Remaking The Agrarian Dream:

Remaking the Agrarian Dream Brian Quayle Cannon,1992 *Making a Modern U.S. West* Sarah Deutsch,2022
Making a Modern U S West surveys the history of the U S West from 1898 to 1940 centering what is often relegated to the margins in histories of the region the flows of people capital and ideas across borders **Hope in Hard Times** Mary Murphy,2003 Arthur Rothstein Russell Lee John Vachon and Marion Post Wolcott became some of the United States best known photographers through their pictures of Depression era America Their assignment as one of their associates described it was to have a long look at the whole vast complicated rural U S landscape with all that was built on it and all those who built and wrecked and worked in it and bore kids and dragged them up and played games and paraded and picnicked and suffered and died and were buried in it In Montana the four photographers traveled to forty of the state s fifty six counties creating a rich record of the many facets of the Depression and recovery rural and urban agricultural and industrial work and play hard times and the promise of a brighter future The photographers captured the dignity of Montanans as they struggled to scratch out livings from dried up fields nurture families in the shadows of Butte head frames and foster communities on the vast expanses of the northern plains Hope in Hard Times features over 140 Farm Security Administration photographs to illustrate the story of the Great Depression in Montana and the experiences of the photographers who documented it Today these striking images from cities like Butte to small towns like Terry present an unforgettable portrait of a little studied period in the history of Montana Selected from the Farm Security Administration Collection at the Library of Congress in Washington D C the photographs in Hope in Hard Times offer viewers an unparalleled look at life in Montana in the years preceding the United States entry into World War II **Back to the Land** C. J Maloney,2011-02-23 How New Deal economic policies played out in the small town of Arthurdale West Virginia Today the U S government is again moving to embrace New Deal like economic policies While much has been written about the New Deal from a macro perspective little has been written about how New Deal programs played out on the ground In Back to the Land author CJ Maloney tells the true story of Arthurdale West Virginia a town created as a pet project of the Roosevelts Designed to be in the words of Eleanor Roosevelt a human experiment station she was to create a New American citizen who would embrace a collectivist form of life This book tells the story of what happened to the people resettled in Arthurdale and how the policies implemented there shaped America as we know it Arthurdale was the foundation upon which modern America was built Details economic history at the micro level revealing the true effects of New Deal economic policies on everyday life Addresses the pros and cons of federal government economic policies Describes how good intentions and grand ideas can result in disastrous consequences not only in purely materialistic terms but most important in respect for the rule of law Back to the Land is a valuable addition to economic and historical literature **The New Deal and Beyond** Elna C. Green,2003 This collection of ten original studies covers a wide range of issues related to the regional distinctiveness of welfare provision

in the South and the development of the larger federal welfare state The studies examine New Deal and Great Society programs from the Works Progress Administration and Civilian Conservation Corps to Social Security and Medicare In addition they draw attention to such private sector organizations as the Salvation Army and the National Association for the Advancement of Colored People Some essays look at the degree of federal responsiveness to or actual engagement with recipients of assistance One such study examines the dynamics between the New Deal bureaucracy poor women who worked in WPA organized sewing rooms in Atlanta and local political activists concerned about the women s working conditions The power of race and racism to shape the delivery of social services in the region as well as the strong connections between social welfare and civil rights is a concern common to many studies One study shows how linking the availability of federal Medicare funds to racial equality helped end segregation in southern hospitals Others focus on topics ranging from the pioneering North Carolina Fund a state program that shaped Great Society initiatives to the public health nurses and home economists of the Farm Security Administration to Georgia governor Eugene Talmadge s maneuverings against the Federal Emergency Relief Administration The New Deal and Beyond is filled with many new insights into initiating and maintaining social programs in the South a region whose welfare history is key to understanding the larger story of the American welfare state

essential source for the most current thinking and resources on the Great Depression and the New Deal *Building Louisiana* Robert D. Leighninger Jr.,2009-09-18 Robert D Leighninger Jr believes there may be a model for municipal building projects everywhere in the ambitious and artful structures erected in Louisiana by the Public Works Administration In the 1930s the PWA built a tremendous amount of infrastructure in a very short time Most of the edifices are still in use yet few people recognize how these schools courthouses and other great structures came about Building Louisiana documents the projects one New Deal agency erected in one southern state and places these in social and political context Based on extensive research in the National Archives and substantial field work within the state Leighninger has gathered the story of the establishment of the PWA and the feverish building activity that ensued He also recounts early tussles with Huey Long and the scandals involving public works discovered during the late New Deal The book includes looks at individual projects of particular interest Big Charity hospital the Carville leprosy center the Shreveport incinerator and the LSU sugar plant A concluding chapter draws lessons from the PWA s history that might be applied to current political concerns Also included is an annotated inventory of every PWA project in the state Finally this composite picture honors those workers and policymakers who in a time of despair expressed hope for the future with this enduring investment **Brief History of the Bureau of Reclamation** ,2000 **Picturing Arizona** Katherine G. Morrissey,Kirsten Jensen,2005-10 The more than one hundred images by well known photographers such as Dorothea Lange and Laura Gilpin as well as by an array of less familiar ones places the work of local Arizonans alongside that of federal photographers both to illuminate the impact of the Depression on the state s distinctive racial and natural landscapes and to show the influence of differing cultural agendas on the photographic record Includes essays by a variety of authors on life in 1930s Arizona and the photographers who documented it **A Companion to Franklin D. Roosevelt** William D. Pederson,2011-03-21 A Companion to Franklin D Roosevelt presents a collection of historiographical essays by leading scholars that provides a comprehensive review of the scholarship on the president who led the United States through the tumultuous period from the Great Depression to the waning days of World War II Represents a state of the art assessment of current scholarship on FDR the only president elected to four terms of office and the central figure in key events of the first half of the 20th century Covers all aspects of FDR s life and times from his health relationships and Supreme Court packing to New Deal policies institutional issues and international relations Features 35 essays by leading FDR scholars *How to Read the American West* William Wyckoff,2014-05-01 From deserts to ghost towns from national forests to California bungalows many of the features of the western American landscape are well known to residents and travelers alike But in *How to Read the American West* William Wyckoff introduces readers anew to these familiar landscapes A geographer and an accomplished photographer Wyckoff offers a fresh perspective on the natural and human history of the American West and encourages readers to discover that history has shaped the places where people live work and visit This innovative field guide includes stories photographs maps

and diagrams on a hundred landscape features across the American West Features are grouped according to type such as natural landscapes farms and ranches places of special cultural identity and cities and suburbs Unlike the geographic organization of a traditional guidebook Wyckoff's field guide draws attention to the connections and the differences between and among places Emphasizing features that recur from one part of the region to another the guide takes readers on an exploration of the eleven western states with trips into their natural and cultural character How to Read the American West is an ideal traveling companion on the main roads and byways in the West providing unexpected insights into the landscapes you see out your car window It is also a wonderful source for armchair travelers and people who live in the West who want to learn more about the modern West how it came to be and how it may change in the years to come Showcasing the everyday alongside the exceptional Wyckoff demonstrates how asking new questions about the landscapes of the West can let us see our surroundings more clearly helping us make informed and thoughtful decisions about their stewardship in the twenty first century Watch the trailer <http://www.youtube.com/watch?v=aYSmp5gZ4I>

A Chance to Harmonize Sheryl Kaskowitz, 2024-04-02 The remarkable story of a hidden New Deal program that tried to change America and end the Great Depression using folk music laying the groundwork for the folk revival and having a lasting impact on American culture In 1934 the Great Depression had destroyed the US economy leaving residents poverty stricken First Lady Eleanor Roosevelt urged President Roosevelt to take radical action to help those hit hardest Appalachian miners and mill workers stranded after factories closed city dwellers with no hope of getting work farmers whose land had failed They set up government homesteads in rural areas across the country an experiment in cooperative living where people could start over To boost morale and encourage the homesteaders to find community in their own traditions the administration brought in artists to lead group activities including folk music As part of a music unit led by Charles Seeger father of Pete Seeger Sidney Robertson traveled the country to record hundreds of folk songs Music leaders most notably Margaret Valiant were sent to homesteads to use the collected songs to foster community and cooperation Working almost entirely and purposely under the radar the music unit would collect more than 800 songs and operate for nearly two years until they were shut down under fire from a conservative coalition in Congress that deemed the entire homestead enterprise dangerously socialistic Despite its early demise the music unit proved that music can provide hope and a sense of belonging even in the darkest times It also laid the groundwork for the folk revival that followed seeing the rise of artists like Woody Guthrie Pete Seeger Odetta and Bob Dylan Award winning author and Harvard trained American music scholar Sheryl Kaskowitz has had the unique opportunity to listen to the music unit's entire collection of recordings and examine a trove of archival materials some of which have never been made available to the public **A Chance To Harmonize** reveals this untold story and will delight readers with the revelation of a new and previously undiscovered chapter in American cultural history [The FDR Years](#) William D. Pederson, 2009 Born in 1882 in New York Franklin Delano Roosevelt entered public service through the encouragement of

the Democratic Party and won the election to the New York Senate in 1910 This book details his administration at the height of the Great Depression as he valiantly led the nation with the phrase The only thing we have to fear is fear itself *Franklin D. Roosevelt and Congress* William D. Pederson, Byron W. Daynes, 2001 Examines the reactions of particular groups within Congress including those of individual congressmen to the changing role of the federal government during the New Deal era Also examines facets of the New Deal era from a contemporary perspective **Franklin D Roosevelt Congress** , *The Handbook of Social Policy* James Midgley, Michelle Livermore, 2009 The Handbook of Social Policy is a comprehensive examination of the development implementation and impact of social policy The contributors document the substantial body of knowledge about government social policies and their driving forces
