late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading *Emotions and the Making of Psychiatric Reform in Britain, c. 1770-1820* Mark Neuendorf, 2021-11-19 This book explores the ways which people navigated the emotions provoked by the mad in Britain across the long eighteenth century Building upon recent advances in the historical study of emotions it plots the evolution of attitudes towards insanity and considers how shifting emotional norms influenced the development of a humanitarian temperament which drove the earliest movements for psychiatric reform in England and Scotland Reacting to a culture of sensibility which encouraged tears at the sight of tender suffering early asylum reformers chose instead to express their humanity through unflinching resolve charging into madhouses to contemplate scenes of misery usually hidden from public view and confronting the authorities that enabled neglect to flourish This intervention required careful emotional management which is documented comprehensively here for the first time Drawing upon a wide array of medical and literary sources this book provides invaluable insights into pre modern attitudes towards insanity
