Margins Of Political Discourse Suny Studies In Contemporary Continental Philosophy:

Phenomenology or Deconstruction? Christopher Watkin, 2009-03-03 Phenomenology or Deconstruction challenges traditional understandings of the relationship between phenomenology and deconstruction through new readings of the work of Maurice Merleau Ponty Paul Ricur and Jean Luc Nancy A constant dialogue with Jacques Derrida's engagement with phenomenological themes provides the impetus to establishing a new understanding of being and presence that exposes significant blindspots inherent in traditional readings of both phenomenology and deconstruction In reproducing neither a stock phenomenological reaction to deconstruction nor the routine deconstructive reading of phenomenology Christopher Watkin provides a fresh assessment of the possibilities for the future of phenomenology along with a new reading of the deconstructive legacy Through detailed studies of the philosophy of Merleau Ponty Ricur and Nancy he shows how a phenomenological tradition much wider and richer than Husserlian or Heideggerean thought alone can take account of Derrida's critique of ontology and yet still hold a commitment to the ontological This new reading of being and presence fundamentally re draws our understanding of the relation of deconstruction and phenomenology and provides the first sustained discussion of the possibilities and problems for any future deconstructive phenomenology Fred Dallmayr, 1996-12-12 Beyond Orientalism explores the confluence of contemporary Western especially Continental philosophy with its focus on otherness and difference and the ongoing process of globalization or the emergence of the global village The basic question raised in the book is What will be the prevailing life form or discourse of the global village Will it be the discourse of Western science industry and metaphysics which under the banner of modernization and development seeks to homogenize the world in its image In Said's work this strategy was labeled Orientalism Or will it be possible to move beyond Orientalism in the direction neither of global uniformity nor radical fragmentation After discussing the broad range of possible modes of cross cultural encounter in a historical perspective the book develops as a preferred option the notion of a deconstructive dialogue or a hermeneutics of difference which respects otherness beyond assimilation This hermeneutics is illustrated in chapters examining several bridge builders between cultures primarily the Indian philosophers Radhakrishnan and J L Mehta and the Indologist Halbfass The remaining chapters are devoted to more concrete social political problems including issues of modernization multiculturalism and the prospects of a globalized democracy which bids farewell to Orientalism and Eurocentrism International Philosophical Quarterly, 1961 Abstraction in the Twentieth Century Mark Lawrence Rosenthal, 1996 Exhibition 2 9 5 12 96 Distributed by Abrams Being Moved by Moving Words Joseph Bessler, 2025-02-14 There are many fine philosophical and theological engagements with the works of John Caputo He is one of our most serious philosophical theologians But he s also hilariously funny To read Caputo is to encounter someone who wants to move you to grasp your attention your humor your creativity because what he s looking for is not another philosophical couch potato He s looking for someone who s open to being moved to put down the book even his book

especially his book and risk reaching out to help another one who is other one at the margins of this culture He s interested in the kind of courage that there is far too little of and conventional religion he suggests has more than its share of the blame The more familiar one becomes with his work the more one wonders why Caputo in all his emphasis upon hermeneutics and responsiveness to the call of the other seemed not to see or perhaps want to claim the many rhetorical gifts in his possession the many rhetorical gifts at work in his writing Even as Caputo is a master of all things hermeneutical he claims ignorance on all things rhetorical viewing the word itself through an old lens of adding mere ornamentation what he calls rouge to beautify the basic claim Bringing the last forty years of work in rhetorical studies to bear on Caputo's texts the author has written this book in hopes of convincing Caputo and his many students that he made whether he sees it or not what can only be called the Rhetorical Turn in philosophy and theology Whitaker's Books in Print ,1998 The Postmodern Bible George Aichele, Fred W. Burnett, Robert M. Fowler, David Job ling, Tina Pippin, Wilhelm Wuellner, Bible and Culture Collective, 1995-01-01 The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible This book argued from a perspective shaped by postmodernism is at once an accessible guide to and an engagement with various methods theories and critical practices transforming biblical scholarship today Written by a collective of cutting edge scholars with each page the work of multiple hands The Postmodern Bible deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues The book introduces illustrates and critiques seven prominent strategies of reading Several of these interpretive strategies rhetorical criticism structuralism and narratology reader response criticism and feminist criticism have been instrumental in the transformation of biblical studies up to now Many feminist and womanist criticism ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of Diversifying Philosophy of Religion Nathan R. B. Loewen, Agnieszka Rostalska, 2023-06-01 Much biblical studies philosophical thinking about religion in the Anglophone world has been hampered by the constraints of Eurocentrism colonialism and orientalism Addressing such limitations head on this exciting collection develops models for exploring global diversity in order to bring philosophical studies of religion into the globalized 21st century Drawing on a wide range of critical theories and methodologies and incorporating ethnographic feminist computational New Animist and cognitive science approaches an international team of contributors outline the methods and aims of global philosophy of religion From considering the importance of orality in African worldviews to interacting with Native American perspectives on the cosmos and investigating contemplative studies in Hinduism each chapter demonstrates how expertise in different methods can be

Philosophy Hugh J. Silverman, Donn Welton, 1988-01-01 The volume begins with a major statement by the French feminist culture critic Julia Kristeva and includes essays by well known and also younger continental philosophers writing in the North American context and reassessing the European heritage its limits and effective futures. The future of postmodernism is assessed in terms of key themes from the language of desire the limits of representation and the revaluation of values to the feminist rewriting of patriarchy and the critical archeology of deconstruction Eighteen essays review the postmodernist difference inscribed in modern philosophy Traditional concerns and preoccupations the subject the will the body language representation and metaphysics are placed in question through re readings of rationalist dialectical psychoanalytic aesthetic and patriarchical values incorporated into modernist thinking The figures of Nietzsche Freud Heidegger Merleau Ponty Foucault and Derrida are treated in their multiple facets and in relation to their importance for postmodernism within the Bibliographie Internationale de Science Politique, 1992 continental philosophical framework **Merleau-Ponty and** Contemporary Philosophy Emmanuel Alloa, Frank Chouragui, Rajiv Kaushik, 2019-12-01 Assesses the importance of Merleau Ponty to current and ongoing concerns in contemporary philosophy Maurice Merleau Ponty is widely recognized as one of the major figures of twentieth century philosophy The recent publication of his lecture courses and posthumous working notes has opened new avenues for both the interpretation of his thought and philosophy in general These works confirm that with a surprising premonition Merleau Ponty addressed many of the issues that concern philosophy today With the benefit of this fuller picture of his thought Merleau Ponty and Contemporary Philosophy undertakes an assessment of the philosopher's relevance for contemporary thinking Covering a diverse range of topics including ontology epistemology anthropology embodiment animality politics language aesthetics and art the editors gather representative voices from North America and Europe including both Merleau Ponty specialists and thinkers who have come to the philosopher's work through their own thematic interest Merleau Ponty and Contemporary Philosophy offers a rich set of writings by central and rising scholars spanning various languages and traditions who together show Merleau Ponty's continuing relevance for contemporary thinking on phenomenology mind and nature politics and power and art and creation This book will advance scholarship and also open new doors for those seeking to find their way into Merleau Ponty s ways of thinking David Morris author of The Sense of Space Maternal Ethics and Other Slave Moralities Cynthia Willett, 2013-12-19 In Maternal Ethics and Other Slave Moralities which includes the first extended philosophical discussion of the works of Frederick Douglass Cynthia Willett puts forward a novel theory of ethical subjectivity that is aimed to counter prevailing pathologies of sexist racist Eurocentric culture Weaving together accounts of the self drawn from African American and European philosophies psychoanalysis slave narratives and sociology Willett interrogates what Hegel locates as the core of the self the desire for

Awaiting the Impossible See Seng Tan,2022-06-08 This book dialogues with deconstruction s religion without religion and its implications for theology In the view of many deconstruction is a purely nihilistic force bent on the wanton destruction

of long held philosophical religious and moral traditions However this perspective ignores the fact that deconstruction in the hands of its standard bearers like Jacques Derrida John Caputo and others has all along been a religious exercise in demythologization Furnishing a Christian rejoinder to deconstruction s claims about and objections to orthodox religion and particularly to Christianity the book addresses the following questions How can deconstruction open a space for an affirmative faith to occur and be professed Can deconstruction ever be hospitable toward Jesus of Nazareth as the Messiah for which it waits Subject Guide to Books in Print ,1997 Toward a Premodern Posthumanism Chad Augustine Córdova, 2025-04-15 Drawing on early modern French thought to free nature and aesthetics from metaphysical humanism What good is aesthetics in a time of ecological crisis Toward a Premodern Posthumanism Anarchic Ontologies of Earthly Life in Early Modern France shows that philosophical aesthetics contains unheeded potentialities for challenging the ontological subjection of nature to the human subject Drawing on deconstructive ecological and biopolitical thought Chad C rdova uncovers in aesthetics something irreducible to humanist metaphysics an account of how beings emerge and are interrelated responsive and even response able without reason or why This anarchic and atelic ontology recovered from Kant becomes the guiding thread for a new premodern trajectory of posthumanism Charting a path from Aristotle to Heidegger to today s plant thinking with new readings of Montaigne Pascal Diderot Rousseau and others along the way this capacious study reveals the untimely relevance of pre 1800 practices of writing science and art Enacting a multitemporal mode of reading C rdova offers a defense and illustration of the importance of returning to early modern texts as a way to rethink nature art ethics and politics in a time when these concepts are in flux and more contentious than ever
