Voltaire the French philosopher once said It is not enough to conquer one must learn to seduce The art of seduction has been studied for centuries by philosophers writers artists and scholars alike Most people think seduction is sex but it is not Seduction is the waiting period between the time you start trying to achieve what you actually want until you achieve the outcome It doesn t have to be related to romance You can seduce a job to hire you enjoy the seduction of religious experience or even be seductive when trying to woo a nanny to come to take care of your family It can be applied to every walk of life For the purposes of this book we will focus on seduction in the romantic sense especially the dating world In the dating world where there are no set rules seduction helps to level the playing field It is difficult to take the body of someone else by force but if you seduce them properly they will happily give in to you whether they be man or woman Voltaire had it right The art of seduction is not about conquering someone else it is about letting the other person feel like they are giving you a gift when they give in to you Seduction is not even about sex Often at the end of a dating tango sex is the result but the seduction is the waiting part until the sex If you can make the waiting part interesting and fun it only intensifies the bond of sex To get to the point of seduction you have to take a few steps This book is all about helping you get to the end goal of what you want in a
