Making Peace Prevail Preventing Violent Conflict In Macedonia:

Making Peace Prevail Alice Ackermann, 2000-01-01 The urgency to tell the story of the former Yugoslav Republic of Macedonia the only republic in the former Yugoslavia to secede without bloodshed is made more compelling by the crisis in Kosovo In Making Peace Prevail Alice Ackermann offers the first in depth account of how Macedonia one of the few examples of successful preventive diplomacy held onto peace during the violent breakup of Yugoslavia in the 1990s Faced with ethnic tensions and the threat of the Bosnian war this republic was spared the fate of Croatia and Bosnia With this book Ackermann furthers our understanding of the challenge in conflict prevention in multiethnic and newly democratized societies She provides a framework of analysis that underscores the art of conflict prevention She notes the activity of the major players such as the United Nations and the Organization for Security and Cooperation in Europe OSCE but maintains that groups such as the Working Group of the International Conference on the Former Yugoslavia although not in the public eye accomplished much through an interactive workshop approach to conflict management In her epilogue Ackermann addresses the most recent developments with NATO s intervention in Kosovo and the Balkans and the internal forces at work in Macedonia which account for its current state of stability

Democratisation and the Prevention of Violent Conflict Jenny Engström, 2016-12-05 Challenging the often held belief that democratization necessarily leads to aggressive ethnic nationalism and even violent conflict this book offers an alternative account of democratization and inter ethnic relations It suggests that democratization can in fact help to prevent violent conflict in divided societies as demonstrated by two case studies Bulgaria and Macedonia At a time when democracy promotion is increasingly becoming part of international relations and foreign policy this study offers some poignant lessons for democratization and conflict resolution in places such as Iraq Afghanistan and Israel Palestine to name but a few

International Intervention in the Balkans since 1995 Peter Siani-Davies, 2004-03-01 This volume offers an analysis of the activities of the international community in the Balkans since the 1995 Dayton Agreement. There has been substantial investment in the region but so far the gains have been limited and doubts remain as to the extent that sustainable security has been enhanced. There is a need for serious reassessment of policies and priorities but this depends on a careful analysis of past successes and failures. The contributors seek to provide this by examining intervention not just in terms of military action and the activities of major international agencies at state level but also the activities of outside NGOs within the local environment.

The Macedonian Question and the Macedonians Alexis Heraclides, 2020-12-31 This book is a comprehensive and dispassionate analysis of the intriguing Macedonian Question from 1878 until 1949 and of the Macedonians and of their neighbours from the 1890s until today with the two themes intertwining. The Macedonian Question was an offshoot of the wider Eastern Question i.e. the fate of the European remnants of the Ottoman Empire once it dissolved. The initial protagonists of the Macedonian Question were Greece, Bulgaria and Serbia and a Slav speaking population inhabiting geographical Macedonia in search of its destiny, the largest segment of which ended up creating a new nation comprising the Macedonians, something unacceptable to its three neighbours. Alexis Heraclides analyses the shifting sands of the Macedonian Question and of the gradual rise of Macedonian nationhood with special emphasis on the Greek, Bulgarian and Serbian claims to Macedonia. 1870s-1919 the birth and vicissitudes of the most famous Macedonian revolutionary organization, the VMORO, and of other organizations. 1893-1940 the appearance and gradual establishment of the Macedonian nation from the 1890s until 1945. Tito's crucial role in Macedonian nationhood cum federal status. The Greek-Macedonian name dispute. 1991-2018 including the skeletons in the cupboard, the deep-seated reasons rendering the clash intractable for decades, the final Greek-Macedonian settlement, the 2018 Prespa Agreement, the Bulgarian-Macedonian dispute. 1950 today and its ephemeral settlement in 2017, the issue of the Macedonian language and the Macedonian national historical narrative. The author also addresses questions around who the ancient Macedonians were and the fascination with Alexander the Great. This monograph will be an essential resource for scholars working on Macedonian history, Balkan politics and conflict resolution.

The Oxford Handbook of United Nations Peacekeeping Operations Joachim Koops, Norrie MacQueen, Thierry Tardy, Paul D. Williams, 2015-07-09 The Oxford Handbook on United Nations Peacekeeping Operations presents an innovative, authoritative and accessible examination and critique of the United Nations peacekeeping operations. Since the late 1940s but particularly since the end of the cold war, peacekeeping has been a central part of the core activities of the United Nations and a major process in global security governance and the management of international relations in general. The volume will present a chronological analysis designed to provide a comprehensive perspective that highlights the evolution of UN peacekeeping and offers a detailed picture of how the decisions of UN bureaucrats and national governments on the set up and design of particular UN missions were and remain influenced by the impact of

preceding operations The volume will bring together leading scholars and senior practitioners in order to provide overviews and analyses of all 65 peacekeeping operations that have been carried out by the United Nations since 1948 As with all Oxford Handbooks the volume will be agenda setting in importance providing the authoritative point of reference for all those working throughout international relations and beyond

Conflict Prevention from Rhetoric to Reality Albrecht Schnabel, David Carment, 2004-01-01 Together with local actors many governments regional organizations and the UN are embracing preventive action as a viable path towards sustainable peace The contributions to this volume trace conflict prevention efforts in various regional contexts and explain how preventive thinking is being successfully mainstreamed into the activities of regional organizations and the UN

Encyclopedia of Conflicts Since World War II James Ciment, 2015-03-27 Thoroughly revised to include 25 conflicts not covered in the previous edition as well as expanded and updated information on previous coverage this illustrated reference presents descriptions and analyses of more than 170 significant post World War II conflicts around the globe Organized by region for ease of access *Encyclopedia of Conflicts Since World War II* Second Edition provides clear in depth explanations of events not covered in such detail in any other reference source Including more than 180 detailed maps and 150 photos the set highlights the conflicts that dominate today's headlines and the events that changed the course of late twentieth century history

Ethnic Conflict Karl Cordell, Stefan Wolff, 2009 Investigating the causes and consequences of ethnic conflict the authors argue that the most effective responses are those that take into account factors at the local state regional and global level and that avoid seeking simplistic explanations and solutions to what is a truly complex phenomenon Ethnic conflicts are man made not natural disasters and as such they can be understood prevented and settled However it takes skilful committed and principled leaders to achieve durable settlements that are supported by their followers and it takes the long term commitment of the international community to enable and sustain such settlements Book Jacket

NATO Review, 1999 **The Poet and the Diplomat** Saint-John Perse, Dag Hammarskjöld, 2001 Affords an English speaking audience rare access to the revealing correspondence between two Nobel prize winners Marie Noelle Little's expansive prologue to this book sets the stage for situating the two world renowned personalities in their exchange of letters during the six years before Hammarskjöld's death The letters themselves are characterized by world vision a noble tone and delicate sentiments Alexis Leger later known as the poet Saint John Perse and Dag Hammarskjöld were important figures in diplomatic and literary spheres and their lives shared a number of uncanny parallels that eventually brought them into contact with one another Alexis Leger French Secretary General of Foreign Affairs perhaps saw in Secretary General Dag Hammarskjöld the continuation of his diplomatic career while Hammarskjöld in the midst of difficult international crises found inspiration and strength in reading and translating Perse's poem *Chronique* This correspondence has both literary and political content that sheds light on some of the major political events of the day but also serves as an important manifestation of the tradition of connecting diplomacy and the arts

War

and Ideas John Mueller, 2013-09-13 This book collects the key essays together with updating notes and commentary of Professor John Mueller on war and the role of ideas and opinions Mueller has maintained that war and peace are in essence merely ideas and that war has waned as the notion that peace is a decidedly good idea has gained currency The first part of the book extends this argument noting that as ideas have spread war is losing out not only in the developed world but now in the developing one and that even civil war is in marked decline It also assesses and critiques theories arguing that this phenomenon is caused by the rising acceptance of democracy and or capitalism The second part argues that the Cold War was at base a clash of ideas that were seen to be threatening not of arms balances domestic systems geography or international structure It also maintains that there has been a considerable tendency to exaggerate security threats currently in particular the one presented by international terrorism and to see them in excessively military terms The third section deals with the role public opinion plays in foreign policy and argues that many earlier conclusions about opinion during the Korean and Vietnam Wars including especially ones concerning the importance of casualties in determining popular support for war apply to more recent military ventures in the Persian Gulf Bosnia Iraq and Afghanistan It also assesses the difficulties leaders and idea entrepreneurs often encounter when they try to manage or manipulate public opinion This book will be of much interest to students of international relations security studies foreign policy and international history

European Union Peacebuilding and Policing Michael Merlingen, Rasa Ostrauskaite, 2006-09-27 This new book provides an in depth analysis of the projects of improvement carried out by the civilian peacebuilding missions in Bosnia and Macedonia drawing on the work of Michel Foucault to make the case that the EU s self image as a model peacebuilder conceals another side of the European Security and Defence Policy The authors explore the double sided nature of peacebuilding missions on the one hand as a way to pacify democratize humanize and improve life in societies emerging from crisis or violence and on the other hand as a kind of political pastorate that limits the range of acceptable heterogeneity by refashioning repositioning and reorganizing subjects in line with transcendentalized notions of good governance The authors develop a limited reform agenda for how EU police missions can fold an agonistic generosity more deeply into their civilizing ethos in order to ensure they have a light expatriate footprint in their host countries The prescriptive part of the book also discusses generic problems in the implementation of EU police reforms and suggests ways to overcome these challenges This book will be of great interest to students of European politics sociology political science and theory

A History of the War in the Balkans R. Craig Nation, 2018-04-04 The Balkans is often described as a grim backwater a no man s land of world politics in the words of a post World War II study foredoomed to conflict springing from heterogeneity The stereotype is false but it has been distressingly influential in shaping perceptions of the Balkan conflict and its origin By encouraging pessimism about prospects for recovery it may also make it more difficult to sustain commitments to post conflict peace building This book seeks to refute simplistic ancient hatreds explanations by looking carefully at the sources and dynamics of the Balkan conflict

in all of its dimensions The Balkans in the New Millennium Tom Gallagher, 2005-04-28 Can the Balkans ever become a peaceful peninsula like that of Scandinavia With enlightened backing can it ever make common cause with the rest of Europe rather than being an arena of periodic conflicts political misrule and economic misery In the last years of the twentieth century Western states watched with alarm as a wave of conflicts swept over much of the Balkans Ethno nationalist disputes often stoked by unprincipled leaders plunged Yugoslavia into bloody warfare Romania Bulgaria and Albania struggled to find stability as they reeled from the collapse of the communist social system and even Greece became embroiled in the Yugoslav tragedy This new book examines the politics and international relations of the Balkans during a decade of mounting external involvement in its affairs Tom Gallagher asks what evidence there is that key lessons have been learned and applied as trans Atlantic engagement with Balkan problems enters its second decade This book identifies new problems organized crime demographic crises of different kinds and the collapse of a strong employment base This is an excellent contribution to our understanding of the area **The Broken Olive Branch: Nationalism, Ethnic Conflict, and the Quest for Peace in Cyprus** Harry Anastasiou, 2009-01-19 In the second volume Anastasiou focuses on emergent post nationalist trends their implications for peace and recent attempts to reach mutually acceptable agreements between Greek and Turkish Cypriots He documents the transformation of Greece Cyprus and Turkey within the context of Europeanization and globalization While leaders of both communities have failed to resolve the conflict Anastasiou argues that the accession of Cyprus into the European Union has created a structure and process that promises a multiethnic democratic Cyprus With great depth and balance The Broken Olive Branch presents a fresh analysis of the Cyprus conflict and new insights on the influence of nationalism **Reflections on the Balkan Wars** J. Morton, P. Forage, S. Bianchini, R. Nation, 2004-01-16 In this collection scholars policymakers and military officials explore the conditions that gave rise to the Balkan wars in the 1990s the application of international law to the wars the conduct of the wars and post war issues The essays are based on presentations given at the International Conference on the Balkans held at Florida Atlantic University in February 2002 The contributors come from varied backgrounds including international law genocide studies peacekeeping European politics communications history and military studies Economic Assistance and the Northern Ireland Conflict Sean Byrne, 2009 However it is important to note that economic aid to promote a change in Northern Ireland's economic well being is also tied into the 1998 Good Friday Agreement which has at its center a comprehensive range of new political power sharing institutions Yugoslavia and Its Historians Norman M. Naimark, Holly Case, 2003-02-19 Most of what has been written about the recent history of Yugoslavia and the fierce wars that have plagued that country has been produced by journalists political analysts diplomats human rights organization the United Nations and other government and intergovernmental organizations Professional historians of Yugoslavia however have been strangely silent about the wars and the breakup of the country This book is an effort to end that silence The goal of this volume is to bring together insights from a distinguished

group of American and European scholars of Yugoslavia to add depth to our historical understanding of that country's recent struggles. The first part of the volume examines the ways in which images of the Yugoslav past have shaped current understandings of the region. The second part deals more directly with the events of the recent past and also looks forward to some of the problems and future prospects for Yugoslavia's successor states.
