Management Principles Fred Selnes, 2010-08-01 This book provides a new framework for the fundamental principles in marketing management. The guiding principle is that marketing management entails holistic management of the factors companies employ to help form the customer preferences and that these factors are interrelated and interdependent. This perspective constitutes a sharp departure from marketing mix as an organising framework for marketing management, the fundamental principle in most contemporary marketing management textbooks. The holistic framework this book presents explicitly acknowledges that customer relationships and brands create value beyond the value of the products and that these values are created across a portfolio of products. The book is primarily written for bachelor students of marketing. It will also prove useful for executive marketing managers however by virtue of its provision of a holistic framework for marketing management.

Introduction to Marketing Management Dr. Megha Sharma, Dr. M. Sumetha, Dr. S. Jayakani, Dr. S. Vennila Fathima Rani, 2023-02-20 Successful marketing management requires the creation and implementation of strategic marketing programs, procedures and activities in line with broader corporate goals, all the while drawing on consumer insights, monitoring metrics and improving internal processes. Management in the field of marketing focuses on the formulation, development and implementation of tactics devised to further the organization's overarching goals. There are many different types of business goals such as expanding the company's customer base or expanding into new markets. To maximize earnings and advance organizational goals, firms need competent marketing management that guarantees high levels of consumer involvement, product attractiveness and focused marketing campaigns. Without good management, you may spend years getting the product ready for launch yet you would still run into problems. Marketing management guarantees you have a firm grasp on the specifics of your target audience's wants and needs from the get-go, even down to preferred hues and box dimensions. It's possible that without it, people won't even be interested in buying your stuff. If you've spent a great deal of effort perfecting your product or service, the correct procedures will guarantee that it reaches your intended audience via the appropriate channels at the optimal moment. Good marketing management is the key to turning a profit in any business. An effective marketing strategy is crucial for survival in today's cutthroat business climate. This aids in the formation of plans to increase earnings and decrease product costs. Distribution and retailing have been supplanted by marketing management.
