Marginal Man The Dark Vision Of Harold Innis:

Marginal Man Alexander John Watson, 2007 This book is an extraordinary work of scholarship in its own right as well as an essential companion to the work of its subject one of Canada's most important minds *Wilbur Schramm and Noam Chomsky Meet Harold Innis* Robert E. Babe, 2015-04-21 *Wilbur Schramm and Noam Chomsky Meet Harold Innis* is an original critical in depth analysis of the media and communication thought of Canada's most highly acclaimed scholar Harold Adams Innis Even in Canada however Innis's writings until now have been only partially cited and interpreted Innis is usually stereotyped as being merely an economic historian fixated on previous civilizations whereas in fact he was an astute analyst whose main concerns were with present problems and future trajectories In the United States meanwhile Innis's media and communication writings have been quite neglected and even denigrated Drawing on Innis's less frequently cited work including his long neglected *Political Economy in the Modern State* Robert Babe opens up Innis's media scholarship as a whole unfolding it in startling critical yet ultimately appreciative ways By comparing Innis's media scholarship with Wilbur Schramm's and Noam Chomsky's moreover Babe tests the claims positions and modes of analysis not only of Innis but also of the other two celebrated scholars as well casting new light on their works and allowing the reader to imagine what sort of discourses might have been possible had the three been in conversation together *Wilbur Schramm and Noam Chomsky Meet Harold Innis* provides comparative insight into foundational media scholarship in the United States and Canada and explores in some detail the relevance of Innis for twenty first century digitized society *Harold Innis and the North* William J. Buxton, 2013-06-01 Harold Innis is widely understood as the proponent of the Laurentian school of historiography which mapped Canadian development along an East West axis Harold Innis and the North turns the axis North South by examining Innis's intense and abiding interest in the North and providing new perspectives on this seminal figure in Canadian political economy and communication studies This collection reveals that Innis's advocacy of the North was closely bound up with his vision of northern Canada as the site of a second industrial revolution based on mining hydro electric power pulp and paper and enabled by new forms of transportation Long preoccupied with Canada's coming of age as a balanced and integrated industrial nation state Innis grappled with the same issues about the North in the Canadian nation that we are dealing with today Chapters explore the breadth of Innis's northern activities including his early studies of the fur trade his biography of eighteenth century explorer and cartographer Peter Pond his review essays on the North for the *Canadian Historical Review* his leadership of the Rockefeller sponsored Arctic Survey and his trip to the Soviet Union *Harold Innis and the North* crafts a new narrative about the nature and scope of Innis's intellectual project and provides a unique appreciation of his multifaceted professional identity Contributors include Sergei Arkhipov North Ossetian State University and NGO Vladikavkaz Institute of Economics Jeffrey Brison Queens George Colpitts Calgary Matthew Evenden UBC Barry Gough Churchill College Cambridge and Kings College London Paul Heyer Wilfrid Laurier Jim Mochoruk North Dakota Liza Piper Alberta Shirley

Roburn Concordia Peter van Wyck Concordia Jeff Webb Memorial **Harold Innis Reflects** William J. Buxton, Michael R. Cheney, Paul Heyer, 2016-10-05 Offering fresh insight into the early life of Harold Adams Innis 1894 1952 this volume makes available a number of previously unpublished writings from the renowned Canadian economic historian and media scholar Part I Innis's autobiographical memoir chronicles his farm based family background early education military service during World War I and the beginnings of what would become a distinguished academic career Part II features a selection of correspondence during his military service revealing both the pain and perceptions derived from that experience and other war related writings It also includes *The Returned Soldier* a detailed piece of research and a compassionate plea to recognize how the aftermath of the Great War would affect those who served as well as the individuals and institutions on the home front Years before the term post traumatic stress disorder was coined Innis was acutely aware of the condition and suggested ways in which it might be treated Other war related items included are Innis's first published article dealing with the economics of the soldier and a draft speech composed in the fall of 1918 All original materials have been extensively annotated to provide context for the contemporary reader and researcher **Emergence and Empire** John Bonnett, 2013-11-01 Harold Innis was one of the most profound thinkers that Canada ever produced Such was his influence on the field of communication that Marshall McLuhan once declared his own work was a mere footnote to Innis But over the past sixty years scholars have had a hard time explaining his brilliance in large measure because Innis's dense elliptical writing style has hindered easy explication and interpretation But behind the dense verbiage lies a profound philosophy of history In *Emergence and Empire* John Bonnett offers a fresh take on Innis's work by demonstrating that his purpose was to understand the impact of self organizing emergent change on economies and societies Innis's interest in emergent change induced him to craft an original and bold philosophy of history informed by concepts as diverse as information Kantian idealism and business cycle theory Bonnett provides a close reading of Innis's oeuvre that connects works of communication and economic history to present a fuller understanding of Innis's influences and influence *Emergence and Empire* presents a portrait of an original and prescient thinker who anticipated the importance of developments such as information visualization and whose understanding of change is remarkably similar to that which is promoted by the science of complexity today **Harold Innis on Peter Pond** William J. Buxton, 2020-02-06 Best known for his writings on economic history and communications Harold Innis also produced a body of biographical work that paid particular attention to cultural memory and how it is enriched by the study of neglected historical figures In this compelling volume William Buxton addresses Innis's engagement with the legacy of the fur trader and adventurer Peter Pond *Harold Innis on Peter Pond* comprises eight texts by Innis including his 1930 biography of Pond as well as his writings on the explorer's myriad activities The book also features a collection of eight letters exchanged between Innis and Florence Cannon a descendent of Pond with a strong interest in her ancestor's life and times and an unpublished 1932 article on Pond's 1773-75 activities as a fur trader

on the upper Mississippi written by Innis's former student R Harvey Fleming Situating Innis's writings on Pond in relation to his broader body of biographical work Buxton interprets what these texts tell us about Innis's intellectual practice historiography and the writing of biography The book explores how Innis's perspectives shifted with changing intellectual and political circumstances and shows that his advocacy of Pond as an unrecognized father of confederation challenged conventional views of Canadian nation building A critical edition of previously overlooked biographical texts Harold Innis on Peter Pond traces what these writings disclose about the biographer's character and values even as they discuss their subject

Harold Innis's History of Communications William J. Buxton, Michael R. Cheney, Paul Heyer, 2014-12-18 For decades media historians have heard of Harold Innis's unpublished manuscript exploring the history of communications but very few have had an opportunity to see it In this volume editors and Innis scholars William J Buxton Michael R Cheney and Paul Heyer make widely accessible for the first time three core chapters from the legendary Innis manuscript Here Innis 1894 1952 examines the development of paper and printing from antiquity in Asia through to 16th century Europe He demonstrates how the paper printing nexus intersected with a broad range of other phenomena including administrative structures geopolitics militarism public opinion aesthetics cultural diffusion religion education reception production processes technology labor relations and commerce as well as the lives of visionary figures Buxton Cheney and Heyer knit the chapters into a cohesive narrative and help readers navigate Innis's observations by summarizing the heavily detailed factual material that peppered the unpublished manuscript They provide further context for Innis's arguments by adding annotations references and pertinent citations to his other writings The end result is both a testament to Innis's status as a canonical figure in the study of communication and a surprisingly relevant contribution to how we might think about the current sea change in all aspects of social cultural political and economic life stemming from the global shift to digital communication

Thinkers and Dreamers Gerald Friesen, Doug Owram, 2011-01-01 Thinkers and Dreamers honours Carl C Berger professor of Canadian history at the University of Toronto for more than forty years and author of influential works on Canadian intellectual history In this collection Professor Berger's colleagues and former students explore the currents of intellectual life in North America since the mid nineteenth century Broad in scope the essays range in content from a commentary on works in intellectual history to analyses of the development of particular disciplines and distinctive cultural institutions Several of the contributions provide sharp critiques of historical thought including a discussion of professional scholarship and an analysis of the field of intellectual history Others address issues that combine institutional and cultural history such as an examination of Victorian Canada and a discussion of immigration and citizenship These varied reflections aptly convey Berger's contributions to the study of Canadian history

Nature's Evil Alexander Etkind,2021-08-12 This bold and wide ranging book views the history of humankind through the prism of natural resources how we acquire them use them value them trade them exploit them History needs a cast of characters and in this story the leading actors are peat and hemp grain and iron fur and oil each with its own tale to tell The uneven spread of available resources was the prime mover for trade which in turn led to the accumulation of wealth the growth of inequality and the proliferation of evil Different sorts of raw material have different political implications and give rise to different social institutions When a country switches its reliance from one commodity to another this often leads to wars and revolutions But none of these crises go to waste they all lead to dramatic changes in the relations between matter labour and the state Our world is the result of a fragile pact between people and nature As we stand on the verge of climate catastrophe nature has joined us in our struggle to distinguish between good and evil And since we have failed to change the world now is the moment to understand how it works

Cultural Studies and Political Economy Robert E. Babe,2010-05-10 This book addresses the notorious split between the two fields of cultural studies and political economy Drawing on the works of Harold Innis Theodor Adorno Raymond Williams Richard Hoggart E P Thompson and other major theorists in the two fields Robert E Babe shows that political economy can be reconciled to certain aspects of cultural studies particularly with regards to cultural materialism Uniting the two fields has proven to be a complex undertaking though it makes practical sense given the close interaction between political economy and cultural studies Babe examines the evolution of cultural studies over time and its changing relationship with political economy The intersections between the two fields center around three subjects the cultural biases of money the time space dialectic and the dialectic of information

Canadian Political Economy Heather Whiteside,2020-11-19 Engaging with themes of conflict change and crisis this book re invigorates the distinct interdisciplinary field of Canadian political economy

Erasing the Invisible Hand Warren J. Samuels,2011-09-12 This book examines the use principally in economics of the concept of the invisible hand centering on Adam Smith It interprets the concept as ideology knowledge and a linguistic phenomenon It shows how the principal Chicago School interpretation misperceives and distorts what Smith believed on the economic role of government The essays further show how Smith was silent as to his intended meaning using the term to set minds at rest how the claim that the invisible hand is the foundational

concept of economics is repudiated by numerous leading economic theorists that several dozen identities given the invisible hand renders the term ambiguous and inconclusive that no such thing as an invisible hand exists and that calling something an invisible hand adds nothing to knowledge Finally the essays show that the leading doctrines purporting to claim an invisible hand for the case for capitalism cannot invoke the term but that other nonnormative invisible hand processes are still useful tools
