William A. Nolen

Making Of Surgeon:

The Making of a Surgeon William A. Nolen, 1975-02-15 *The Making of a Surgeon* is the memoir of an apprentice. It is William Nolen's story of his transformation from student to practitioner from a brash medical school graduate to a surgeon possessing skill and judgment. And as in the best memoirs in the brilliant flash of his self-discovery, William Nolen illuminates the world outside himself.

Confessions of a Surgeon Paul A. Ruggieri, MD, 2023-03-24 As an active surgeon over the last thirty years, Dr. Paul A. Ruggieri has experienced and lived through the best and the worst of his profession. In his first book, *Confessions of a Surgeon: The Good, the Bad, and the Complicated*, he pushed open the operating room doors to give the public a startling view of what really went on inside the operating room. In *Confessions of a Surgeon: A Deeper Cut*, Dr. Ruggieri blows the operating room doors right off their hinges. It cuts deeper into a profession even more mysterious than ever before. He candidly shares his thoughts on the patients that have impacted his life the most. He also exposes how surgeons, including himself, and the surgical profession have dramatically changed since the first time he nervously picked up a scalpel blade as a naive surgical intern. He explores how these changes have helped and hurt patients. He also explores how these changes will continue to have a direct effect on anyone about to enter an operating room. Ultimately, Dr. Ruggieri's passionate and candid account of his life inside a changing operating room will give his audience the power of transparency and truth. **Difficult**

Decisions in Thoracic Surgery Mark K. Ferguson, 2014-06-16 The complexity of decision making in thoracic surgery is growing exponentially. As new technology is introduced, physicians from nonsurgical specialties offer alternative and competing therapies for what was once the exclusive province of the thoracic surgeon. In addition, there is increasing knowledge regarding the efficacy of traditional thoracic surgical therapies. How to select among these varied and complex approaches is becoming increasingly difficult. The first two editions of this book have found wide acceptance among practicing surgeons, trainees, and educators. Chapters from them are regularly cited by the Thoracic Surgery Directors Association as valuable resources for their weekly curriculum exercises. As in the first two editions, chapters adhere to a specific format updated for the third edition. This approach provides uniformity to the presentations, making it possible to identify useful material at a glance.

The Making of a Surgeon in the 21st Century Craig A. Miller, 2004 *The Making of a Surgeon in the 21st Century* is a highly personalized description of one individual's experiences during a five-year residency in general surgery at a major university hospital.
