**Obsession** Carolyn Beard Whitlow, Marilyn Krysl, 2014-03-04 The sestina of medieval French origin is a complex poetic form of 39 lines six sestets and a three line envoy in which the six end words teleutons of the lines of the first sestet stanza are repeated in a specific order as teleutons in the five succeeding sestets In the envoy the six teleutons are again picked up one of them being buried in and one finishing each line Because of the complexity of the form the sestina fell out of favor with poets for several decades However a twenty first century revival of the form is underway This is the first anthology of sestinas that showcases

both traditional and innovative examples of the form by modern and contemporary poets award winners and emerging writers alike Organized by such themes as Americana Art Love and Sex and Memory Contemplation Retrospection and Death the collection also includes sestinas with irregular teleutons and unconventional sestinas An evocative introduction by Marilyn Krysl acquaints readers with the form The volume concludes with useful indexes of first lines and teleutons increasing access to the poems beyond the poets names
