendly English that is convincingly faithful to the spirit of the original texts The result is a masterpiece of interpretation and inter cultural understanding between the Confucian East and the liberal West Seventy years after Tojo came to power these documents of the Japanese resistance to his wartime government and policies exercise a unique claim on students of Japanese history and thought today because of their unrivalled revelatory potential within the vast literature on the Pacific War The Philosophy of Japanese Wartime Resistance may therefore stand as the most trenchant analysis of the political philosophic and legal foundations of the place of the Pacific War in modern Japanese history yet to appear in any language

Europe and Europeanness in Early Modern Latin Literature Isabella Walser-Bürgler, 2021-03-15 The history of European integration goes back to the early modern centuries c 1400 1800 when Europeans tried to set themselves apart as a continental community with distinct political religious cultural and social values in the face of hitherto unseen societal change and global awakening The range of concepts and images ascribed to Europeanness in that respect is well documented in Neo Latin literature since Latin constituted the international lingua franca from the fifteenth to the eighteenth centuries In *Europe and Europeanness in Early Modern Latin Literature* Isabella Walser-Bürgler examines the most prominent concepts of Europe and European identity as expressed in Neo Latin sources It

is aimed at both an interested general audience and a professional readership from the fields of Latin studies early modern history and the history of ideas

Anglo-Saxon Culture and the Modern Imagination David Clark, Nicholas Perkins, 2010 The Anglo Saxon world continues to be a source of fascination in modern culture Its manifestations in a variety of media are here examined

Finding Europe Anthony Molho, Diogo Ramada Curto, Niki Koniordos, 2007 In the last decade or so many books have been devoted to the history of Europe Two conceptual axes predominate in a large number of these accounts a discourse focusing on Europe's values and another discourse fashioned largely in opposition to the first which emphasizes the process of European construction The first conceives of Europe's past teleologically as a process by which certain values Christian ethics individualism capitalism tolerance republicanism due process etc were affirmed and came to define European culture The second approach rejects the discourse on values emphasizes the post Enlightenment emergence of the concept of Europe and the political and ideological implications in its continuous redefinitions and re-elaborations during the past two or more centuries This volume offers new approaches that integrate the long temporal dimension of the values based approach albeit devoid of its teleological element with the constructivist interpretation

A Historian and His World Christina Scott, 2023-03-17 The English historian of culture Christopher Dawson 1889 1970 was an independent scholar and the author of more than twenty books He served as assistant lecturer in the History of Culture University College Exeter 1925 Forwood Lecturer in the Philosophy of Religion University of Liverpool 1934 Gifford Lecturer at the University of Edinburgh 1947 1949 and as Professor of Catholic Studies at Harvard University 1958 1962 He was elected Fellow of the British Academy in 1943 and edited the Dublin Review during the Second World War This biography by Christina Scott Dawson's daughter is a sensitive portrait of a complex and fascinating scholar Unlike other English Christian converts of the twentieth century who excelled in literature like G K Chesterton or C S Lewis Dawson turned to the social sciences He drew from the new idea of culture as a common way of life emerging from anthropology at the time of the Great War to shape a new approach to history His study of the intimate relationship between religion and culture throughout world history shaped his trenchant criticisms of his own times He wrote in 1955 that the first step in the transformation of culture is a change in the pattern of culture within the mind for this is the seed out of which there spring new forms of life which ultimately change the social way of life and thus create a new culture Dawson's engagement with anthropology and the idea of culture marked an important moment of development in the Catholic intellectual tradition Christina Scott shows that Dawson is best understood as he himself interpreted his historical subjects in the context of the spiritual world in which he lived the ideas that moved him and the faith that inspired his action Dawson was not a historian of ideas for their own sake he had a passionate belief in their liberating power *A Historian and His World* will be of interest to intellectual historians historians of religion and culture and students of modern Catholic thought The Introduction is written by Dawson scholar Joseph T Stuart and the book is graced by a postscript by Christopher Dawson reflecting upon the meaning of his work
