Making Art Together Mark Cooper, Lisa Sjoström, 2007-08-01 Artist Mark Cooper aims to change the way you think about making art with kids Working with schools around the country Cooper has brought together scores of teachers and hundreds of children to make remarkable collaborative art that has enlivened classrooms and public spaces and been displayed in the nation's most prestigious museums In this inspiring practical idea filled book Cooper shows how any teacher not just art teachers can imagine and execute similar projects in their own classrooms But more than that Cooper transforms our sense of possibilities arguing for a new view of art in schools Making Art Together is a book about art education structured around big ideas that adults can flourish in the role of Master Artist that the perspective of contemporary art offers liberating possibilities for rethinking art in schools that art can and should be about the larger world and thus naturally ties in to all areas of the curriculum Most of all Cooper shows us the power of collaboration From mammoth freestanding sculptures to billboards against violence to maps of the world the projects here are all planned designed and completed by children themselves The resulting artwork is complex and ambitious on a scale that would be out of reach for any individual child Working collaboratively using a distinctly democratic model kids actually think and work like adult artists throughout every stage of the project Together the sky's the limit the artistic and educational opportunities are boundless Making Art Together is a bold beautifully illustrated book that could at a time when art budgets are being slashed revitalize our sense of what art in schools can accomplish

Moon, 2003 This expanded new edition reflects the author's efforts to explore the crucial components of the education of the creative arts therapist The text reflects significant developments in the profession of art therapy important modifications in the educational standards of the American Art Therapy Association and profound changes in health care The book is an

expression of the author's belief that the most essential element of art therapy is art as the core of the profession. It is art making that undergirds the profession and is also the key element that art therapists bring to the client-therapist and educator-student relationships. Central too to the author's approach is the manner in which mentor and beginning art therapist come together in their efforts to learn and grow. The concern for authentic engagement in the training relationship enhances the beginner's ability to use the self to help clients learn to use art and artistic expression to identify and integrate new insights in their lives. Topics presented include The Image Making Art Beginner's Chaos Journey Metaphor in Education Mentor Supervisor The Art Experience Core Curriculum Practical Experience Science and Soul in the Clinical Setting The Work of Art Therapy The Young Student Gifts of the Male and Female Student Role of Philosophy Therapy and Holidays Metaverbal Therapy Role of Metaphor Role of Love Role of Assessment and Role of Work. The book is ultimately concerned with the use of art and the artistic relationship to promote human growth. The author's deep understanding of both art and existentialism makes this book a high point in the ever-evolving fields of existential psychotherapy and art therapy.

Communities of Practice: Art, Play, and Aesthetics in Early Childhood Christopher M. Schulte, Christine Marmé Thompson, 2018-01-08. Reflecting contemporary theory and research in early art education, this volume offers a comprehensive introduction to new ways of thinking about the place of art play and aesthetics in the lives and education of young children. Enlivened by narratives and illustrations, 16 authors offer perspectives on the lived experience of being a child and discovering the excitement of making meaning and form in the process of art play and aesthetic inquiry. **The Value of Art Education** Henrik Fürst, Erik Nylander, 2023-05-11. This book shows the continuing importance of art education. Art education attracts students who see multiple meanings and justifications for the worth of that education. Their engagement in art education is not limited to the uncertain prospects for jobs or routes into employment in the arts. Fürst and Nylander approach art education through a rich array of empirical examples derived from Swedish folk high school programs in music, visual arts, and creative writing. Based on an analytical framework of pragmatic sociology, the book allows the reader to understand the competences and critical capacities held by students and teachers. The book challenges the dominant public perception of art education and broadens our understanding of what it is good for. *The Value of Art Education* is essential reading for those defending the status of this vital sector of education, offering a deeper understanding of why people engage, what they gain, and the social importance of the arts. **How to Avoid Making Art** Julia Cameron, 2005-09-08. Anyone who is engaged in a creative pursuit will no doubt identify with these wonderful cartoons by award-winning artist Elizabeth Cameron of creative wannabes doing everything except actually getting down to work. For most people, creativity is a serious business, says Julia Cameron. They forget the telling phrase: the play of ideas and think that they need to knuckle down and work more.
