Matchmaking and the Marriage Market in Postrevolutionary France Andrea Mansker,2024-12-15 Matchmaking and the Marriage Market in Postrevolutionary France uncovers the unexplored history of matrimonial agents their novel marketing tactics and the rise of personal advertisements to track the commercialization of marriage in nineteenth century France Brokers transformed courtship and marriage into forms of commercial exchange linking them to the burgeoning urban values of abundance pleasure and social mobility By studying agents and readers media fictions on love alongside court cases legislation and literature surrounding the industry Andrea Mansker reveals the intimate and socioeconomic pressures of finding a spouse At the same time she demonstrates how contemporaries used the business of matrimony to reimagine their public identities relationships and courtship rituals following unprecedented historical change due to the French Revolution and Napoleonic wars The matchmaking business both responded to and helped shape national anxieties over fluctuating nuptial rates and changing laws on marriage and divorce As a result marriage itself was reconceived as a commercial contract inseparable from the atomistic and corrupt marketplace The debates and pressures Mansker describes in Matchmaking and the Marriage Market in Postrevolutionary

France are still relevant today As contemporary online daters likely understand the possibility of finding a mate in an expanded pool of candidates beyond one's family locality and nation offered individuals the liberating opportunity to explore new personas just as it produced a novel sense of danger about these impersonal transactions in the anonymous marketplace

The Single Aviation Market of Australia and New Zealand Jeffrey Goh, 2001 Since the International Civil Aviation Convention was concluded in 1944 a great deal has changed in the world of international aviation Deregulation was introduced in the United States in 1978 the historic Single European Aviation Market was created in 1993 and now the Single Aviation Market of Australia and New Zealand has also been created Liberalisation and competition has brought unprecedented choice to air transport users There are no signs that this trend will go into reverse Many of these efforts have taken place in the context of regional aviation markets from Europe to South America to Africa and across to Asia Together they offer a different perspective to the search for a new juridical order in the regulation of international aviation This book seeks to add to this search It examines developments in Australasia and argues that Australia New Zealand and the Single Aviation Market they have established have much to offer the continuing campaign to re-write the constitution and conventions of international aviation The Genesis of the Modern Art Market in London, 1700-1900 Thomas M.

Bayer, 2025-09-26 This book tells the story of the people who shaped the modern art market and its institutions to maximize the financial potential of their product This transformation resulted in a fundamental and lasting redefinition of art It is based on contemporaneous sources diaries letters newspapers journals and on extensive analyses of proprietary data related to the evolution of the modern art market in London between 1700 and 1900 It describes how local artists groups and other stakeholders led by historic individuals deliberately constructed a new aura for art as well as a new market infrastructure that liberated their creativity from the doctrinaire restrictions of the past This monumental enterprise resulted in a radical and lasting change in the course of our cultural legacy and ultimately paved the way for the development of modern art Along the way it also established artworks as coveted and unregulated financial assets with values in the hundreds of millions of dollars *Victims In The News* Steven Chermak, 1995-05 **The Market for Skill** Patrick Wallis, 2025-03-04 A new economic history of the largest institution for the production of human capital in the premodern economy apprenticeship

Apprenticeship dominated skill formation from the Middle Ages to the Industrial Revolution Years spent training with a skilled master were a nearly universal experience for young workers in crafts and trade Apprenticeship is seen by some as a key ingredient in the emergence of modern growth To others it was inflexible and conservative Analyzing the records of hundreds of thousands of individual apprenticeships between 1500 and 1800 *The Market for Skill* tells the story of how apprenticeship worked and the way it fuelled economic growth in England Patrick Wallis's book uncovers the activities of apprentices and masters the strategies of ambitious parents the interventions of guilds and the decisions of town officials to show how apprenticeship contributed to the transformation of England He presents a new account of the way the market for

skill contributed to the growth of cities the movement of workers from farms to manufacturing and the spread of new technologies and productive knowledge Apprenticeship succeeded because it was flexible and enforced by institutions especially urban courts that allowed apprentices to change their minds Apprenticeship provided a vital channel for training that families could trust Not everyone could access it and not everyone had an equal chance of success but it was open to most young people whatever their background Exploring apprenticeship across three centuries The Market for Skill shows how the institutions and practices of training helped reshape the English economy Provided by publisher **Historic Preservation & the Imagined West** Judy Mattivi Morley, 2006 She draws on extensive interviews city council proceedings and historic plats and photographs to construct a detailed picture of how these districts originally looked and were used how they were renovated and to what ends they were marketed **Bookmarked For Murder** Dan Andriacco, 2018-09-04 Pages Gone By is more than just Erin Ohio's only used book store It's also a favorite meeting place for writers and readers And early one morning it becomes the scene of a murder when a body is found in the romance section Is the steamy novel Love's Dark Secret clutched in the victim's hand a clue to the killer Or is it more significant that the murder weapon was a statue of the iconic Maltese Falcon of film noir fame As polymath mystery writer Sebastian McCabe and sardonic sidekick Jeff Cody try to unmask the murderer of a friend they get more help than they need from a talk show psychologist and a group of would-be mystery writers with more imagination than deductive skills But only they know that one suspect has big secrets to hide secrets that Mac and Jeff hope don't have to be revealed An homage to the Golden Age of detective fiction the witty and suspense Bookmarked for Murder once again shows why novelist and screenwriter Bonnie MacBird called Dan Andriacco a master of mystery plotting **The Aith Waryaghar of the Moroccan Rif** David M. Hart, 1976 This is a study in both the social and political anthropology and in the social and political history of the most important single tribal grouping in Northern Morocco the Aith Waryaghar This group and the Berber speaking region in which it is located the Rif has always been characterized by the infertility of its agricultural terrain and by its overpopulation to which the two standard cultural responses have been labor migration first to Algeria and today to Western Europe and at another level the bloodfued page xvii Aestheticism and the Marriage Market in Victorian Popular Fiction Kirby-Jane Hallum, 2015-10-06 Based on close readings of five Victorian novels Hallum presents an original study of the interaction between popular fiction the marriage market and the aesthetic movement She uses the texts to trace the development of aestheticism examining the differences between the authors including their approach style and gender
