### Section Reading Support Transparency

#### Key Principles of the American Economy

The flow of resources, goods, and services is circular.

- Producers pay wages to individuals for the use of labor.
- Producers pay rent to individuals for the use of land.
- Producers pay interest to individuals for the use of capital.
- Producers produce goods and services for individuals.
- Individuals pay producers money for goods and services.

When there is free competition among sellers and among buyers, a market works according to laws of supply and demand.

- People tend to demand, or buy, more of a product when the price is low.
- More producers are willing to supply, or produce, a product and to supply more of it when the price is high.
- At higher prices, more of a product will be supplied but less will be demanded.
- At lower prices, less of a product will be supplied but more will be demanded.

The market price is the price at which buyers and sellers agree to trade.

- In an ideal market, quantity supplied and quantity demanded equal each other at this price.
- In the real market, prices may be higher or lower.

**Social Security as a Human Right** Eibe H. Riedel, 2006-11-07 Article 9 of the International Covenant on Economic Social and Cultural Rights on the right to social security is the shortest article in the entire Covenant and for that reason alone highly abstract and vague A comprehensive analysis of the article 9 is still lacking not least because it is widely regarded as a Pandora s box better not to be opened Experience has shown that the quality of the state reporting procedure is greatly improved once the Committee on Economic Social and Cultural Rights has adopted a General Comment Thus it seems very desirable to close this gap For the reason an International Expert Workshop on the Right to Social Security was held in April 2005 at the German Institute for Human Rights whose purpose was to highlight specific issues of the right to social security which should be addressed by the Committee when drafting a General Comment on article 9 The results of this workshop are published in this volume providing an insight into the current challenges on social security as a human right
