Making Of Waltons Lives:

Walton's Lives Jessica Martin, 2001 This book argues that Walton's practice in his *Lives* was crucial in shaping modern expectations of biography including issues such as how it should be organized how it should treat evidence how seriously it should regard narrative coherence and most particularly in the modern expectation of an intimate relationship between author reader and subject Martin considers Walton's biographical ethics in relation to the tributary genres influencing him as they emerged from post Reformation commendatory practice after 1546 most particularly classical funeral oratory and the emergent Protestant funeral sermon the Plutarchan parallel the didactic Character martyrological narrative and finally Walton's direct model the exemplary biographical commemoration of the conformist minister Walton's Lives. The Oxford History of Life

Writing: Volume 2. Early Modern Alan Stewart, 2018-05-04 The Oxford History of Life Writing Volume 2 Early Modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography autobiography and diary keeping that laid the foundations for our modern life writing The challenges wrought by the upheavals and the sixteenth century English Reformation and seventeenth century Civil Wars moulded British and early American life writing in unique and lasting ways While classical and medieval models continued to exercise considerable influence new forms began to challenge them The English Reformation banished the saints' lives that dominated the writings of medieval Catholicism only to replace them with new lives of Protestant martyrs Novel forms of self accounting came into existence from the daily moral self accounting dictated by strands of Calvinism to the daily financial self accounting modelled on the new double entry book keeping This volume shows how the most ostensibly private journals were circulated to build godly communities how women found new modes of recording and understanding their disrupted lives how men started to compartmentalize their lives for public and private consumption The volume doesn't intend to present a strict chronological progression from the medieval to the modern nor to suggest the triumphant rise of the fact based historical biography Instead it portrays early modern England as a site of multiple sometimes conflicting possibilities for life writing all of which have something to teach us about how the period understood both the concept of a life and what it meant to write a life

George Herbert's Pastoral

Christopher Hodgkins, 2010 As poet and as country parson George Herbert engaged the pastoral in all of its varied senses In October of 2007 many of the world's leading Herbert scholars met at Sarum College in Salisbury England to locate Herbert's pastoral life and writings more particularly in early Stuart Wiltshire They explored the relations between the pastoral locale of Herbert's last years 1630-1633 in nearby Bemerton and the themes images and tenor of his writing How did the specific country place time and people shape the life and work of this especially lyrical country priest The fourteen essays in this collection address Herbert's pastoral poetry and practice cast new light on his actual relations with specific local personalities and places make fresh connections to the inward biblical and liturgical spaces of his work consider his outward links to garden and pasture and discover fictional and theological reverberations beyond Herbert's local pastoral world

The Visual Worlds of Life

Writing Kerstin Maria Pahl, 2025-01-04 An Open Access edition is available The Visual Worlds of Life Writing brings into conversation the two most popular genres in long eighteenth century England portraits and biographies As key instruments of social formation when Britain was forging the nation Linda Colley they were wielded alike by Whigs and Tories the aristocracy and the commercial middle classes high class artists and grub street writers They were most persuasive however when used jointly portrait prints ideally accompanied by Brief Lives sold by the thousands National histories were reissued to include pictures Portraitists were required to stage their sitters as though taken from real life situations Embedded into such interplay between texts and images was an aesthetic claim doing biography was a multimedia enterprise Far from being just words on a page eighteenth century life writing came with frontispiece portraits illustrations or elaborate title pages Biographers directed their readers to existing portraits of their subjects to enhance the reading experience Portraits made of calligraphic writing blurred the boundaries between text and image As a thorough reassessment of visual culture's role in producing biographies this book offers an in depth analysis of the rhetorics of portraiture and life writing an historical account of their sister arts tradition and an inquiry into the social function of profiling people

Early Modern Authorship

and the Editorial Tradition Aleida Auld, 2023-12-12 This volume adds a new dimension to authorship studies by linking the editorial tradition to the transformative reception of early modern authors and their works across time Aleida Auld argues that the editorial tradition provides privileged access to the reception of early modern literature informing our understanding of certain reconfigurations and sometimes helping to produce them between their time and our own At stake are reconfigurations of oeuvre and authorship the relationship between the author and work the relationship between authors and the author's own role in establishing an editorial tradition Ultimately this study recognizes that the editorial tradition is a stabilizing force while asserting that it may also be a source of strange and provocative reconceptions of early modern authors and their works in the present day Scholars and students of early modern literature will benefit from this approach to

editing as a form of reception that encompasses all the editorial decisions that are necessary to put forth a text

Fault Lines and Controversies in the Study of Seventeenth-century English Literature Claude J. Summers, Ted-Larry Pebworth, 2002 Written by various experts in the field this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth century English literature The turn into the twenty first century is an appropriate time to take stock of the state of the field and as part of that stocktaking the need arises to assess both where literary study of the early modern period has been and where it might desirably go Hence many of the essays in this collection look both backward and forward They chart the changes in the field over the past half century while also looking forward to more change in the future
