Making Medical Decisions:

Making Medical Decisions Richard Gross, 1999 Never before have the powerful techniques of decision analysis had more importance for patient and doctor This book translates the major principles of medical decision making into clinically relevant and easy to understand terms Filled with examples drawn from patient care and familiar games of chance Making Medical Decisions teaches the reader how to feel confident about giving the best advice in the face of the inherent uncertainties of real world medicine

Making Medical Decisions for the Profoundly Mentally Disabled Norman L. Cantor, 2009-08-21 A legal and moral analysis of medical decision making on behalf of those with such severe cognitive impairments that they cannot exercise self determination In this book Norman Cantor analyzes the legal and moral status of people with profound mental disabilities those with extreme cognitive impairments that prevent their exercise of medical self determination He proposes a legal and moral framework for surrogate medical decision making on their behalf The issues Cantor explores will be of interest to professionals in law medicine psychology philosophy and ethics as well as to parents guardians and health care providers who face perplexing issues in the context of surrogate medical decision making The profoundly mentally disabled are thought by some moral philosophers to lack the minimum cognitive ability for personhood Countering this position Cantor advances both theoretical and practical arguments for according them full legal and moral status He also argues that the concept of intrinsic human dignity should have an integral role in shaping the bounds of surrogate decision making Thus he claims while profoundly mentally disabled persons are not entitled to make their own medical decisions respect for intrinsic human dignity dictates their right to have a conscientious surrogate make medical decisions on their behalf Cantor discusses the criteria that bind such surrogates He asserts contrary to popular wisdom that the best interests of the disabled person are not always the determinative standard the interests of family or others can sometimes be considered Surrogates may even consistent with the intrinsic human dignity standard sometimes authorize tissue donation or participation in nontherapeutic medical research by profoundly disabled persons Intrinsic human dignity limits the occasions for such decisions and dictates close attention to the preferences and feelings of the profoundly disabled persons themselves Cantor also analyzes the underlying philosophical rationale that makes these decision making criteria consistent with law and morals

Making Medical Spending Decisions Mark A. Hall, 1997 This book explores the making of health care rationing decisions through the analysis of three alternative decision makers patients paying out of pocket officials setting limits on treatments and coverage and physicians at the bedside Hall develops this analysis along three dimensions political economics ethics and law The economic dimension addresses the practical feasibility of each method The ethical dimension discusses the moral aspects of these methods while the legal dimension traces the most recent developments in jurisprudence and health law

Decision Making in Health Care Gretchen B. Chapman, Frank A. Sonnenberg, 2000 Decision Making in Health Care first published in 2000 is a comprehensive overview of the field of medical

decision making *Making Health Care Decisions* United States. President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research,1982 *Making Health Care Decisions: Report* United States. President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research,1982

Practical Decision Making in Health Care Ethics Raymond J. Devettere,2009-12-04 For nearly fifteen years Practical Decision Making in Health Care Ethics has offered scholars and students a highly accessible and teachable alternative to the dominant principle based theories in the field Devettere s approach is not based on an ethics of abstract obligations and duties but following Aristotle on how to live a fulfilled and happy life in short an ethics of personal well being grounded in prudence the virtue of ethical decision making This third edition is revised and updated and includes discussions of several landmark cases including the tragic stories of Terri Schiavo and Jesse Gelsinger the first death caused by genetic research Devettere addresses new topics such as partial birth abortion law embryonic stem cell research infant euthanasia in The Netherlands recent Vatican statements on feeding tubes organ donation after cardiac death new developments in artificial hearts clinical trials developed by pharmaceutical companies to market new drugs ghostwritten scientific articles published in major medical journals and controversial HIV AIDS research in Africa This edition also includes a new chapter on the latest social and political issues in American health care Devettere s engaging text relies on commonsense moral concepts and avoids academic jargon It includes a glossary of legal medical and ethical terms an index of cases and thoroughly updated bibliographic essays at the end of each chapter that offer resources for further reading It is a true classic brilliantly conceived and executed and is now even more valuable to undergraduates and graduate students medical students health care professionals hospital ethics committees and institutional review boards and general readers interested in philosophy medicine and the rapidly changing field of health care ethics **Data Mining to Determine Risk in Medical Decisions**

Patricia B. Cerrito,2011-11-15 Decisions regarding the risks involved in medical treatments must belong to patients and their physicians after all it is the patient s health and life which is at stake But patients will not be equipped for this decision making process if they cannot be given some idea as to the risks and benefits of treatment Such risks are generally estimated by a consensus panel of specialist physicians using supporting medical literature Unfortunately this literature does not always provide a good estimate of risk particularly in the case of rare occurrences This book demonstrates statistical techniques that can be used to investigate matters of risk These include kernel density estimation predictive modeling association rules and text analysis It also shows through example how these techniques can provide meaningful results and examines current methods discussing some of the flaws in models which may lead to misleading results After a general introduction to the concept of medical risk the subjects covered include the process by which rare occurrences are investigated in drugs or treatments the trade offs between risks and benefits extrapolation of clinical trial results and the cost of healthcare in relation to risks It also examines problems such as competing risks error and the use of group identities

as well as looking at the issue of futility The book concludes with a chapter providing a general discussion and summary and an appendix shows some of the processes for using SAS Enterprise Miner to perform some of the models used in the text

Medical Decisions for a Loved One With a Life-Threatening Illness Dr. Gannel Jean-Pierre, 2020-11-09 *Medical Decisions for a Loved One with a Life Threatening Illness Palliative Care for the Community* By Dr Gannel Jean Pierre *Medical Decisions for a Loved One with a Life Threatening Illness Palliative Care for the Community* by Dr Gannel Jean Pierre is a wonderful resource for people dealing with a life threatening illness or who have a loved one in such a situation Dr Jean Pierre blends real experience with sensitive effective and gentle advice to cater to most any situation within the palliative care spectrum With examples from Jean Pierre s vast expanse of clinical experience this book is invaluable to those in this situation Dr Jean Pierre masterfully uses reputable sources for great information and resources to help as much as possible during end of life care This book is highly recommended to anybody who needs help understanding how to help loved ones in this situation or what to expect if they themselves are going through terminal illness **Resolving Ethical Dilemmas**

Bernard Lo, 2012-01-03 This timely Fourth Edition offers clinicians expert guidance in approaching a wide range of ethical dilemmas and developing an action plan Most chapters include real life sample cases that the author walks through discussing the salient issues and how to approach them This edition includes a new chapter on ethical issues in cross cultural medicine and new material on conscientious objection by physicians in reproductive health and other areas Other topics addressed include disclosure of errors to patients gifts to physicians from drug companies involuntary psychiatric treatment genomic medicine and ethical issues during public health emergencies such as pandemics The updated discussion of organ transplantation includes increasing the donor pool and non heart beating donors *Medical Decision-Making on Behalf of*

Young Children Imogen Goold, Cressida Auckland, Jonathan Herring, 2020-09-17 In the wake of the Charlie Gard and Alfie Evans cases a wide ranging international conversation was started regarding alternative thresholds for intervention and the different balances that can be made in weighing up the rights and interests of the child the parent s rights and responsibilities and the role of medical professionals and the courts This collection provides a comparative perspective on these issues by bringing together analysis from a range of jurisdictions across Europe North and South America Africa and Asia Contextualising the differences and similarities and drawing out the cultural and social values that inform the approach in different countries this volume is highly valuable to scholars across jurisdictions not only to inform their own local debate on how best to navigate such cases but also to foster inter jurisdictional debate on the issues The book brings together commentators from the fields of law medical ethics and clinical medicine across the world actively drawing on the view from the clinic as well as philosophical legal and sociological perspectives on the crucial question of who should decide about the fate of a child suffering from a serious illness In doing so the collection offers comprehensive treatment of the key questions around whether the current best interests approach is still appropriate and if not what the alternatives are It engages head

on with the concerns seen in both the academic and popular literature that there is a need to reconsider the orthodoxy in this area

Making Tough Decisions about End-of-Life Care in Dementia Anne Kenny, 2018-09-03 Practical essential advice about making tough decisions for people with end stage dementia Each year more than 500 000 people are diagnosed with dementia in the United States As stunning as that figure is countless family members and caregivers are also affected by each diagnosis Families are faced with the need to make vital end of life decisions about medical treatment legal and financial matters and living situations for those who no longer can no one is prepared for this process And many caregivers grapple with sadness confusion guilt anger and physical and mental exhaustion as dementia enters its final stage In *Making Tough Decisions about End of Life Care in Dementia* Dr Anne Kenny a skilled palliative care physician describes how to navigate the difficult journey of late stage dementia with sensitivity compassion and common sense Combining her personal experience caring for a mother with dementia with her medical expertise in both dementia and end of life care Dr Kenny helps the reader prepare for a family member's death while managing their own emotional health Drawing on stories of families that Dr Kenny has worked with to illustrate common issues concerns and situations that occurs in late stage dementia this book includes practical advice about making life altering decisions while preparing for a loved one's inevitable death medical care pain insomnia medication and eating caring for the caregiver having conversations about difficult topics with other family members and with health care legal and financial professionals Concrete to do lists and lists of important points provide information at a glance for busy caregivers Each chapter concludes with a list of additional resources for more information and help *Making Tough Decisions about End of Life Care in Dementia* is a lifeline an invaluable guide to assist in the late stage of dementia

Medical Decisions, Estrogen and Aging Jay Schulkin, 2007-12-20 If you are a woman between the ages of 45 and 75 and are trying to decide whether to try or stick with hormone therapy HT or if you are a physician with patients fitting this description this book is for you unless you are looking for a simple answer If you are looking for a simple answer you can go to the web site of one of the companies that manufactures hormones or makes money by administering hormone therapy e g AntiAgingGroup com or you can go to the website of an organization that advocates natural aging e g the Inter National Organization to Reclaim Menopause Inorm org Any impartial advisor however is going to admit that the answer isn't at all clear cut Jay Schulkin I believe the reader will find is such an impartial advisor and he is going to take you several steps beyond simply acknowledging the ambiguity he's going to educate you about the biology history sociology business and ethics of hormone replacement therapy As a prominent scientist doing research on hormones a medical researcher an expert on decision making he is the ideal guide to the intricacies of the topic You might think that all of this sounds superfluous for making an informed decision Just the facts please

Making Decisions That Matter Kathleen M. Galotti, 2005-07-11 Researchers studying decision making have traditionally studied the phenomenon in the laboratory with hypothetical decisions that may or may not involve the decision maker's values passions or areas of expertise The assumption

is that the findings of these well controlled laboratory studies will shed light on the important decisions people make in their everyday lives This book examines that assumption The volume begins by covering four basic phases of decision making setting or clarifying goals gathering information structuring the decision and making a final choice Comprehensive reviews of existing literature on each of these topics is provided Next the author examines differences in decision making as a function of several factors not typically discussed in the literature the type of decision being made e g legal medical moral and the existence of individual differences in the decision maker developmental differences individual differences in style or temperament differences as a function of expertise The author then examines the topic of group decision making contrasting it with individual decision making The volume concludes with some observations and suggestions for improving peoples everyday decision making This book is intended for use as a core textbook or supplement for courses in psychology education or allied disciplines It will also be an invaluable resource for people who work with people making decisions in various applied settings such as schools universities and health care centers

Legal Handbook for Texas Nurses Susan Schuerman Murphy, 1995-01-01 As the scope of nursing practice expands and as the government imposes more regulations on the health care industry nurses face increased legal liability This book provides a reliable guide to the laws that affect nurses in Texas Susan Murphy writes in easily understood nontechnical terms for people without specialized legal training After discussing the licensing requirements for registered and licensed vocational nurses she covers the following topics Scope of Practice Advanced Nurse Practitioners Nursing Negligence Insurance Nursing Negligence Consent Informed Consent Drug Therapy Documentation AIDS and Hepatitis B Employment Issues Ethical Issues This handbook provides nurses with a single convenient source for specific information about their legal rights responsibilities and liabilities In addition employers of nurses and attorneys specializing in medical malpractice labor law and health law will find the book to be an essential reference

Encyclopedia of Medical Decision Making Michael W. Kattan, 2009-08-15 Decision making is a critical element in the field of medicine that can lead to life or death outcomes yet it is an element fraught with complex and conflicting variables diagnostic and therapeutic uncertainties patient preferences and values and costs Together decisions made by physicians patients insurers and policymakers determine the quality of health care quality that depends inherently on counterbalancing risks and benefits and competing objectives such as maximizing life expectancy versus optimizing quality of life or quality of care versus economic realities Broadly speaking concepts in medical decision making MDM may be divided into two major categories prescriptive and descriptive Work in the area of prescriptive MDM investigates how medical decisions should be done using complicated analyses and algorithms to determine cost effectiveness measures prediction methods and so on In contrast descriptive MDM studies how decisions actually are made involving human judgment biases social influences patient factors and so on The Encyclopedia of Medical Decision Making gives a gentle introduction to both categories revealing how medical and healthcare decisions are actually made and constrained and how

physician healthcare management and patient decision making can be improved to optimize health outcomes

Key Features

Discusses very general issues that span many aspects of MDM including bioethics health policy and economics disaster simulation modeling medical informatics the psychology of decision making shared and team medical decision making social moral and religious factors end of life decision making assessing patient preference and patient adherence and more

Incorporates both quantity and quality of life in optimizing a medical decision

Considers characteristics of the decisionmaker and how those characteristics influence their decisions

Presents outcome measures to judge the quality or impact of a medical decision

Examines some of the more commonly encountered biostatistical methods used in prescriptive decision making

Provides utility assessment techniques that facilitate quantitative medical decision making

Addresses the many different assumption perspectives the decision maker might choose from when trying to optimize a decision

Offers mechanisms for defining MDM algorithms

With comprehensive and authoritative coverage by experts in the fields of medicine decision science and cognitive psychology and healthcare management this two volume Encyclopedia is a must have resource for any academic library

Primary Care Geriatrics Richard J. Ham, 2007-01-01

Accompanying CD ROM contains video learning modules on gait and balance and dizziness a dermatology quiz and downloadable cognitive assessment tools to hone clinical skills

File formats include QuickTime movies PDFs and HTML documents

Your Health, Your Decisions Robert Alan McNutt, 2016-09-02

In nearly every medical decision making encounter the physician is at the center of the discussion with the patient the recipient of the physician's decisions

Dr Robert Alan McNutt starts from a very different premise the patient should be at the center

McNutt challenges the physician directed medical expertise model of making decisions presenting a practical approach augmented by formal exercises designed to give patients the tools and confidence to compare and contrast their health care options so they can make their own choices

He addresses a number of scenarios including heart disease breast cancer and prostate cancer conditions that pose a range of choices that patients may face about diagnoses and treatments

After providing a clear explanation of what is the highest quality medical decision making information McNutt teaches patients to use that information to weigh the harms and benefits of their treatment options empowering them to ask critical questions as they take a stronger hand in their own care

Your Health Your Decisions moves from specific scenarios that commonly baffle patients to a systematic exploration of how to make medical decisions

By offering patients the tools they need to be full partners in their own health care McNutt demystifies what can be a bewildering and even terrifying process
