## Paladino A Monograph:

*PALADINO: A MONOGRAPH*. John Sallis, Danilo Eccher, 2001      *On Translation* John Sallis, 2002-10-11 Everyone complains about what is lost in translations This is the first account I have seen of the potentially positive impact of translation that it represents a genuinely new contribution Drew A Hyland In his original philosophical exploration of translation John Sallis shows that translating is much more than a matter of transposing one language into another At the very heart of language translation is operative throughout human thought and experience Sallis approaches translation from four directions from the dream of nontranslation or universal translatability through a scene of translation staged by Shakespeare in which the entire range of senses of translation is played out through the question of the force of words and from the representation of untranslatability in painting and music Drawing on Jakobson Gadamer Benjamin and Derrida Sallis shows how the classical concept of translation has undergone mutation and deconstruction      *Leland Stanford Junior University Publications. *The Leatherback Turtle* James R. Spotila, Pilar Santidrián Tomillo, 2015-10-30 The most comprehensive book ever written on leatherback sea turtles Weighing as much as 2 000 pounds and reaching lengths of over seven feet leatherback turtles are the world's largest reptile These unusual sea turtles have a thick pliable shell that helps them to withstand great depths they can swim more than one thousand meters below the surface in search of food And what food source sustains these goliaths Their diet consists almost exclusively of jellyfish a meal they crisscross the oceans to find Leatherbacks have been declining in recent decades and some predict they will be gone by the end of this century Why Because of two primary factors human redevelopment of nesting beaches and commercial fishing There are only twenty nine index beaches in the world where these turtles nest and there is immense pressure to develop most of them into homes or resorts At the same time longline and gill net fisheries continue to overwhelm waters frequented by leatherbacks In *The Leatherback Turtle* James R Spotila and Pilar Santidrián Tomillo bring together the world's leading experts to produce a volume that reveals the biology of the leatherback while putting a spotlight on the conservation problems and solutions related to the species The book leaves us with options embark on the conservation strategy laid out within its pages and save one of nature's most splendid creations or watch yet another magnificent species disappear      *Argentine Cinema and National Identity (1966-1976)* Carolina Rocha, 2018-01-05 *Argentine Cinema and National Identity* covers the development of Argentine cinema since the late 1950s to the mid 1970s concentrating on the historical film genre and the gauchesque This cultural history investigates the way
