**BOOK JACKET Making Make-Believe Real** Garry Wills, 2014-06-10 Shakespeare's plays abound with kings and leaders who crave a public stage and seize every opportunity to make their lives a performance Antony Cleopatra Richard III Othello and many others Such self-dramatizing characters appear in the work of other playwrights of the era as well Marlowe's Edward II and Tamburlaine among them But Elizabethan playwrights were not alone in realizing that a sense of theater was essential to the exercise of power Real rulers knew it too and none better than Queen Elizabeth In this fascinating study of political stagecraft in the Elizabethan era Garry Wills explores a period of vast cultural and political change during which the power of make-believe to make power real was not just a theory but an essential truth Wills examines English culture as Catholic Christianity's rituals were being overturned and a Protestant queen took the throne New iconographies of power were necessary for the new Renaissance liturgy to displace the medieval church state The author illuminates the extensive imaginative constructions that went into Elizabeth's reign and the explosion of great Tudor and Stuart drama that provided the imaginative power to support her long and successful rule

**Early Modern Catholics, Royalists, and Cosmopolitans** Brian C. Lockey, 2016-03-09 Early Modern Catholics Royalists and Cosmopolitans considers how the marginalized perspective of 16th century English Catholic exiles and 17th century English royalist exiles helped to generate a form of cosmopolitanism that was rooted in contemporary religious and national identities but also transcended those identities Author Brian C Lockey argues that English discourses of nationhood were in conversation with two opposing cosmopolitan perspectives one that sought to cultivate and sustain the

emerging English nationalism and imperialism and another that challenged English nationhood from the perspective of those Englishmen who viewed the kingdom as one province within the larger transnational Christian commonwealth Lockett illustrates how the latter cosmopolitan perspective produced within two communities of exiled English subjects separated in time by half a century influenced fiction writers such as Sir Philip Sidney Edmund Spenser Anthony Munday Sir John Harington John Milton and Aphra Behn Ultimately he shows that early modern cosmopolitans critiqued the emerging discourse of English nationhood from a traditional religious and political perspective even as their writings eventually gave rise to later secular Enlightenment forms of cosmopolitanism

**Philip's Phoenix** Margaret P. Hannay, 1990-01-18 In contrast to previous studies that have portrayed Mary Sidney as a demure retiring woman this biography shows that she was actually an outspoken and dynamic figure Basing her work on primary sources including account books legal documents diaries and family letters Hannay shows that Sidney was a vibrant eloquent self assertive woman who was deeply involved in Protestant politics Although she did confine her writings to appropriately feminine genres she called herself Sister of Philip Sidney to establish a literary and political identity As a Phoenix rising from her brother's ashes she transcended gender restrictions by publishing her brother's writings by writing and translating works which he would have approved by assuming his role as literary patron and by supporting the cause for which he died Hannay also reveals via court cases that in her final years the countess turned from literary to administrative responsibilities contending with jewel thieves pirates and murderers
