Market For Rural Land The Trends Issues Policies:

The Market for Rural Land Robert G. Healy, James L. Short, 1981 **Agricultural Land Retention and Availability** National Agricultural Lands Study (U.S.), 1981 **Managing Community Growth** United States. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Investigations and Oversight, 1994 **Growth Management and Public Land Acquisition** Christopher Coutts, 2016-04-15 Bringing together a team of national experts this volume offers a detailed look at the links between public land acquisition programs and efforts to yield smart growth outcomes in the USA Both public land acquisition programs and state and local growth management efforts have been examined in detail but while there is growing recognition that land acquisition can play an important role in smart growth outcomes there has so far been little research into the nexus of these areas of public policy This book investigates various aspects of the land acquisition smart growth linkage and describes model programs and makes recommendations for the adoption of land acquisition efforts nationally and internationally It will appeal to practising planners policy makers public officials and citizen groups as well as academics of urban planning environmental studies geography and other disciplines which examine issues of urban sprawl *Linkages between landownership and rural land* Linda Kay Lee, 1983 **Land Use and Forest Resources in a Changing Environment** Gordon A. Bradley, 1984 **The Geography of Agriculture in Developed Market Economies** I.R. Bowler, 2014-10-13 First published in 1993 The broad objective of this book is to describe and explain the contemporary geography of agriculture in developed market economies The objective has been approached by a team of agricultural geographers each writer contributing an analysis of a particular topic **Beyond the Urban Fringe** Rutherford H. Platt, 1983 Beyond the Urban Fringe was first published in 1983 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The non metropolitan hinterland of the United States is no longer the placid and bucolic countryside celebrated by Currier and Ives As urban America imposes ever increasing demands upon the nation s resources energy water food recreation and scenery peace and quiet are all sought in the land beyond the urban fringe Certain dramatic changes in non metropolitan America are already apparent Census figures from 1980 documented that the population of rural areas and small towns was increasing more rapidly than that of metropolitan areas or the nation as a whole The interstate highway network affords unprecedented access to small cities and towns broadening commuting patterns and enabling industries to relocate outside of cities During the 1960s and 1970s millions of acres were carved yo for second homes and recreational developments a practice which often inflated the price of rural land Beyond the Urban Fringe deals with problems arising from this transformation of nonmetropolitan America It is based on reports given at a 1980 conference sponsored by the Association of American Geographers and funded by the National Science Foundation with the participation of the U S Geological Survey and the Office of Water Research and Technology The authors represent a wide

range of disciplines geography resource economics rural sociology planning law and physics and deal with topics not often found in a single volume the character of land use change in non metropolitan areas rural economic growth and decline the rural land market the growth and decline of small towns farmland policy remote sensing in rural areas the impact of energy development on land use hazardous waste disposal and nuclear plant siting in nonurban areas Geographers planners resource economists and others concerned with environmental and resource management will find Beyond the Urban Fringe a valuable source of current research on a subject of central importance at all levels of government
