**The Continuity of Legal Systems in Theory and Practice** Benjamin Spagnolo, 2015-10-22 The Continuity of Legal Systems in Theory and Practice examines a persistent and fascinating question about the continuity of legal systems when is a legal system existing at one time the same legal system that exists at another time The book's distinctive approach to this question is to combine abstract critical analysis of two of the most developed theories of legal systems those of Hans Kelsen and Joseph Raz with an evaluation of their capacity in practice to explain the facts attitudes and normative standards for which they purport to account That evaluation is undertaken by reference to Australian constitutional law and history whose diverse and complex phenomena make it particularly apt for evaluating the theories explanatory power In testing whether the depiction of Australian law presented by each theory achieves an adequate fit with historical facts the book also contributes to the understanding of Australian law and legal systems between 1788 and 2001 By collating the relevant Australian materials systematically for the first time it presents the case for reconceptualising the role of Imperial laws and institutions during the late nineteenth and early twentieth centuries and clarifies the interrelationship between Colonial State Commonwealth and Imperial legal systems both before and after Federation      **Intention and Identity** John Finnis, 2011-04-07 The essays in Intention and Identity explore themes in Finnis's work touched on only lightly if at all in Natural Law and Natural Rights developing profound accounts of personal identity and existence group identity and common good and intention and choice as action and self shaping In his many faceted study of what it is to be a human person and a human community Finnis not only engages with contemporary philosophers and bioethicists such as Peter Singer Michael Lockwood and John Harris with thinkers from other traditions such as Karol Wojtyla John Paul II and with judges in the highest courts He also offers illuminating and deeply considered readings of Shakespeare and Aquinas and debates with Roger Scruton Joseph Raz Hans Kelsen John Rawls Glanville Williams Richard Posner Ronald Dworkin and others The role of intention in the criminal law and the law of civil wrongs is searchingly explored through case law as are judicial attempts to understand conditional and preparatory intentions Moral or bioethical issues discussed include in vitro fertilization cloning abortion euthanasia and brain death patriotism multi culturalism and immigration The papers show the power of a sometimes neglected aspect of the new classical theory of natural law The volume includes previously unpublished papers on whether brain life is relevant to the beginning of a person's life on its relevance to the end of one's life and a substantial introduction in which John Finnis reflects on the changes in his thinking on personal reality and on how intention is to be analysed and

understood and its moral significance appreciated      The United Kingdom Constitution Nicholas William Barber, 2021 This volume is an introduction to the United Kingdom's constitution that recognises its historical political and legal dimensions It pays attention to the revival of the constituent territories of the UK The constitution is shaped by constitutional principles including state sovereignty separation of powers democracy and subsidiarity      **Stem Cells: New Frontiers In Science And Ethics** John Harris, Sarah Chan, Muireann Quigley, 2012-03-27 Fast moving and ever changing stem cell science and research presents ongoing ethical and legal challenges in many countries Each development and innovation throws up new challenges This is the case even where new developments initially seem to solve old dilemmas Sometimes it becomes evident that new science does not in fact solve old problems and for that reason the ethical issues remain In recognition of this this book presents innovative and creative analyses of a range of ethical and legal challenges raised by stem cell research and its potential and actual application The editors of this collection have brought together experts from ethics and law to bring fresh perspectives on the use of and research on stem cells The chapters in this collection range across a number of different issues in the debate on stem cells from the ethical dilemmas of conducting stem cell research to those of the clinical application of stem cell technology Each chapter gives an in depth and comprehensive analysis of the ethical or legal issues at stake The early chapters give engaging new expositions on the permissibility of using embryos in stem cell research in particular challenging our views about how we view and construct the embryo in debates regarding stem cells Later chapters move on to actual and potential clinical uses of stem cells and present novel arguments about these      **Stem Cells** Sarah Chan, John Harris, 2012 Fiction LGBT Studies Finalist for the American Library Association GLBT Fiction Award Guess deftly performs the parlor trick of handling several different voices switching fluidly from perceptive Caddie to the clipped cadence of masculine Jo to jaded Selena This Alice Doesn't Live Here Anymore for the 1990s celebrates the differences between people without fudging the loneliness that these entail Guess's attempts to put a Midwestern spin on magical realism are blessedly rare in a book loaded with so many natural surprises any supernatural extras would be gilt on the lily Publishers Weekly      **Normativity and Norms** Stanley L. Paulson, Bonnie Litschewski Paulson, 1998 This remarkable collection contains some of the very best work on themes developed by Hans Kelsen regarded by many as the most influential legal philosopher of the twentieth century The volume addresses in rich detail the topic where debate on Kelsen's work has been liveliest normativity as Kelsen's alternative to both traditional legal positivism and natural law theory The book boasts a truly international list of contributors with authors from Europe North and South America and Australia a dozen countries in all      *History of Ireland and the Irish People* Samuel Smiles, 1844      **The United Irishmen, Their Lives and Times** Richard Robert Madden, 1842      **Cases Argued and Decided in the Supreme Court of the United States and Others** United States.
