Marine Policy And The Coastal Community Studies In The Social Sciences:

Marine Policy and the Coastal Community Douglas M. Johnston, 1976 *Governing the Coastal Commons* Derek Armitage, Anthony Charles, Fikret Berkes, 2017-04-28 Coastal communities depend on the marine environment for their livelihoods but the common property nature of marine resources poses major challenges for the governance of such resources Through detailed cases and consideration of broader global trends this volume examines how coastal communities are adapting to environmental change and the attributes of governance that foster deliberate transformations and help to build resilience of social and ecological systems Governance here reflects how communities societies and organisations e g fisher cooperatives government agencies choose to organise themselves to make decisions about important issues such as the use and protection of coastal commons e g fishery resources The book shows how a governance approach generates insights into the specific forms and arrangements that enable coastal communities to steer away from unsustainable pathways It also provides an analytical lens to consider important questions of power knowledge and legitimacy in linked social ecological systems Chapters highlight examples in which communities are engaging in deliberative transformations to build resilience and enhance their well being These transformations and efforts to build resilience are emerging through multi level collaboration shared learning innovative policies and institutional arrangements such as new property rights regimes and co management methodologies that engage with indigenous cultural practices and entrepreneurial activities including income and livelihood diversification Case studies are included from a range of countries including Canada Japan Brazil Indonesia Mexico South Africa Thailand the South Pacific and Europe The authors integrate theory with practical examples to improve coastal marine policy and governance and draw upon emerging concepts from social ecological resilience and transformations adaptive governance and the scholarship on the commons

Conservation of Marine Resources and Sustainable Coastal Community Development in Malaysia Muhammad Mehedi Masud, 2019-07-26 This book addresses a timely and compelling emerging issue related to the conservation and sustainable use of marine resources and the sustainable development of the coastal community Marine protected areas MPAs make a remarkable contribution to the protection of marine communities by providing sustainable livelihoods deriving financial benefits from the development of fisheries and tourism as well as by restoring ocean productivity and preventing further environmental degradation These areas have been considered the cornerstone of a blue economy due to their substantial economic social and environmental contributions However MPAs around the world are severely hampered by a multitude of issues and challenges such as inefficient management poor socioeconomic conditions and environmental degradation due to human activities overexploitation of marine resources degradation of water quality massive waste production and climate change These are the main obstacles to economic social and environmental sustainability Hence a collaborative management approach and an integrated management policy framework is urgently needed for the economic social political cultural technological and
