Making England Landscape Of Staffordshire:

British and Irish Archaeology ,1994 The Shaping of a Community Beat A. Kümin,2016-12-05 This book offers a new perspective to the current debate about popular religious attitudes in Tudor England laying particular emphasis on the social and secular dimensions of parish life The argument focuses on the role of the laity and especially on the office of churchwarden It assesses the rising levels of parish income the importance of the social context for fund raising strategies and the growing expenditure on priests voluntary activities and administrative duties The final part discusses the Reformation related reduction in religious options and the intensifying trend towards oligarchical parish regimes and official local government responsibilities Wherever possible the English situation is put into sharper focus by comparisons with local ecclesiastical life on the Continent and appendices provide a detailed financial analysis for a large number of parishes

British Archaeological Abstracts ,1977 The Northern Danelaw D.M. Hadley,2001-01-01 Investigating the changing nature of lordship and peasant statuses the transformation of estate structures the emergence of villages and the development of the parish system D M Hadley also explains the peculiarities of the northern Danelaw and reassesses the impact of the Scandinavian settlements on its society and culture A detailed local study is combined with a consideration of wider issues concerning Anglo Saxon England and long and short term changes unrelated to successive conquests **Greater Medieval**

Houses of England and Wales, 1300-1500: Volume 2, East Anglia, Central England and Wales Anthony Emery,1996 The second volume of a massive illustrated survey of the greater houses of medieval England and Wales first published in 1996 **Education, Literacy, and Society, 1830-70** W. B. Stephens,1987 Parks in Medieval England S.A.

Mileson,2009-07-16 Parks were prominent and indeed controversial features of the medieval countryside but they have been unevenly studied and remain only partly understood Stephen Milesen provides the first full length study of the subject examining parks across the country and throughout the Middle Ages in their full social economic jurisdictional and landscape context The first half of the book investigates the purpose of these royal and aristocratic reserves which have been variously claimed as hunting grounds economic assets landscape settings for residences and status symbols An emphasis on the aristocratic passion for the chase as the key motivation for park making provides an important challenge to more recent views and allows for a deeper appreciation of the connection between park making and the expression of power and lordship The second part of the book examines the impact of park creation on wider society from the king and aristocracy to peasants and townsmen Instead of the traditional emphasis on the importance of royal regulation greater attention is paid to the effects of lordly park making on other members of the landed elite and ordinary people These widespread enclosures interfered with customary uses of woodland and waste hunting practices roads and farming not surprisingly they could become a focus for aristocratic feud popular protest and furtive resistance Combining historical archaeological and landscape evidence this ground breaking study provides fresh insight into contemporary values and how they helped to shape

the medieval landscape *An Environmental History of Wildlife in England 1650 - 1950* Tom Williamson, 2013-12-05 Choice Outstanding Academic Title 2014 While few detailed surveys of fauna or flora exist in England from the period before the nineteenth century it is possible to combine the evidence of historical sources ranging from game books diaries churchwardens accounts and even folk songs and our wider knowledge of past land use and landscape with contemporary analyses made by modern natural scientists in order to model the situation at various times and places in the more remote past This timely volume encompasses both rural and urban environments from 1650 to the mid twentieth century drawing on a wide variety of social historical and ecological sources It examines the impact of social and economic organisation on the English landscape biodiversity the agricultural revolution landed estates the coming of large scale industry and the growth of towns and suburbs It also develops an original perspective on the complexity and ambiguity of man animal relationships in this post medieval period Lordship and Locality in the Long Twelfth Century Hannah Boston, 2024 A new perspective on lordship in England between the Norman Conquest and Magna Carta Multiple lordship that is holding land or owing allegiance to more than one lord simultaneously was long regarded under the western European feudal model as a potentially dangerous aberration and a sign of decline in the structure of lordship Through an analysis of the minor lords of Leicestershire Derbyshire and Staffordshire during the long twelfth century this study demonstrates conversely that multiple lordship was at least as common as single lordship in this period and regarded as a normal practice and explores how these minor lords used the flexibility of lordship structures to construct localised centres of authority in the landscape and become important actors in their own right Lordship was moreover only one of several forces which minor lords had to navigate Regional society in this period was profoundly shaped by overlapping ties of lordship kinship and locality each of which could have a fundamental impact on relationships and behaviour These issues are studied within and across lords honours around religious houses and urban areas and in a close case study of the abbey of Burton upon Trent This book thus contextualises lordship within a wider landscape of power and influence *In Search of England* Michael Wood, 2001 In a rich unfolding of history and legend the author of *Conquistadors* explores the character and origins of the Anglo Saxon world a culture that has had a significant impact worldwide 30 illustrations 16 in color The Oxford Handbook of Anglo-Saxon Archaeology Helena Hamerow, David A. Hinton, Sally Crawford, 2011-03-31 Written by a team of experts and presenting the results of the most up to date research The Handbook of Anglo Saxon Archaeology will both stimulate and support further investigation into a society poised at the interface between prehistory and history **Midland History**, 1977 **About England** David Matless, 2023-05-15 A cultural history of Englishness and the idea of England since 1960 Brexit thrust long fraught debates about Englishness and the idea of England into the spotlight About England explores imaginings of English identity since the 1960s in politics geography art architecture film and music David Matless reveals how the national is entangled with the local the regional the European the international the imperial the post imperial and the global He also addresses physical

landscapes from the village and country house to urban suburban and industrial spaces and he reflects on the nature of English modernity In short About England uncovers the genealogy of recent cultural and political debates in England showing how many of today s social anxieties developed throughout the last half century **The Agrarian History of England and Wales: Volume 2, 1042-1350** H. E. Hallam,H. P. R. Finberg,Joan Thirsk,1967 This 1988 volume examines the agrarian history of England and Wales from Edward the Confessor to the outbreak of the Black Death in 1348 *The Encyclopaedia Britannica: Lor to Mun* ,1911 *The Encyclopaedia Britannica* ,1911 **The Encyclopædia Britannica** ,1911 **The Encyclopædia Britannica** Hugh Chisholm,1911 **The Story of England** Michael Wood,2012-05-29 In The Story of England Michael Wood tells the extraordinary story of one English community over fifteen centuries from the moment that the Roman Emperor Honorius sent his famous letter in 410 advising the English to look to their own defences to the village as it is today The village of Kibworth in Leicestershire lies at the very centre of England It has a church some pubs the Grand Union Canal a First World War Memorial and many centuries of recorded history In the thirteenth century the village was bought by William de Merton who later founded Merton College Oxford with the result that documents covering 750 years of village history are lodged at the college Building on this unique archive and enlisting the help of the current inhabitants of Kibworth with a village wide archeological dig with the first complete DNA profile of an English village and with use of local materials like family memorabilia the story of Kibworth is the story of England itself a Who Do You Think You Are for the entire nation Better than any historian for decades in In Search of England Wood brings home not just the ways in which buildings landscapes and written texts may be read but the sensual beauty of encounters with them TLS Michael Wood was born and educated in Manchester He was an open scholar in Modern History at Oriel College Oxford where he held a Bishop Fraser scholarship in Medieval History as a postgraduate He has made a number of internationally successful tv series including In the Footsteps of Alexander the Great and four of his books have been UK non fiction number one bestsellers His highly acclaimed book of essays on early English history In Search of England was published by Penguin in 1999 **Encyclopedia Britannica** Hugh Chisholm,1911
