*Seeds of Fire* Gordon Thomas, 2001 Gordon Thomas reveals information about China's intentions to use the current crisis to launch itself as a new super power and become America's new major enemy On September 11 2001 the Chinese Peoples Liberation Army had come to sign the contract with Afghanistan that would provide the Taliban with missile tracking state of the art communications and air defense systems *The Battle For China's Past* Mobo Gao, 2008-02-20 Shows that the Mao era was beneficial for most Chinese citizens A powerful mixture of political passion and original research a brave polemic against the fashionable view on China Aims a knockout blow at Jung Chang's recent book on Mao which Bush and the conservatives have reviewed Gregor Benton Professor of Chinese History University of Cardiff This important book opens a much needed window onto Chinese perceptions of the country's post Mao direction Highlights the renewal of popular support for socialism and the growing opposition to contemporary state policies Martin Hart Landsberg Professor of Economics Lewis Clark College Portland Oregon Mao and his policies have long been demonised in the West with the Cultural Revolution considered a fundamental violation of human rights As China embraces capitalism the Mao era is being surgically denigrated by the Chinese political and intellectual elite This book tackles the extremely negative depiction of China under Mao in recent publications and argues most people in China including the rural poor and the urban working class actually benefited from Mao's policy of a comprehensive welfare system for the urban and basic health and education provision for the rural which is being reversed in the current rush towards capitalism By a critical analysis of the mainstream account of the Mao era and the Cultural Revolution and by revealing what is offered in the unofficial media debates this book sets the record straight making a convincing argument for the positive effects of Mao's policies on the well being of the Chinese people *Newsmax.com*, 2002-12 **China Stands Up , China and the Global Political Economy** S. Breslin, 2016-04-30 This IPE Classic considers one of the most pressing issues of the Twenty First century the relationship between domestic configurations of power and globalized production processes in shaping the process and implications of China's re engagement with the global economy **China, Japan and Regional Leadership in East Asia** Christopher M. replace US leadership Japan and China and what kind of leadership do we have to expect The authors come to the conclusion that it is a matrix or combination of leadership options rather than a single leadership type depending on issue domains governance structure and geospatial scales The conclusions by Christopher Dent admirably draw the theoretical and empirical issues together Reinhard Drifte Pacific Affairs This book considers themes evidence and ideas relating to the prospects for regional leadership in East Asia with particular reference to China and Japan assuming regional leader actor roles Key issues discussed by the list of distinguished contributors include the extent to which there is an East Asian region to lead China Japan relations different aspects of Japan and China s positions in the East Asia region how the seemingly inexorable rise of China is being addressed within the region how China and Japan have explored paths of regional leadership through certain regional and multilateral organisations and frameworks the position of certain intermediary powers i e the United States and Korea with regards to regional leadership diplomacy in East Asia Invaluably the concluding chapter brings together the main findings of the book and presents new analytical approaches for studying the nature of and prospects for leadership in East Asia China Japan and Regional Leadership in East Asia will be essential reading for upper level undergraduate and postgraduate students and researchers of international relations regional studies international political economy and economics as well as Asian and development studies Politics in China Since 1949 Robert

Weatherley,2007-01-24 Since the victory of the 1949 revolution the incumbency of the Chinese Communist Party has been characterized by an almost relentless struggle to legitimize its monopoly on political power During the Mao era attempts to derive legitimacy focused primarily on mass participation in political affairs a blend of Marxist and nationalist ideology and the charismatic authority of Mao Zedong The dramatic failure of the Cultural Revolution forced the post Mao leadership to discard these discredited paradigms of legitimacy and move towards an almost exclusively performance based concept founded on market economic reform The reforms during the 1980s generated a number of unwelcome but inevitable side effects such as official corruption high unemployment and significant socio economic inequality These factors culminated ultimately in the 1989 demonstrations in Tiananmen Square and throughout China Since Tiananmen the party has sought to diversify the basis of its legitimacy by adhering more closely to constitutional procedures in decision making and to a certain extent by reinventing itself as a conservative nationalist party This probing study of post communist revolution Chinese politics sets out to discover if there is a plausible alternative to the electoral mode or if legitimacy is the exclusive domain of the multi party system *Hiramic Brotherhood* William Hanna,2017-07-18 This novel follows journalist Conrad Banner who is intent on filming a documentary in the Occupied Palestinian Territories Inspired by his father Mark an author and foreign correspondent with numerous journalism awards for his coverage in the Middle East Banner s documentary presents a factually impartial account of the conflict Hatred and violence was also being continually provoked by Israel s ethnic cleansing of the indigenous population which was whitewashed by a form of propaganda known as hasbara or explanation

Such propaganda was aimed at an international audience to portray contentious Israeli action and policies past and present in a positive light while providing a negative portrayal of Arabs in general and Palestinians in particular Along with Jewish activist Adam Peltz and Palestinian guide Sami Hadawi Banner finds himself unwelcome resulting in some hazardous and ultimately fatal consequences Hiram Brotherhood is motivated by the blatant denial of human rights to millions of people and in particular children by the double standard of Western democracies Exploring themes of culture racism religion and violence Hanna brings to the fore a compelling story of struggle and divide

**Servitors of Empire** Darrell Hamamoto, 2014-08-01 Forcing a fundamental rethinking of the Asian American elite many of whom have attained top positions in business government academia sciences and the arts this book will be certain to generate a good deal of controversy and honest discussion regarding the role Asian Americans will play in the new century as China and India loom ever larger in the world economic system Not since the large scale infusion of scientists and engineers fleeing Nazi Germany has there been such a mass importation of intellectual labor from U.S. client states in Asia One of the specialized tasks assigned to this group is to build the technetronic infrastructure for the new world order command and control system Servitors of Empire is not intended to fan the flames of suspicion and paranoia aimed at Asian Americans but serves to illuminate the way in which highly trained knowledge workers are being employed to bring sovereign nations such as the United States under centralized rule made possible through advances in bioscience IT engineering and global finance
