Markedness Edwin L. Battistella,1990-09-11 Battistella traces the development of markedness theory as a central part of structuralist theories of language He outlines the concepts of marked and unmarked from Prague School structuralism to present day applications in linguistic theory and cultural analysis using the reference point of English grammar and sound structure The author focuses on the fundamental asymmetry between terms of linguistic relationships in which one term is more broadly defined and hence dominant the unmarked term while the other is more narrowly defined the marked term In addition to examining language particular markedness relations evident in the structure and history of English Battistella raises questions concerning universal asymmetries as well He discusses the status of markedness as a unifying concept of linguistic structure and as a principle of language change Markedness in Canaanite and Hebrew Verbs Paul D.

Korchin,2018-08-14 Semitic linguistics is arguably involved in its own version of a maximalist versus minimalist controversy with respect to verbal morphology Dissent persists about whether and to what degree the Northwest Semitic verb paradigms underlying languages such as Biblical Hebrew and Amarna Canaanite yaqtul yaqtulu yaqtula are themselves determinative of tense aspect mood values as opposed to extra verbal structures ranging from syntax to discourse To label a verb form as marked or unmarked for these values is to evoke a bountiful yet nebulous complex of theories about how language is built and employed But Semitists have often unwittingly bleached markedness terms of their full historical and technical significance reducing them to generic appellations that are invoked in sporadic and nearly random fashions By applying markedness to Semitic morphology in a consistent and rigorous manner this innovative book brings to bear a venerable linguistic construct on a persistent philological crux in order to achieve deeper clarity in the structures and workings of Canaanite and Hebrew verbs Korchin s arguments hold relevance for translating and interpreting nearly every sentence in ancient texts such as the Hebrew Bible and the Amarna letters **Markedness** Edwin L. A Discourse Analysis of the Letter to the Hebrews Cynthia Long Westfall, 2006-06-22 This study attempts to analyse the text of Hebrews with a method of discourse analysis primarily based on a form of systemic functional linguistics developed for Hellenistic Greek but it is also informed by other linguistic studies It begins with a general survey of the literature that is either influential or representative of approaches to the structure of Hebrews The survey is followed by an introduction to the terminology and definitions of discourse analysis as well as the theory behind the methodology and describes a procedure for analysing text Hebrews is treated as having three sections The first section of Hebrews 1 1 4 16 demonstrates the organization of the units the topic of the units the prominent text and the relationship of the first section with the rest of the discourse The second section of Hebrews 4 11 10 25 is described in two parts 4 11 7 28 and 8 1 10 25 because of its length There is an overlap between the first and second sections in 4 11 16 and between the second and third sections in 10 19 25 Both of these passages have a concluding function for the preceding co text and a staging function for the following co text so that they look backwards and forwards The third and final section in 10 19 13 25 contains the climax or discourse peak The study is concluded with a description of the coherence of the discourse and a presentation of a mental representation of the text JSNTS and Studies in New Testament Greek subseries

Fourth Gospel using an interdisciplinary metaphor theory incorporating cognitive and systemic functional linguistic approaches with literary approaches Modeling Biblical Language Stanley E. Porter, Gregory P. Fewster, Christopher D. Land, 2016-03-21 Modeling Biblical Language presents articles with some of the latest scholarship applying linguistic theory to the study of the Christian Bible The contributors are all associated with the McMaster Divinity College Linguistic Circle a collegial forum for presenting working papers in modern linguistics especially Systemic Functional Linguistics and biblical studies The papers address a range of topics in linguistic theory and the Hebrew and Greek languages Topics include linguistic model building temporality and verbal aspect Greek lexical semantics and Hebrew Greek translation appraisal and evaluation theory metaphor theory corpus linguistics discourse analysis and Greek clausal structure These various areas of linguistic exploration contribute generally to the interpretation and analysis of the Old and New Testaments as well as to linguistic theory proper Prophets, Prophecy, and Ancient Israelite Historiography Mark J. Boda, Lissa Wray Beal, 2013-01-18 The 18 essays by members of the Canadian Society for Biblical Studies published in this volume showcase the work of leading authorities on ancient Israelite and Jewish historiography as it intersects with the phenomenon of prophecy A deep divide exists between the traditions of historiography and prophecy in the academic study of the Hebrew Bible and the concern of the contributors is to close that gap to expose the close relationship between these two traditions in the literature of the Hebrew Bible The first section of the book explores prophecy and prophets in ancient Israelite and Jewish historiographic books Torah Deuteronomistic History Chronicles Ezra Nehemiah Second Temple Jewish historiography The second section surveys historiography in Israelite and Jewish prophetic books Isaiah Jeremiah Ezekiel Book of the Twelve Daniel 1 Enoch The contributors engage diverse methodological perspectives in these studies the goal first being to show the role that the prophets played within the great Hebrew historiographic works and second to demonstrate the role that historiography plays within the great Hebrew prophetic works this makes it clear that the influence is bidirectional Prophets Prophecy and Ancient Israelite Historiography will be of value for advanced students and scholars working on historiographic and prophetic materials in the ancient Israelite and Jewish traditions featuring the best of research and analysis and interacting with many major ancient literary traditions of historiography and prophecy

Biblical Translation in Chinese and Greek Toshikazu S. Foley, 2009 This study integrates three independent subjects translation theory Mandarin aspect and Greek aspect for the purpose of formulating a working theory applicable to translating the Bible The primary objectives are defined in terms of grammatical translation of Greek aspect into Mandarin aspect at the discourse level A historical overview of the Chinese Bible is provided as a way of introducing major translation issues related to linguistic conceptual and logistical challenges The proposed theory provides the translator with a powerful tool which is tested in two sample passages from John 18 19 and 1 Corinthians 15 Provided also are critical reviews of over sixty Chinese Bible versions Nestorian Manichaean Catholic documents and a translation written according to the proposed

Stevens, 2020-06-15 In *History of the Pauline Corpus in Texts Transmissions and Trajectories* Chris S Stevens examines the Greek manuscripts of the Pauline texts from P46 to Claromontanus Previous research is often hindered by the lack of a systematic analysis and an indelicate linguistic methodology This book offers an entirely new analysis of the early life of the Pauline corpus Departing from traditional approaches this text critical work is the first to use Systemic Functional Linguistics which enables both the comparison and ranking of textual differences across multiple manuscripts Furthermore the analysis is synchronically oriented so it is non evaluative The results indicate a highly uniform textual transmission during the early centuries The systematic analysis challenges previous research regarding text types Christological scribal alterations and textual trajectories *Meritocracy and Its Discontents* Zachary M. Howlett, 2021-04-15 *Meritocracy and Its Discontents* investigates the wider social political religious and economic dimensions of the Gaokao China s national college entrance exam as well as the complications that arise from its existence Each year some nine million high school seniors in China take the Gaokao which determines college admission and provides a direct but difficult route to an urban lifestyle for China s hundreds of millions of rural residents But with college graduates struggling to find good jobs some are questioning the exam s legitimacy and by extension the fairness of Chinese society Chronicling the experiences of underprivileged youth Zachary M Howlett s research illuminates how people remain captivated by the exam because they regard it as fateful an event both consequential and undetermined He finds that the exam enables people both to rebel against the social hierarchy and to achieve recognition within it In *Meritocracy and Its Discontents* Howlett contends that the Gaokao serves as a pivotal rite of passage in which people strive to personify cultural virtues such as diligence composure filial devotion and divine favor Judging the Judges Mary L. Conway, 2019-11-02 The book of Judges is full of characters of ambivalent moral integrity and acts of dubious propriety such as Jael s murder of Sisera and the sacrifice of Jephthah s daughter And yet the terse narrative and the reticent narrator frequently leave the ethical character of these actions in doubt In order to avoid reading contemporary worldviews and ethics into this ancient text Mary L Conway applies a blend of narrative and functional linguistic theories to her analysis of the stories of the six major judges in an effort to more accurately identify the unifying ideological stance of the book Using an interdisciplinary approach that employs the concepts of narrative perspective alongside appraisal theory Conway evaluates the judges within their historical context in order to determine whether their actions are normative or aberrant The lexicogrammatical and ideational evidence produced by this methodology reveals contrasts and trajectories within and across the narratives that Conway argues give insight into the character and actions of the Israelites and YHWH and the relationship between them In this trailblazing study Conway models a new approach to biblical interpretation that lays bare the ethics of the book of Judges It will be of interest to biblical studies scholars in particular Old Testament scholars as well as seminary students and pastors **Proceedings of the ...
