Marianne Moore And The Visual Arts Prismatic Color:

Marianne Moore and the Visual Arts Linda Leavell, 1995 At the forefront of modernism Marianne Moore 1837 1972 both influenced and was shaped by the rich aesthetic climate of her age and she consistently looked beyond her own medium for inspiration Based extensively on unpublished archival material and replete with reproductions of paintings photographs and other examples of modernist art this is the first book to explore Moore s work in its interdisciplinary context to show us why Moore believed that language is a special extension of the power of seeing Through a thorough examination of her published and unpublished work Leavell describes Moore s formal solutions to the overthrow of nineteenth century conventions and examines the ethical implications of this revolution She shows that Moore shared the personal values espoused by Stieglitz Kandinsky and other visual artists particularly in their radical resistance to aesthetic social and spiritual hierarchies Finally Leavell deals with challenges that confronted American artists after World War I to preserve artistic expression in an industrial age and to define a distinctly American art BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Marianne Moore and the Cultures of Modernity Victoria Bazin, 2016-05-06 Victoria Bazin examines the poetry of Marianne Moore as it is shaped by and responsive to the experience of being a modern woman of living in the aftermath of the First World War of being interpellated as a modern consumer and of writing in the age of mechanical reproduction She argues that Moore s textual collages and syllabic sculptures are based on the cultural clutter or debris of modernity on textual extracts and reproductions on the phantasmagoria of city life revealing something modernism worked hard to conceal its relation to modernity more specifically its relation to the new emerging and expanding mass consumer culture Drawing extensively on archival resources to trace Moore s influences and to describe her own distinctive modernist aesthetic this book argues that it was her feminist adaptation of pragmatism that shaped her poetic response to modernity Moore s use of the quoted fragment is conceptualised in relation not only to Walter Benjamin s philosophical history but also to William James s image of the world as a series of partial stories As such this account of Marianne Moore not only contributes to a greater understanding of the poet and her work but it also offers up a more politicized and historically nuanced understanding of poetic modernism between the wars one that retains a sense of the formal complexities of poetic language and the poet s own ethical imperatives whilst also recognising the material impact of modernity upon the modernist poem This book will appeal therefore not only to scholars already familiar with Moore s poetry but more widely to those interested in modernism and American culture between the wars **Marianne Moore, Elizabeth Bishop, and May Swenson** Kirstin Hotelling Zona, 2002 Provides a new perspective on three important women poets and challenges prevailing notions of feminist criticism **Deep Skin** Peggy Anne Samuels, 2010 Elizabeth Bishop who constructed poems of crystalline visual accuracy is often regarded as the most painterly of twentieth century American poets In *Deep Skin* Peggy Samuels explores Bishop s attraction to painters who experimented with dynamic interactions between surface and depth

She tells the story of the development of Bishop's poetics in relation to her engagement with mid-century art particularly the work of Paul Klee Kurt Schwitters and Alexander Calder Contemporary conversations about the visual arts circulating among art historians and reviewers shaped Bishop's experience and illuminated aesthetic problems for which she needed to find solutions The book explores in particular the closest intellectual context for Bishop her friend Margaret Miller who worked as a research associate and later associate curator at the Museum of Modern Art Samuels traces a complex and rich four-way metaphor in her portrait of Bishop's methods surface of verse surface of painting skin and interface between mind and world The visual arts helped Bishop to develop a new model for lyric the surface of verse becomes a threshold that opens in two directions to nature and to the interior of the poet Bishop's poetics is very much about the touch of the materials of the mind and world inside the materiality of verse Translating and revising some of the concepts from the visual arts in her own linguistic medium she begins to experiment with modulation absorption and incorporation across multiple registers of experience

Degrees of Freedom Bethany Hicok, 2008 In this original contribution to the history of American poetry in the 20th century Bethany Hicok traces the influence of the women's college on the poetic development of three American poets Marianne Moore at Bryn Mawr Elizabeth Bishop at Vassar and Sylvia Plath at Smith **Queer Lyrics** J.

Vincent, 2016-09-23 Queer Lyrics fills a gap in queer studies the lyric as poetic genre has never been directly addressed by queer theory Vincent uses formal concerns difficulty and closure to discuss innovations specific to queer American poets He traces a genealogy based on these queer techniques from Whitman through Crane and Moore to Ashbery and Spicer Queer Lyrics considers the place of form in queer theory while opening new vistas on the poetry of these seminal figures
