Security In North Africa Internal And External Challenges:

Security in North Africa: Internal and External Challenges Ian O. Lesser, RAND CORP SANTA MONICA CA., 1993
The emotional reaction across North Africa during the Gulf War and the deepening turmoil in Algeria as the country grapples with an assertive Islamic movement have awakened Western interest in the prospects for stability along the southern shore of the Mediterranean The alarming demographic imbalance between north and south and the resulting flow of migrants to an increasingly inhospitable Europe is now a feature of the European security debate To these concerns must be added the risk of nuclear and ballistic missile proliferation emanating from Libya and Algeria Among foreign and security policy elites and publics in southern Europe France and to a growing degree in Europe as a whole it has become fashionable to refer to a new arc of crisis in the south Previous RAND reports have charted this new aspect of the European security environment and the significance for U S policy The North African dimension of the evolving security situation in the Mediterranean was not systematically explored in these reports except as it was reflected in the views of southern Europeans This report attempts to fill this gap focusing on regional developments as seen from the south The report discusses the prospects for stability in Morocco Algeria and Tunisia identifies regional flash points and assesses the implications for U S policy

A Sense Of Siege Graham Fuller,2018-02-12 The clash of civilizations has become a common phrase in discussions of U S Middle East relations This book explores the nature of the friction between the Muslim world and Western states looking at legitimate perceptions and grievances on both sides involving historical political economic cultural psychological and strategic elements Arguing that Islam versus the West does not represent the arena of the next global ideological struggle the authors examine specific issues of a bilateral nature that require careful handling to prevent the consolidation of states into opposing blocs They discuss Islam s efforts to politically enhance the real power of Muslim states and to equalize relations with the West in the strategic arena the enlarged role of Islam in the internal politics of Muslim countries and the urgency of political economic and social change to break away from traditional authoritarian orders A central theme of the book is that political Islam threatens the established order in most Muslim countries far more than it threatens the West and that violent confrontation can best be circumvented by integrating Islamist forces into the political process
