Bittner,2001 People do things for reasons but what are reasons and how are they related to the resulting actions Bittner
explores this question and proposes an answer a reason is a response to that state of affairs **A bit of metaphysics**
Antonio Pinto Renedo,2020-11-26 With this book I try to transmit those ideas that I consider appropriate to favor the
progress of humanity Every time we meditate we extract from within ourselves the small proportion of God that we all have
and then we become creators of a new and better world We must not waste this possibility with a life dedicated solely to the
stimulation of the senses When a philosopher meditates and has enough inspiration he becomes the discoverer of a better
world that we could have if we believe in it First the idea exists only in his mind but when the gente believe him becomes
reality to putting his ideas into practice That is the key to evolution because all the wonders that we know today were once
the dream of a philosopher When a person is only concerned with feeling the pleasures of the bodily senses the pleasure of
feeling the essence of the universe that can only be obtained with meditation is lost Someday perhaps there are no more
discoveries to find and then stimuli are the only way possible but in a world in evolution only those seeking the truth so n
able to understand the universe in its whole Because a materialistic man only knows how to travel through a geographical
territory whereas a philosopher when he has enough intuition is able to travel with his mind through time and space and
discover a better world that he can then share with the rest of humanity I also try to offer readers what Jesus called the
water of life that is the food for the spirit that philosophy provides because just as the body feeds on matter the spirit feeds
on emotions which is what philosophy represents I hope this book is like a light that guides people in that ocean of lies that is
