Matter Of Practice:

The Matter of Practice Curt Porter, Rachel Griffo, 2021-05-01 The Matter of Practice presents work by teacher scholars from around the world who are rethinking the relationship between matter and meaning By emphasizing spatial bodily and sensual dimensions of language and literacy practices this volume offers a portrait of language pedagogy and research that challenges traditional barriers between subjects and objects speech and noise and languages and things We envision the term new materialisms as an invitation to locate theorizing researching and teaching practices within the rhythms and textures of our material sensory and perceptual lives These chapters enact a hope that increased engagement with our physical surroundings and sensory experiences can extend the sphere of our social creative and intellectual labor and expand our understanding of what counts as meaningful action

The Company in Law and Practice: Did Size Matter? (Middle Ages-Nineteenth Century) Dave De ruyscher, Albrecht Cordes, Serge Dauchy, Heikki Pihlajamäki, 2017-08-21 This volume brings together nine chapters by specialist legal historians that address the topic of the scale and size of companies in both legal and economic history The bundled texts cover different periods from the Middle Ages the Early Modern Period to the nineteenth century They analyse the historical development of basic features of present day corporations and of other company types among them the general and limited partnership These features include limited liability and legal personality A detailed overview is offered of how legal concepts and mercantile practice interacted leading up to the corporate characteristics that are so important today Contributors are Anja Amend Traut Luisa Brunori Dave De ruyscher Stefania Gialdroni Ulla Kypta Bart Lambert Annamaria Monti Carlos Petit and Bram Van Hofstraeten

Patent and Trademark Tactics and Practice David A. Burge,1999-04-05 International law has made the traditional processes of understanding and using law related to patents and trademarks more difficult to interpret Updated to include expanded coverage of computerware and biotechnology this text walks the reader through the patent trademark and intellectual property maze Natural Kinds and Classification in Scientific Practice Catherine

Kendig,2015-12-22 This edited volume of 13 new essays aims to turn past discussions of natural kinds on their head Instead of presenting a metaphysical view of kinds based largely on an unempirical vantage point it pursues questions of kindness which take the use of kinds and activities of kinding in practice as significant in the articulation of them as kinds The book brings philosophical study of current and historical episodes and case studies from various scientific disciplines to bear on natural kinds as traditionally conceived of within metaphysics Focusing on these practices reveals the different knowledge producing activities of kinding and processes involved in natural kind use generation and discovery Specialists in their field the esteemed group of contributors use diverse empirically responsive approaches to explore the nature of kindhood This groundbreaking volume presents detailed case studies that exemplify kinding in use Newly written for this volume each chapter engages with the activities of kinding across a variety of disciplines Chapter topics include the nature of kinds kindhood kinding and kind making in linguistics chemical classification neuroscience gene and protein classification colour
