Matter Is Life:

Matter of Life, 1996-10 *Vedic concepts of Mind, Matter and Life* Srikanth s, The answers to several questions which are baffling scientists and philosophers today are contained within the treasure house of the Vedas as well as the solutions to several daunting problems threatening human society Access to these answers would open up the possibility of a quantum leap into a world of new truths and new experiences and a study of the knowledge contained in these texts should also help in understanding the founding principles of one of the most ancient civilisations in human history Together these could indicate to us the road to the establishment of an enduring harmony and happiness on our planet The current work attempts to Introduce the reader to the unexplored treasury of humankind s ancient insights The discovery opens fascinating vistas and offers glimpses of the origins of the universe It transports us to a forgotten era when the human mind had attained dazzling heights and delved deep into the mysteries of existence Our supreme concern is to offer a glimpse of these insights of the Vedas in a manner which makes sense to the modern mind and yet does not distort but only translates the insights of the seer scientists who composed the Vedas We shall endeavour to avoid the pitfall of merely expressing our own ideas in the language of a foreign culture To investigate the Vedas fully is a lifetime s work for someone possessed of a superior intelligence This book of necessity is a brief exploration of Vedic knowledge written in the hope that the essence of this fount of wisdom may be conveyed to the reader in an unadulterated form This work is offered to the reading public in the belief that its subject contains much that is valuable for today s troubled global society We follow this with an exploration of Vedic spirituality in its pure form uncovering the real meaning of the terms falsely interpreted by Western scholars as gods and goddesses We include extracts from the ancient texts liberally endowed with poetry and metaphor to illustrate the truths of the cosmic view revealed to humankind through the Vedas **Matter and Life in Coleridge, Schelling, and Other**

Dynamical Idealists Peter Cheyne, 2025-05-12 This book written by renowned historians of philosophy literature and science provides a distinctively interdisciplinary work on matter and life in early modern Germany and Britain 1600 1850 It interrelates key theories of matter and the life sciences from Jakob B hme Ralph Cudworth G W Leibniz Anthony Cooper Shaftesbury Immanuel Kant J W Goethe Novalis Friedrich Schelling G W F Hegel S T Coleridge and Arthur Schopenhauer Schelling s centrality in the philosophy of nature is highlighted but also Coleridge s role in importing and adapting German philosophical and scientific insights into the domain of British science runs through the book At the core of this original project is an interrelated and interdependent analysis of Cambridge Platonism German idealism and British romanticism Under the umbrella term of dynamical idealists the editor of the volume refers to investigators of the vital energy of nature who characteristically combined the tradition of early modern speculative idealism with enquiries into an experiential study of nature involving mysticism chemistry and empirical accounts of physical matter Significantly several chapters concentrate on the relationships between human will agency freedom and God shedding light on modern conceptions of subjectivity and

selfhood All of the above makes this book of great value to historians of philosophy literature and science Matter, Life, and Generation Shirley A. Robbert,2017-04-24 Presents integral approaches to ecology that cross the boundaries of the humanities social sciences and biophysical sciences In the current era of increasing planetary interconnectedness ecological theories and practices are called to become more inclusive complex and comprehensive The diverse contributions to this book offer a range of integral approaches to ecology that cross the boundaries of the humanities and sciences and help us understand and respond to today's ecological challenges The contributors provide detailed analyses of assorted integral ecologies drawing on such founding figures and precursors as Thomas Berry Leonardo Boff Holmes Rolston III Ken Wilber and Edgar Morin Also included is research across the social sciences biophysical sciences and humanities discussing multiple worldviews and perspectives related to integral ecologies The Variety of Integral Ecologies is both an accessible guide and an advanced supplement to the growing research for a more comprehensive understanding of ecological issues and the development of a peaceful just and sustainable planetary civilization **Alden's Cyclopedia of Universal Literature** ,1891 [Signposts to Silence](#) J.S.

Krüger,2018-12-01 Signposts to Silence provides a theoretical map of what it terms metaphysical mysticism the search for the furthest most inclusive horizon the domain of silence which underlies the religious and metaphysical urge of humankind in its finest forms Tracing the footsteps of pioneers of this exploration the investigation also documents a number of historical pilgrimages from a variety of cultural and religious backgrounds Such mountaineers of the spirit who created paths trodden by groups of followers over centuries and in some cases millennia include Lao Tzu and Chuang Tzu Siddhattha and Jesus Sankara and Fa tsang Plato and Plotinus Isaac Luria and Ibn Arabi Aquinas and Hegel Such figures teachings and traditions including the religions of Judaism Christianity and Islam Hinduism Buddhism and Taoism are understood as at their most sublime not final destiny and the end of the road but signposts to a horizon of ultimate silence The hermeneutical method employed in tracking such pioneers involves four steps sound historical critical understanding of the context of the various traditions and figures reconstruction of the subjective intentional structure of such persons and their teachings design by the author of a theoretical map of the overall terrain of metaphysical mysticism on which all such journeys of the spirit are to be located while providing a theoretical context for understanding them tendentially i e taking the ultimate drift of their thinking essentially to transcend their subjective intentions drawing out within the space available some political taken in a wide sense implications from the above such as religio political stances as well as ecological and gender implications Continuing the general direction of thought within what the author endorses to be the best in metaphysical mysticism in its historical manifestations the book aims to contribute to peace amongst religions in the contemporary global cultural situation It relativizes all claims to exclusive absolute truth that might be proclaimed by any religious or metaphysical mystical position while providing space for not only tolerating but also affirming the unique value and dignity of each This orientation moves beyond the stances of enmity or indifference or syncretism or homogenisation of all as well as that of mere friendly toleration It investigates the seemingly daunting and inhospitable yet immensely significant Antarctica

of the Spirit the meta space of silence behind the various forms of wordy inter relationships It affirms pars pro toto totum pro parte and pars pro parte that each religious mystical and metaphysical orientation in its relative singularity represents or contains the whole and derives value from that and that each represents or contains every other This homoversal solidarity stimulating individual uniqueness is different from and in fact implies criticism of the process of globalisation While not taking part in a scientific argument as such Signposts to Silence aims at promoting an understanding of science and metaphysical mysticism as mutual context for each other and it listens to a number of voices from the domain of science that understand this

New Educational Philosophy Bhagirathi Sahu,2002 **The Eclectic Magazine of Foreign Literature, Science, and Art** ,1876 *Subject-matter Index of Applications for Letters Patent, for the Year ...* Great Britain. Patent Office,1887 *Conversations With My Good Friend the Atheist* Richard Cannon,2022-08-01

Why should Christians care about what Atheists believe It is easy to discover what Atheists have to say about Christianity and Christians Pick up a book by any modern Atheist writer read a few random pages and the reader will have a sampling of the criticisms Atheists have regarding religion and people of faith A natural first response is the desire to set the record straight A person responding this way will quickly find themselves going in circles This is one point Christians need to accept and understand From the Christian s perspective it serves no useful purpose when Christians engage Atheists in an attempt to set the record straight Atheism is a worldview or a way of seeing the world Just as the Christian sees their Christian faith as reasonable and rational the Atheist has the same view of what they believe to be true Atheists vary in their definition of what it means to be an Atheist There are however common themes found in the beliefs of people identifying themselves as Atheist It is common for example to find people identifying themselves as Atheists to believe the natural world is all there is This of course excludes the supernatural and since God operates outside of nature God is supernatural and is therefore eliminated in the thinking of Atheism How should the Christian respond when Atheists challenge Christian beliefs How can the Christian respond effectively unless the Christian understands what Atheists believe How can the Christian respond unless the Christian understands why Atheists believe as they do The apostle Paul tells Christians to be ambassadors Ambassadors need to understand the world in which they serve This is why Christians should care about what Atheists believe
