Apocalyptic Rhetoric and the

Black Protest Movement Aaron Pride, 2023-12-06 Apocalyptic Rhetoric and the Black Protest Movement offers a challenging new formulation of African American religious culture by asserting that African American Christianity produced a militant millennialist movement that invoked the apocalypse the kingdom of God and the end of the world to compel Black people to oppose racial injustice in the early twentieth century In this account of the Black civil rights movement in Boston in the early twentieth century Aaron Pride argues that the apocalyptic rhetoric and millennial imagery disseminated from the Boston Guardian by William Monroe Trotter cast Booker T Washington and other opponents of Black protest as false prophets biblical villains and harbingers of the end times By placing Black Christianity at the center of Black civil rights activism in the early twentieth century this book provides a seminal interpretation of the emancipatory capacity of religion as cultural and intellectual force in social and political movements This book will be of interest to scholars of cultural history Black studies and the history of religion

The Western Christian Advocate, 1906 **Lincoln, the South, and Slavery** Robert W. Johannsen, 1993-10-01 In 1858 Abraham Lincoln declared his hatred for the institution of slavery likening his feelings of opposition to those of the abolitionists Although the fact that Lincoln always disliked slavery is indisputable the idea that he always opposed it with the zeal and fervor of the abolitionists remains questionable Only four years prior to his bold declaration Lincoln admittedly paid little attention to slavery viewing it as only a minor issue But in the six years preceding his presidency his antislavery stance underwent dramatic change Fueled by political ambition Lincoln's argument against slavery and his prescription for dealing with it moved from what he initially labeled a middle ground stance to a more radical position Robert W Johannsen's Lincoln the South and Slavery traces the political dimension of Lincoln's antislavery stance as it evolved from the passage of the Kansas Nebraska Act in 1854 to his election as president in 1860 Whereas previous scholars have largely ignored the

political character of Lincoln's antislavery argument Johannsen sees Lincoln as an astute and ambitious politician whose statements were shaped and directed by the time's ever changing political exigencies and considerations Johannsen does not demean the quality of Lincoln's sincerity or downgrade the importance of his moral convictions on the slavery issue but he does suggest that politics played a larger role than previously acknowledged in the form these convictions took The four chapters that compose this work connect Lincoln's position with his attitude toward the South and Southerners from his initial appeal to Southerners at a time when he sought to revitalize the dying Whig party through his deepening involvement in the Republican party to his final belief that the South and Southern interests no longer needed to be considered as factors determining his national political success Johannsen focuses on Lincoln's debut in 1854 as an antislavery speaker on the development of his stand for the ultimate extinction of slavery on his expression of the doctrine of the irrepressible conflict and finally on Lincoln's and the South's perceptions of each other in 1860 As no other work has done Lincoln the South and Slavery shows how Lincoln in response to the demands of politics became increasingly anti slavery and anti Southern during the 1850s It will be a welcome contribution to the ongoing debate about the enigma of Lincoln and about his role in the coming of the Civil War *Apartheid and Fragmented Protest in Contemporary Southern Africa* Cuthbert

Tagwirei, 2025-09-26 *Apartheid and Fragmented Protest in Contemporary Southern Africa* examines protest movements through the lens of Apartheid Studies the first general theory of apartheid which explores how oppression harm injustice poverty loss and inequality persist The book argues that apartheid which breaks the world of the oppressed into fragments fomenting diverse experiences of oppression among its victims frames the nature and course of protests by making them subject to its fragmentation Protest is thus redefined as good neighbourly and demoted on account of its symbiotic relationship to apartheid It is observed that the proliferation of protests does not preclude the persistence of apartheid Rather protest and apartheid are seen to be compatible By examining protest hashtags on X from South Africa and Zimbabwe the book explores and identifies the forms relations meanings trajectories and effects protests take evoke and embody as fragments subsisting in a fractured apartheid universe It demonstrates how and why life goes on amidst protest sheds light on the contradictions paradoxes and complexities that characterise protest movements and invites conversations around protest as a paradigm in the context of apartheid The book will be of interest to researchers across the fields of social movements protests sociology African Studies and communication and media studies *The Bible Unmasked* Joseph Lewis, 1926
