Flynn, 2004-09-21 Why do well educated antiwar activists call the president of the United States the new Hitler and argue that the U S government orchestrated the September 11 attacks Why does Al Gore believe that cars pose a mortal threat to the security of every nation Why does the Princeton professor known as the father of the animal rights movement object to humans eating animals but not to humans having sex with them and why does PETA defend that position In other words why do smart people fall for stupid ideas The answer Daniel J Flynn reveals in *Intellectual Morons* is ideology Flynn the author of *Why the Left Hates America* shows how people can be so blinded to reality by the causes they serve that they espouse bizarre sometimes ridiculous and often dangerous positions The most influential social movements have spawned ideologues who do

not care whether an idea is good or bad true or false but only whether it can serve their cause It is startling how many Americans and particularly how many media academic and political elites fall for bad ideas The trouble is their lies become institutionalized as truth and we all suffer as a result In *Intellectual Morons* Flynn reveals How rabid anti Americans simply parrot the delusional claims of a few gurus How the environmental movement spawned by a scientist whose doomsday predictions are almost always wrong has bred fanaticism stupidity and dishonesty How the hero of the animal rights crowd is a crank who promotes infanticide and euthanasia How a scientific fraud and pervert launched the sexual revolution How abortion rights activists ignore or cover up the fact that their matron saint advocated eugenics and concentration camps How our universities have become hothouses of leftist ideology How historians and journalists have airbrushed history to turn a racial separatist into a civil rights icon Filled with jaw dropping lapses in common sense from even our most celebrated opinion leaders *Intellectual Morons* is a welcome reality check for the glaring excesses of today's political and cultural debates This is a sophisticated pile driver of a book guiding us through the wiles of great luminaries of the netherworld And such liveliness in the writing and such erudition I was quite fascinated by *Intellectual Morons* William F Buckley Jr

Intellectual Morons is exceptionally aptly named The thought of all that brainpower going down the intellectual drain is sad but Daniel Flynn's description of it is hilariously on point This is must reading G Gordon Liddy *Intellectual Morons* is a delight a wonderful intellectual history of the past hundred years Flynn ably describes the purveyors of the bad ideas that have undermined our free society Burton W Folsom Jr professor of history Hillsdale College A famous bit of folk wisdom says You've got to stand for something or you'll fall for anything Some of the crackpot notions now fashionable in academic circles as here documented by Daniel Flynn suggest that saying is an understatement If you want to know how crazy and scary intellectual morons can get you have to read this book M Stanton Evans author of *The Theme Is Freedom* contributing editor to *Human Events*

The Least of These Lisa Garcia , Ask the average eleven to seventeen year old how much he or she knows about abortion and you might be surprised to find that the answer is very little However research shows that teens and pre teens who understand what abortion entails are overwhelmingly against it In *The Least of These* Calling on America's Youth to Defend the Unborn Lisa Garcia seeks to educate this generation about this crucial social issue Lisa covers all the bases explaining an infant's development from conception until birth the various abortion techniques used how racism was connected to the abortion movement and how abortion became legal in the United States No matter where you stand on the issue and no matter what faith you adhere to *The Least of These* will open your eyes to the facts surrounding this controversial debate

The Spinster and the Prophet Brian Mckillop, 2011-11-30 Winner of the UBC Medal for Biography and shortlisted for the Drainie Taylor Biography Prize The prolific novelist and social prophet H G Wells had a way with words and usually he had his way with women That is until he encountered the feisty Toronto spinster Florence Deeks In 1925 Miss

Deeks launched a 500 000 lawsuit against Wells claiming that in an act of literary piracy Wells had somehow come to use her manuscript history of the world in the writing of his international bestseller *The Outline of History* a work still in print today Thus began one of the most sensational and extraordinary cases in Anglo Canadian publishing and legal history In this riveting literary whodunit A B McKillop unfolds the parallel stories of two Edwardian figures and the ambition to capture the sweep of history that possessed them both H G Wells was the celebrated writer of autobiographical fiction and futuristic fantasy who at the end of the Great War preached the need for a global world order Florence Deeks was a modest teacher and amateur student of history who intended to correct traditional scholarship's neglect by writing an account of civilization that stressed the contributions of women Her manuscript was submitted to the venerable Macmillan Company in Canada but was rejected and never published Wells's opus completed in an astonishingly short period was released by the same firm in North America the year following As the mystery deepens and new evidence is revealed it seems that the verdict of the courts in Deeks vs Wells may not be that of history The cast of characters is as intriguing as it is wide in Canada the United States and England renowned publishers and editors eminent lawyers and judges leading journalists and all seeing office secretaries Not all it turns out merited their reputations Above all the tale embraces the lives of the philandering Mr Wells his wife and his mistresses and the scarcely noted Miss Florence Deeks her family her life's work and her search for justice
