Hall,2000      Marie Stopes Lesley A. Hall,2000      **Marie Stopes** Marie Carmichael Stopes,2000-01-01 Lesley Hall is excellently qualified to edit and introduce this important collection of my mother s work Her selection is well balanced In particular I am glad that she has included A Journal from Japan which introduces something of my mother s personality Harry Stopes Roe Marie Stopes 1880 1958 is primarily remembered as a pioneering propagandist for birth control but her concern for contraception was deeply rooted in her conceptions of ideal motherhood and marriage A concern with the issues with which she was identified in the 1920s can be seen in early works such as The Race while Marriage in My Time indicates her involvement with a range of feminist campaigns aimed at ameliorating women s lot in marriage even before the grant of suffrage in 1918 for which she campaigned The flood of queries which she received from correspondents in the wake of the publication of Married Love 1918 made her aware of the lack of help available from the medical profession in many routine events of the life cycle and of the desperate need for accessible books on topics such as sex education and venereal disease Prior to taking up the banner of sex and marriage reform Stopes had been a successful scientist the first British woman to obtain the Ph D in botany and one of the first women to be appointed to a university lectureship in a science subject She received funding from the Royal Society for an expedition to Japan to investigate living plant fossils and the trip described in A Journal from Japan became the foundation of a life long interest in Japanese life and culture Taken together the works published here illustrate the diversity of her writings and demonstrate her ability to frame her arguments towards specific audiences from the over burdened working class mothers addressed in A Letter to Working Mothers to the medical professionals who were the target of Contraception The set is edited and introduced by Stopes authority Lesley A Hall and as well as researchers in sex and gender history it will appeal to anyone interested in this twentieth century icon whose influence and legacy is still widely apparent today unique anthology selected from twenty one works by Marie Stopes including some rare first editions authoritative range of writings on birth control marriage motherhood and Japanese life and culture edited and introduced by well known Stopes authority Lesley A Hall of the Wellcome Library      **Birth Control, Sex, and Marriage in Britain 1918-1960** Kate Fisher,2006-07-13 The first half of the twentieth century witnessed a revolution in contraceptive behaviour as the large Victorian family disappeared This book offers a new perspective on the gender relations sexual attitudes and contraceptive practices that accompanied the emergence of the smaller family in modern Britain Kate Fisher draws on a range of first hand evidence including over 190 oral history interviews in which individuals born between 1900 and 1930 described their marriages and sexual relationships By using individual testimony she challenges many of the key conditions that have long been envisaged by demographic and historical scholars as necessary for any significant reduction in average family size to take place Dr Fisher demonstrates that

a massive expansion in birth control took place in a society in which sexual ignorance was widespread that effective family limitation was achieved without the mass adoption of new contraceptive technologies that traditional methods such as withdrawal abstinence and abortion were often seen as preferable to modern appliances such as condoms and caps that communication between spouses was not key to the systematic adoption of contraception and above all that women were not necessarily the driving force behind the attempt to avoid pregnancy Women frequently avoided involvement in family planning decisions and practices whereas the vast majority of men in Britain from the interwar period onward viewed the regular use of birth control as a masculine duty and obligation By allowing this generation to speak for themselves Kate Fisher produces a richer understanding of the often startling social attitudes and complex conjugal dynamics that lay behind the vast changes in contraceptive behaviour and family size in the twentieth century

**Cinema, Censorship and Sexuality 1909-1925 (Routledge Revivals)** Annette Kuhn, 2016-04-06 First published in 1988 This book shows how censorship as a set of institutions practices and discourses was involved in the struggle over the nature of cinema in the early twentieth century It also reveals the part played in this struggle by other institutions practices and discourses for example new knowledge about sexuality and organisations devoted to the promotion of public morality Instead of censorship simply being an act of prohibition by a special institution this work reveals the issues at work were far more complex and contradictory opening up critical scrutiny and challenging assumptions This title will be of interest to students of media and film studies
