The Post-colonial Studies Reader Bill Ashcroft, Gareth Griffiths, Helen Tiffin, 1995 The Post Colonial Studies Reader is the most comprehensive selection of key texts in post colonial theory and criticism yet compiled This collection covers a huge range of topics featuring nearly ninety of the discipline's most widely read works The Reader's 90 extracts are designed to introduce the major issues and debates in the field of post colonial literary studies This field itself however has become so varied that no collection of readings could encompass every voice which is now giving itself the name post colonial The editors in order to avoid a volume which is simply a critical canon have selected works representing arguments with which they do not necessarily agree but rather which above all stimulate discussion thought and further exploration Post colonial theory has occurred in all societies into which the imperial force of Europe has intruded though not always in the official form of theoretical text Like the description of any other field the term has come to mean many things but this volume hinges on one incontestable phenomenon the historical fact of colonialism and the palpable consequences to which this phenomenon gave rise The topic involves talk about experience of various kinds migration slavery suppression resistance representation difference race gender place and reaction to the European influence and about the fundamental experiences of speaking and writing by which all these come into being In compiling this reader the editors have sought to stimulate people to ask How might a genuinely post colonial literary enterprise proceed The fourteen sections include Issues and Debates Universality and Difference Textual Representation and Resistance Postmodernism and Post Colonialism Nationalism Hybridity Ethnicity and Indigeneity Feminism and Post Colonialism Language The Body and Performance History Place Education and Production and Consumption Contributors include many of the leading post colonial theorists and critics such as Franz Fanon Chinua Achebe Gayatri Chakravorty Spivak Ngũgĩ wa Thiong'o Homi Bhabha Derek Walcott Edward Said and Trinh T Minh-ha in

addition to a number of the discourse's newer voices *The Post Colonial Studies Reader* will prove an authoritative compilation representing an invaluable contribution to the study of post colonial theory and criticism

Unhomely States Cynthia Sugars, 2004-02-11 *Unhomely States* is the first collection of foundational essays of Canadian postcolonial theory. The essays span the period from 1965 to the present day and approach broad issues of Canadian culture and society. They represent the impassioned conflicts, dissonances and intersections among postcolonial theorists in English Canada. Theories of Canadian postcolonialism are various and often contending. The questions proliferate: Is Canada postcolonial? Who in Canada is postcolonial? Are some Canadians more postcolonial than others? Together the essays in this collection demonstrate both the historical development of this vigorous debate and its most prominent current perspectives. The anthology comprises work originally written in English, selected and arranged in order to demonstrate the dynamic nature of these discussions. Included here are essays by many well known writers and theorists such as George Grant, Northrop Frye, Margaret Atwood, Dennis Lee, Robert Kroetsch, Linda Hutcheon, Diana Brydon, Thomas King, Terry Goldie, Arun Mukherjee, Smaro Kambourelli, Stephen Slemon and Roy Miki. The collection covers such topics as anti colonial nationalism, settler invader theory, First Nations contexts, postcolonial pedagogy and critiques of Canadian postcolonialism. A general introduction surveying the current field of postcolonial discourse in English Canada is also included.

Turn Up the Contrast Mary Jane Miller, 2011-11-01 From Shakespeare to cop shows, sitcoms to docudramas, for over three decades the CBC has presented viewers with every variety of television drama and has become Canada's closest equivalent to a national theatre. *Turn Up the Contrast* is the first book to explore the content of Canadian television drama and is both a critical analysis and a survey history of how Canadians have used the medium to tell themselves their own stories. As a part of her research, Mary Jane Miller watched thousands of hours of television, sampling series and viewing in their entirety shorter programs such as movies and mini series. Asking a variety of questions, she

R. Leavis** Steven Cranfield,2015-11-09 This is a critical introduction to the educational thought of F R Leavis 1895 1978 the greatest English literary critic of the twentieth century providing the first in depth examination of Leavis s ideas in relation to contemporary mass higher education During the course of a long prolific and controversial academic career which saw him take issue with figures such as Wittgenstein T S Eliot and C P Snow Leavis became one of the most articulate advocates for the idea of the university as a centre of consciousness and human responsibility in the face of what he saw as the relentless technological drive of civilisation With the journal Scrutiny which he co founded as well as his critical writings Leavis became a decisive influence on generations of teachers in Britain and overseas Widely misrepresented as narrowly elitist his ideas about the creative university with their radical student centred approach to teaching constitute a powerful resource for a higher education system grappling with the contradictory demands of continuity and change Based on original research the study provides an overview of Leavis s life work and heritage and his educational world view and a comprehensive exploration of Leavis s pedagogy from theoretical and practical perspectives It also includes a first hand account by the author of being taught by Leavis in person **Marginal Groups and Mainstream American Culture** Yolanda Estes,2000 They are often portrayed as outsiders ethnic minorities the poor the disabled and so many others all living on the margins of mainstream society Countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups Most accounts of marginalization approach the subject from a distance and tend to overemphasize the victimization of outsiders Taking a more intimate approach this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals Multidisciplinary and multicultural Identity on the Margin addresses marginalization at a variety of social levels and within many different social phenomena going beyond familiar cases dealing with race ethnicity and gender to examine such outsiders as renegade children conservative Christians and the physically and mentally disabled And because women are especially subject to the effects of marginalization feminist concerns and the marginalization of sexual practices provide a
